Due to its early ripening, Red Bobs is seldom damaged by rust or frost

Of this wheat Mr. Wheeler says: "I believe Red Bobs wheat will revolutionize the grain industry of Western Canada. - It is not liable to be damaged by rust or frost. Grown side by side with Marquis on my farm, it outyields Marquis by eight to ten bushels per acre, and ripens from six to ten days earlier. The Red Bobs wheat has an exceptionally strong straw, a compact head that produces from six to nine spikelets on each head, with from three to six grains in each spikelet—the head filling perfectly clear to the tip. I consider it

Red Bobs

Red Bobs wheat is the most important agricultural development of recent years. The evidence establishing the superiority of this new variety is conclusive. Under ordinary circumstances this discovery would have been seized upon by private interests and exploited. Enormous prices would have been charged, the middle man would have taken extortionate profits, and only the wealthiest farmers could have purchased the seed.

The Grain Growers' Guide will distribute all of Mr. Wheeler's different varieties of wheat during the next two years. The Guide has paid a high price for this wheat. Mr. Wheeler is entitled to this, but through its system of distribution The Guide, instead of cornering the wheat for personal profit, is placing it within easy reach of every farmer in Western Canada.

To make it easy for anyone to secure Mr. Wheeler's new wheat all of the available supply will be distributed during the summer months. You cannot buy any of this grain. You can secure as much as you care to earn by aiding us in extending The Guide's field of usefulness.

The Guide has published a "Red Bobs" book that tells the secret of Mr. Wheeler's unusual success. It also gives the records of this new wheat and tells the interesting story of its discovery and development. This book should be read by every man that is raising grain in any one of the three Western provinces.

Since its organization The Guide has always endeavored to render a practical service—a service that would aid in making agriculture more profitable. The Red Bobs book was published with this end in view.

We will send a copy of this valuable book—Free—to any person upon application. There is a copy of this book for you. It will be mailed without any obligation on your part.
