

Pandora Conveniences

The "Pandora" Range has triple grate bars that turn easily because each bar is shaken separately. The firebox is made smooth to prevent clogging of ashes and the ash-pan is large enough to hold more than one day's ashes. Write for booklet.

Warning to Class I Men.

London Advertiser.
"Passive registers and men who are regarding the military service proclamation indifferently may find to their sorrow, when too late, they made the greatest mistake of their lives," said Deputy Registrar W. E. Wismer Monday, when his attention was called to the fact that certain young men had been credited with the statement that they did not intend to bother their heads over the proclamation.

"You may state with all the emphasis at your command that those men in class one who fail to apply at their nearest post office by November 10 for a 'report for service' form or enter a 'claim for exemption' may after that date be subject to the penalty provided by the act.

In order that no man within the class can after November 10 claim that he was under a wrong impression regarding the conditions of the act, military authorities request that a warning issued to the effect that all men in the class must before Nov. 10, do one of two things, sign a 'report for service' form or enter application for 'claim for exemption.' After November 10 military officers can at any time or any place require a man within the prescribed class to produce his receipt for either service or exemption forms.

At the lower portion of each receipt the holder of such is impressed with the importance of having the document at all times in his possession. Otherwise he may be immediately arrested by the militia and under the act will be subject to the penalty provided.

The act provides that anyone who fails to report within the time prescribed Nov. 10, shall, according to the words of the act, "be guilty of an offence for which he shall be liable on summary conviction to imprisonment for any term not exceeding five years with hard labor, and he shall nevertheless if he be so required be compelled to serve immediately in our said expeditionary force."

Saturday evening a young man who is within the first class stated that he wasn't going to bother his head about the proclamation.

"It's just plain bunk and another recruiting scheme," he remarked.

For such men as these, the above warning is issued.

Mrs. Williams, wife of H. L. Williams a prominent fruit farmer living on the 1st concession of Mersea Township, was instantly killed shortly before noon Sunday. She had been to Leamington with her husband, and when in front of her home on returning saw her pet cat lying dead in the wire fence. She went to get it, and on touching the cat fell over dead. Investigation showed that the high wind had blown down one of the wires of the Edison Electric Power Co. It lay across the fence and as soon as Mrs. Williams touched the cat several thousand volts passed through her. Her husband while trying to remove his wife from where she had fallen received such a powerful shock that he was knocked down. Experts say that his escape from instant death was miraculous.

Shorthorn Cattle & Oxford Sheep.

Present Offering in Shorthorns:— Young Bulls from 8 to 10 mos. old, by same sire as Junior Champion, Female, at Leading Canadian Fairs, 1915.

In Oxfords:— Choice Ram Lambs by Imported sire.

KNECHTEL & KNECHTEL

All Must Work.

The state of Maryland is no place for "gentlemen" just now. The word gentleman is used in the Canadian official way, meaning a man who doesn't work.

In Maryland a law has been passed and put into execution compelling every man to work at something. There are no exceptions; every man between the ages of 18 and 50 must work at something, under the penalty of heavy fine or imprisonment. The police take around registration cards getting all particulars; then the order comes "You are to report for work at the canning factory," or foundry, or the farm, or whatever other place work is needed.

Ikey Wanted a Straight Salary.

A resident of a little place in United States which is designated on the maps as New York City sends us a good joke which he claims had its origin in the burg where this man of letters whose front name is William lives. A son of Abraham was drafted into the United States Army. He was a tall, well-set fellow and looked tip-top in an officer's uniform so the examiner said to him, "Ikey, would you like a commission?" "No," promptly replied Ikey, "I don't want a commission, I want it a straight salary. How do I know how many I am going to kill?"

The Globe makes the apt and timely observation that people who have never known luxury will not have to be taught how to avoid waste of food stuffs. There is altogether too much preaching to the common people these days. If the wealthy people in the cities would dispense with some of their luxuries the country would have saving that would be worth while. The money that is spent in expensive yachts, automobiles, summer outings and needless luxuries at home would soon make a respectable war fund.

It was stated on excellent authority in Toronto on Monday that it was practically certain that Charles M. Bowman, M. P. P., of West Bruce, would be the choice of the party to succeed Hon. Newton Wesley Rowell as leader of the Opposition in the Legislature. Mr. Bowman was born at St. Jacobs, Waterloo County, in 1863. He is a manufacturer, and is interested in a cannery at Southampton, his home town, and in the Bruce Peninsula. He entered the Legislature in 1898. He is a Presbyterian.

After November 1 the net profits of Canadian millers will be limited to a maximum average of 25 cents on the milling of sufficient wheat to make a barrel of flour of 196 and the offals produced in connection with such milling.

Get Behind the Wheel of a Ford and Drive

TRY it just once! Ask your friend to let you "pilot" his car on an open stretch. You'll like it, and will be surprised how easily the Ford is handled and driven.

If you have never felt the thrill of driving your own car, there is something good in store for you. It is vastly different from just riding—being a passenger. And especially so if you drive a Ford.

Young boys, girls, women and even grandfathers—thousands of them—are driving Ford cars and enjoying it. A Ford stops and starts in traffic with exceptional ease and smoothness, while on country roads and hills its strength and power show to advantage.

Buy a Ford and you will want to be behind "the wheel" constantly.

The mystery of 50-cent eggs in summer and butter selling in the almost productive season at winter prices have been solved. Commissioner O'Connor reports that these products have been withdrawn from the market and placed in cold storage to such an extent that there are now over 13,000,000 dozen eggs waiting for the boost of winter prices and close upon 13,000,000 pounds of butter.

Fines aggregating \$700 were levied on three of our citizens on Monday by Magistrate Bell for violation of of the Ontario Temperance Act by drinking liquor in a place other than their private dwellings. This should be a warning to hip pocket vendors of booze.—Chesley Enterprise.

Mr. D. M. K. Fisher, who returned home Saturday from harvesting the crop on his main farm near Eye Brow, Sask., says the wheat crop in that section is noticeably slight. It averaged only from 12 to 15 bushels to the acre, whereas last year the yield was 22 bushels. What is true of the Eye Brow district is the case in the most of Saskatchewan.
