HEALTH WRECKED THROUGH LA GRIPPE

It Generally Leaves the Patient Debilitated and an Easy Victim to Other Diseases.

One of the foremost medical writers says: "It is astonishing the number of people who have been crippled in health for years after an attack of la grippe or influenza." The real danger from this disease, which sweeps over Canada every winter, is during convalescence, when the characteristic symptons, the fever, the catarrh, the headthe and the depression of spirits pass away. Grip leaves behind it weakened vital powers, thin blood, impaired ligestion and over-sensitive nervesa condition that makes the system an easy prey to puenmonia, bronchitis, easy prey to puenmonia, bronchitts, rheumatism, nervous prostration and even consumption. It is a condition that calls most emphatically for a tonic for the blood. Dr. Williams' Pink Pills are a tonic especially adapted to meet this need, as they purify and enrich the blood. They tone up the nerves and give vigor, strength, and health to the debilitated system.

Mrs. Howard, D. Chaffey, Indian Is-Mrs. Howard D. Chaffey, Indian Island, N. B., says: "For several winters in succession I was attacked by la scratcher.

This will remove stains, took the precaution of fortifying my system with Dr. Williams' Pink Pills and escaped the trouble, while many of my neighbors were down with it. In fact, I enjoyed the best of health all spring and feel sure this medicine will so fortify the system as to prement the trouble."

These Pills are sold by all medicine dealers or may be had by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

THE BRITISH NOTE.

THE BRITISH NOTE.

(Chicago Tribune)

The British may not have set the facts forth accurately, but, if they have, it must be conceded here that their nation exigency demands the fullest use of protective measures. Great Britain has taxed itself for generations to obtain such control of the seas as would enable it to adopt such military measures as might be needed in war. Germany has taxed litself for generations to provide an army which would carry the war into the other nation's territory. Each has succeeded in its programme.

Battles are fought almost everywhere except in German territory. Ports are closed except as the British permit them to be open. The United States cannot expect Great Britain to give up its advantage unless a gase free from equivocations and deceits can be established by this nation. If we engage in contraband trade we may as well expect that there will be interference with other trade.
