Chatham, Oct. 8.—Word was received in the city to-day that the schooners Erie Stewart, owned by John Piggott & Sons, and the Ontario, owned by Captain Grenville, had been lost during the gale last night on the breakwater, at Champton Island, near Southampton. The vessels left Chatham on Wednesday last for Parry Sound district. The Ontario was loaded with hay, and the Erie was light. Both are total losses. The crews were forced to spend an unenviable night on the breakwater, but are all safe. The Erie Stewart was a vessel of about 175 tons, and average. The other vessel is smaller.

was the demand last night of the most largely attended meeting ever held in Labor Hall.

The gathering was addressed by former Governor McInnes, of the Yukon, City Solicitor Cowan and Rev. Dr. Fraser.

At the close the league wired Sir Wilfrid Laurier that the public meeting unanimously endorsed the resolutions of the Dominion Trades Congress and the Provincial Labor Congress regarding Orientals. They also protested against the commission to Japan because of the delay which would ensue.

A message was also sent to Premier McBride, requesting an immediate session to enact the Natal Act, if Lieutenant-Governor Dunsmuir refuses his assent to the present measure.

The feature of the meeting was Mr. McInnes' declaration that Lieutenant-Governor Dunsmuir could not constitutionally refuse to sign the present Natal Act. Even a King could not under the British constitution refuse to comply with the will of the people. 'Either Dunsmuir will sign or McBride must resign,' said Mr. McInnes.

He added that he had introduced the Natal Act in the Dominion House in 1893. The east had fought it to defeat, although it was introduced on the advice of Mr. Joseph Chamberlain. He declared that Sir Wilfrid Laurier had broken his pledge of 1896 to carry out the wishes of the people of British Columbia on the question.

Ottawa, Oct. 8.—Canada's commercial agent at Leeds reports to the Department of Trade and Commerce that prospects are unusually bright for high prices and a good market for Canadian turkeys, chickens and apples in England this fall and winter. The English crop of apples is very small this year, and Canadian sources of supply will be the main dependence of the English dealers. He also notes that there is a good opening in Leeds and Sheffield for the Canadian manufacturer to supply wooden handles for cuttery, tools, etc.

Paris, Oct. 8 .- A sensation has been Paris, Oct. 8.—A sensation has been caused by the remarkable confession of Antonine Thomas, who was arrested with his mother and sister, charged with complicity in the theft of the famous cope of Orth, valued at \$120,000, from the Church of Ambasea, near Limoges. Thomas declares that after the passage of the separation law antiquaries of Paris, some of them millionaires, hired him and others to bribe parish priests to surrender the relies and substitute counterfeits, which could later be turned over to the Stafe. This plan continued for months, and Thomas finally went boldly into whelesale burglary. Thomas estimated the amount of his robberies at about \$400,000.

HANGMAN LOSES HIS JOB

Van Hise's Noose, Which Killed 75 Van Hise's Noose, Which Killed 75
Persons, Qusted by Electric Chair.
Trenton, N. J., Oct. 9.—James Van
Hise, of New Jersey, is out of a job, and
the twenty-one sheriffs of New Jersey
have been rid of a duty that has been
for years one of the drawbacks to an
otherwise desirable office by the completion of the installation of an electric
chair at the New Jersey State prison in
which condemned murderers will be put
to death. It is likely that the first man which condemned murderers will be put to death. It is likely that the first man to be put to death in the chair will be Michael Tamosi, of Libertyville, who was convicted of the murder of Mrs. Delia Congellio last May. Probably the next will be Charles Gibson and Stephen Dor-sey, who were convicted last week in Camden county of the murder of Mrs. Natoli.

Natoli.

For many years James Van Hise has been making his living by relieving the sheriffs of the different counties of the task of carrying out the law's severest decrees. Sheriffs are allowed \$500 each for a hanging, but Van Hise has been doing the joos at cut rates, from \$250 up. Van Hise tried several years ago to have himself appointed the official "hangman" of the State, and he also lobbied strengues has grainst the passage of "hangman" of the State, and he also lobbied strenuously against the passage of the bill providing for the electric chair. Van Hise's father and grandfather were hangmen, but some years ago the ignominy of his occupation reflected so strongly against his children that they almost persuaded him to give it up. He had practically decided to do so when he invented a method of adjusting the fatal noses so as to break the neck of the victim, this giving him so much encouragement that he determined to continue his grewsome business.

Van Hise's first victim was Bridget Dorgan, a Middlesek county woman who was hanged forty-five years ago. The

James Van Hise has officiated at the hanging of seventy-five persons, seventy-three men and two women. Some of these were in New York, where he frequently served as hangman before the adoption by that State of the electric chair
