SHORT SESSION.

TEN MINUTES YESTERDAY.

Serious Attempt to be Made to Finish the Debate on the Address by Thursday—Some Questions to be Answered.

Toronto, Feb. 18.-There was a tenute session of the Legislature yesterafternoon. A number of petitions asking that the three-fifths clause should betrepealed were read. Mr. W. H. Hoyle, the member for North Ontario, introduced the bill to amend the line fence set, which was given its first reading, and then the Premier moved the adjournment.

ment.

260-day it is not likely that the House will sit later than 6 o'clock, although some little progress will be made in the debate on the address. Wednesday will be an' off day, for most of the members have accepted the Minister of Agricultural college at Gueiph, and in the evening the members will be entertained by the Speaker, the Hon. Thomas Crawford, at dinner. A really serious attemnt to conclude the debate Thomas Crawford, at dinner. A really serious attempt to conclude the debate on the address will be made on Thursday, when a night session will, if necessary, be held. It is hoped, however, that it will be concluded in the aftermon with the speeches of the leader of the Opposition and the Premier.

COW TESTING ASSOCIATIONS.

Bominion Department of Agriculture Branch of the Dairy and Cold Storage Commissioner.

The records of two associations in the Province of Quebec are full of interest. In one association the highest yield of any cow in a certain herd during six months, June to November, was 132 lbs. fat. In a neighboring herd the best yield was 200 lbs. fat, or a difference of 488 lbs. fat. This is a difference in the earning power of these two cows of at Jeast seventeen dollars in six months. This is not a contrast between a good and a poor cow, but between the best cow in each herd. In this case twenty cows of the one kind equal forty-four of the other, as regards value of product. Why should not be returns from scores, yes hundreds, of our dairy cows be increased by seventeen dollars? They could be very easily, if farmers were fully alive to the posisbilities of systematic improvement. We must aim higher. In another association a more startling difference is descernible. In one herd improvement. We must aim higher, another association a more startling creme is descernible. In one herd best cow yielded 450 lbs, fat during full period of lactation, while the tow in another herd gave only 141. With butter [1,4,7,5] earliers lb. Ils. With butter fact at 25 cents ner lb. the one cow is credited with \$12.70, and the other with only \$35.32. This is a difference of \$87.38 between these two cows. Assuming that the cost of feed is the same in both cases, and is \$30, are find that 12 cows in the one case would equal 188 of the other.

Ottawa, January 30th, 1908. A WASHINGTON PLOT.

Spanish Paper of Havana Says War Office Fixed Loss of Maine.

Havana, Feb. 17.-The Diario Escanol Spanish organ, commenting editorially on the anniversary of the loss of the battleship Maine, says: "Everyone, in cluding the large part of the Yankee na tion which is honest, and which main tion which is honest, and which main-tained that the declaration of war against Spain was a crime, believes and will continue to believe that the explosion was arranged in the War Department at Washington, and that it was carried out by mercenary hands among the crew, acting under orders from offizers on board.

"At the burial of the victims of the tragic event, which was arranged and paid for by the Spanish city government all the officers of the wrecked vessel as all the officers of the wrecked vessel assisted, with their captain at their head,
wearing their brilliant full dress uniforms. That circumstance was and continues to be one of the weighty proofsthat must convince all that all the officers, save the one chosen as a victim,
had taken their luggage ashore from the
ship and placed it in a safe and convenient place."

The editorial contends throughout that
the world will continue to believe the
Maine was destroyed by an explosion
from the inside until the Washington
Government raises the wreck and from
this evidence proves the contrary.

Cure Guaranteed for Catarrh

The New Pine-air Breathing Cure "Catarrhozone" Is Unfailing in Bronchitis and Catarrh.

The cause of this disease is a germ that attacks the lining of the nose and throat, from which it spreads to bronchial tubes and finally reaches the lungs. Cough syrup can't follow to the lungs—they go to the stomach.

That's why they fail.

But Catarrhozone goes everywhere—gets right after the germs—kills them—heals the soreness—cures the inflammation—makes Catarrh disappear.

"Nothing I have ever used gives the warm, soothing sensation of Catarrhozone," writes Isabel Fry, of Seguin Falls, Ont. "I was in a frightful way with catarrh of the nose and throat—had droppings, hard breathing, bad breath and indigestion. Catarrhozone relieved at once and cured me thoroughly. It is invaluable in colds, coughs, sore throat and bronchial trouble." Not difficult for Catarrhozone to cure, because it contains the essences of pine balsams and other antiseptics that simply mean death to catarrh. Large size, guaranteed, \$1; small (trial) size, 25c. THE BLACK PLAGUE

Protest Against the Citizens' League's Action in This Matter.

To the Editor of the Times

Sir,-Kındiy permit us, through your afuable paper, to express our deep dis appointment and astonishment that our mored Citizens' League should pre scribe the remedy which it does, in its write the remedy which it does, in its annual report, published in your issue of Saturday, for the "track pague," and to can the attention of the nam of our cot, of other crucks, of our country, and of other countries, to this matter, which is of vital importance.

tutions and charitably disposed women to come forward and show their sincerity in stamping out vice. A helping hand and a respectable shelter will do more towards the moral uplifting of this city than prayers and sermons. We ask all persons to volunteer this help."

Notice, and you will observe that in each case the moral purification of the city or community (not only of girls) is the avowed object. This is commendable, but is it thus attainable?

Tell us, reader, what would you think of a pure water expert, in this scientific twentieth century, who would even propose to you to purify your city's water supply by purifying only half of it? Would you not consider that he was insulting your intelligence? Would you not inform him of an indisputable scientific fact that the remaining unpurified water would again contaminate the pure?

the pure? Tell us, what would you say to your Medical Health Officer if he used your hard-earned money to stamp small-pox out of your midst by quarantining fe-males only and not even reporting the men affixed with this dread disease? Then how do these officers of the moral health of our etices or our trusted Citizens' League dure to propose to us to clean this city of this diabolical 'black plague'—or to any appreciable degree mitigate its virulence—by reforming a small percentage only?

Was the realization of the necessity for correcting this travesty, in the name of justice, not one of the original reasons for the formation, two years ago, of the League by its promoter, a leading minister of the Gospel, then in our city Medical Health Officer if he

minister of the Gospel, then in our city who then so nobly responded to the pub lic invitation of our Magistrate to Christians to do more than preach a sermon for the reformation of those girls then before the court. Now, what

Now, what is the reason at this time, when our police authorities are doing better in that they have recently agreeded a few men (at the same time allowing "bunches of men" and "droves of men." as the policemen detailed to watch testified in court to seeing frequent those houses) to go free, that our Citizens!

League advocates a return to the former shameful injustice to womanhood tagainst which we had protested two years ago), as it is a relic of the barbaric times, when women had no rights even before our British law, as is still the case in heathen countries. Did God not endow man with greater physical strength for the protection of women? It is easy for strong, stalwart policemen to drag girls and women to justice, but it requires a great moral courage, backed by request and approval of men with to drag girls and women to justice, but it requires a great moral courage, back-ed by request and approval of men with-out reproach in our city, to enable the authorities to bring to equal justice men of respectable name, who are morally

Will such a vacuum as has been created by the removal, for instance, of the '20 women and 100 girls afore mentioned, while the men are undeterred, not be refilled probably by girls who are still "whiter than snow"? We do not excuse the women, but does not the reformation of their companions in sin not also require "mere than a sermon"? Does not this mode of protecting evil men educate others in the fallacy that immorality is excusable in man, and is not such education responsible for such almost unmentionable, inhuman acts on the part of men as occurred in Winninger
