WEDNESDAY, JAN'Y 6, 1886,

LUMBER IMPORT DUTY, Etc.

How New Brunswick and the Whole friends, Mr. Foster could be defeated. A well known York County lumber perstor, in conversation with the writer straight, said: "If the recommendation or the abolition of the import daty on anadian lumber into the United States at aims in President Cieveland's mesors to Congress be adopted, it will be a case thing for the lumbermen of this

the new market thus opened for our lum- contest was uncalled for. Mr. Domville ber will be a great boon to all engaged and his Conservative and Liberal friends in this greatly epressed industry, which chose to think differently, and if the renets but little profit as times are at pre- sult is contrary to their expectations ent. With better markets on this side they can blame nobody but themselves. the Atlantic, the production thus divert- Now that the election is over the Liberal ed from the English market might pos- papers pretend to believe that no other bly produce more remunerative prices result could have been expected. The in Great Britain. Depending as we do Globe says "Of course, Mr. Foster was to so great an extent upon the lumber elected in Kings. Mr. Domville labored nterest, which is the leading one on the under the disadvantage of having no North Shore of New Brunswick; better journal to take up his cause." Is it not a prices for our wood exports will be hail- | fact that the Globe, the Telegraph and the ed with gladness, associated as such an Transcript did their utmost to secure advance must be with improvement in Mr. Domville's election, and yet the poor general business. At the same time do man had no paper to help him. So far not the lessons of the past teach us the as St. John and Moncton (the nearest progeny of the trotting stallion "Columrisk involved in depending so much upon points) were concerned, there were three pression. Frue, this industry has furtwo in his favor. That the three papers by Mr. John McKeen. While trotting at dished employment to thousands of the referred to did Mr. Domville very little a good pace up the track, the left runner population; it has filled our ports at good in the election is true, but they entered a little pile of drifted snow, population; it has filled our ports at good in the election is true, but they which was covered with a crust, and did all they could, and what could they almost immediately broke off at the axle. the general business; but on the whole more. Then we have the Transcript almost immediately broke off at the axie. As the driver fell among the backen gear how few have been permanently benefit-joining in, with "The defeat of Mr. I he arises the arises the axie." bled in lumbering has come out of the operations of years well nigh stripped of his possessions—worse off by far than if he had kept his teams on the farm and followed his farming pursuits—and many a vacant farm and deserted homestead in the Northern section of the Pronoce stand as monuments of the danger incurred by neglecting farm overations to the condition had been destined at an answer.—

Foster could hardly be hoped for under the circumstances." Judging from the globe's utterances the election was a foregone conclusion. Then why was it and a managed to throw himself to one side of the wreck, and thus escaped injury. The horse was stopped just at the end of the track, apparently uninjured. All who saw the accident were thankful that Mr. McKeen escaped so well, and increase of tonnage of 1564 tons: Sack, increase of tonnage of the province in the tonnage from 677 to 657 vessels, and the run, and kicked several times. Fortunately for the driver, who pluckily and a decrease in the tonnage from 677 to 657 vessels, and the run, and the red by neglecting farm operations to follow a life in the woods during the winter months. In a vast majority of cases the agriculturist who does so finds the balance against him when he comes to square accounts. While we candidly of Marine. That each party field its hard.

All who saw the accident were thankful that Mr. McKeen escaped so well, and commended him for maintaining his grasp of the reins. Had he not done so, the animal would in all probability have been scriously injured. The driver's to square accounts. While we candidly a ferroon's sport was not ruined so that Mr. McKeen escaped so well, and commended him for maintaining his grasp of the reins. Had he not done so, the accident were thankful that Mr. McKeen escaped so well, and commended him for maintaining his grasp of the reins. Had he not done so, the accident were thankful that Mr. McKeen escaped so well, and commended him for maintaining his grasp of the reins. Had he not done so, the accident were thankful that Mr. McKeen escaped so well, and commended him for maintaining his grasp of the reins. Had he not done so, the accident were thankful that Mr. McKeen escaped so well, and commended him for maintaining his grasp of the reins. Had he not done so, the accident were thankful that Mr. McKeen escaped so well, and commended him for maintaining his grasp of the reins. Had he not done so, the accident were thankful that Mr. McKeen escaped so well, and commended him for maintaining his grasp of the reins. Had he not done so, the accident were thankful that Mr. McKeen escaped so well, and commended him for maintaining his grasp of the reins. Had he not done so, the accident were thankful that Mr. McKeen escaped so well, and commended him for maintaining his grasp of the reins. Had he not done so, the accident were thankful that Mr. McKeen escaped so well, and that M to square accounts. While we candidly admit that there are sections of the Province better adapted in some respects of Marine. That each party did its best to win is evidenced in the large vote polled, there being 2036 for Foster and for the prosecution of agriculture than 1655 for Domville, or a total of 3691. the Northern part of New Brunswick, it is nevertheless plain to the most casual bserver that this ennobling pursuit has much neglected, as evidenced by the fact that while our soil is well of Madden, while on his way from Caraadapted for the culture of oats and pota- quet to his home in Pokemouche, was enjoyable gathering in the church from frozen to death. toes, large quantities of these requisites James McGinley, Esq., Registrar of land, to say nothing of thousands of tons of hay and other produce. thousand lives were lost. The Vale of Cashmere, India, was likewise visited during the summer; over 3,000 persons per-ished, 70,000 houses were razed and 33,000 animals lost at Tashkend, Asiatic Russia; over 50 persons were killed and 100 injured from the same cause and several shocks in Asia Minor resulted in great

THE NEWS CONDENSED.

Toronto received last year \$12,920 for license fees of various kinds.

The Scott Act has been defeated in Argenteuil county, Quebec, by a small majority.

It is estimated that over 600,000 bushels of potatoes have been shipped from the Island this fall, mostly to American ports.

shocks in Asia Minor resulted in great loss of life and property.

In the Piedmontes, Hautes and Italian Alps avalanches crushed many villages and buried in the aggregate a thousand people. A church in which were many worshippers was crushed and few escaped. An avalanche on Eagle River, Colorado, in April, killed nine persons, and about the same time 24 people in Iceland were swept into the sea and perished. A village in Armenia was destroyed in May and 70 souls hurried into eternity.
