

USE "DIAMOND DYES"

Dye right! Don't risk your material. Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich color into old garments, draperies, coverings, everything, whether wool, silk, linen, cotton or mixed goods. Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed even if you have never dyed before. Druggist has "Diamond Dyes Color Card"—16 rich colors.

The Cause of Heart Trouble

Faulty digestion causes the generation of gases in the stomach which inflame and press down on the heart and interfere with its regular action, causing faintness and pain. 15 to 30 drops of Mother Seigel's Curative Syrup after meals sets digestion right, which allows the heart to beat full and regular.

A Warm Store A Cold Draft

The man or woman behind the counter is in constant danger of contracting colds. An overheated store, and the drafts from the continually opening doors—that's what causes it.

SHARP'S BALSAM

of Rheumatism and Ailse Seed—a winter health preserver for indoor workers—is the most reliable remedy for all such conditions. It almost instantly remedies incipient colds, and affords quick and grateful relief in more chronic cases, finally completely correcting the condition. The popular cold remedy for 70 years. At all drug and general stores, 25c. The Canadian Drug Co., Limited, ST. JOHN, N. B.

Has Arrived At Chatham

His Lordship Bishop P. A. Chaisson, C. J. M., the new head of the Catholic diocese of Chatham, arrived at Chatham from Seven Islands, Que. Wednesday afternoon. Extensive plans were made by the Cathedral congregation to extend a welcome to the new bishop, Howard McKendry was chairman of the reception committee, and M. F. Haley, the secretary. Committees had decorated the church and palace. An address of welcome to the bishop was presented. A procession was formed with the Captain W. J. Duncan as Marshal, and Alderman Thomas Fitzpatrick, as Assistant marshal. Upon arrival the bishop was met by the priests and dignitaries. Immediately afterwards the bishop and priests proceeded to the Cathedral, where an address was read from the members of the congregation. In the evening a civic reception was tendered the bishop at the palace by the Town of Chatham, the council having decided to present an address welcoming his Lordship to his future home.

ROBERT STEAD'S NEW ROMANCE

Robert Stead, once of Calgary, now of the Civil Service in Ottawa, is today second only to Ralph Connor in popularity as a Canadian romanticist. Like the author of "The Sky Pilot," he has chosen the west as his stamping ground. From his early boyhood he lived in the prairie country and no one knows all its many-sided life better than he does. Out of this adventurous region came his first novels, "The Bail Jumper," and "The Homesteaders." His last novel, "The Cow Puncher," is also wholly western in its atmosphere and action. His new story, "Dennison Grant," so-called from the name of the hero, offers some variation on his previous novels in that it shifts from east to west and from west to east, just as its author himself has done. The opening chapters are laid in the ranching country of Alberta and describe the tragic rivalry of the Y. D. gang and the Grant gang in their contention for the hay rights in a wild valley in the foothills of the Rockies. It was in the course of the exciting melees that Dennison Grant first came into touch with old Y. D.'s daughter, the wilful and vivacious Zen, the most attractive of all Stead's heroines. The story swings from Alberta to an eastern city, which has no name but is probably Toronto, then back to Alberta once more. The climax is remarkably free from conventionality and will thrill the reader with its passion and unusual dramatic situations. An intensely interesting love story, this romance is bound to be one of the big sellers of the season. It is published by the Musson Book Company of Toronto.

Can Now Work With The Best of Them

Farmer Says He Spent Hundreds in Vain Search for Health Before He Got Tanlac

After everything else had failed me and I had spent hundreds of dollars without any results, Tanlac relieved me of my suffering and has given me a new lease on life," said William Lively, a well-known farmer who has lived at North Beaver Bank, Halifax Co., N. S. practically all his life. "Ever since I was a boy my stomach had troubled me and during recent years I suffered untold agony. My appetite was so poor I didn't relish a thing, and even what little I did eat fermented, causing sour gas which affected by breathing so at night that I often had to sit up in the bed to keep from smothering. I was badly constipated and suffered so from headaches and dizziness that at times I wasn't able to work. I had a tired, worn out feeling, and was laid up for days at a time not feeling well enough to get about the farm. I heard a great deal about Tanlac and decided to give it a trial, and it wasn't but a little while until I knew I had found a real medicine, for I was rapidly improving every day. I have taken five bottles now and am actually feeling better than I have at any time I can remember. My appetite is just fine and I never suffer from gas or indigestion anymore. I'm entirely free from constipation and am never troubled with headaches or dizziness. I have so much strength and energy I can now do a day's work with any man. I'll always stand by Tanlac, for I don't see how I could have possibly done without it."

Tanlac is sold in Newcastle by E. J. Morris, in Redbank by Wm. M. Shillivan and in Doaktown by O. Hildebrand.

Fables Most People Believe

The legend of the salamander and the fire is as old as learning, so is the legend that newts, toads, and frogs are poisonous to human beings. It is a shame that this tradition is not exposed in every school. These harmless creatures, which do incredible good for us in the garden, are a source of horror and terror to many children, and even to many adults. Yet in truth they are as innocent as lambs. It is true that the toad conceals a scalding acid within its skin, but that is never used against us. It is a protection against enemies which seek to devour it. If a dog picks up a toad in its mouth, the toad scurries to its poison, burrs the mouth of the dog, and makes it glad to let go its prize, but it never does that to us. What it does, when in fear, is suddenly to discharge all the moisture its skin contains, so as to make itself smaller and lighter, thus enabling it to move more rapidly and even to creep into small places for which it would otherwise be too bulky. That is the whole truth about the superstitious of the "venomous toad." As for the frogs and the newts, they have not even poison with which to defend themselves from the jaws of a consuming enemy.

Over Rivers
We were taught that monkeys, when wishing to cross a river or a gorge, form a chain and swing themselves over. It is said that a string of monkeys attach themselves, one under another, to the strongest of the party, which holds on to a tree. When the living chain is long enough, the monkeys swing outwards over the river or chasm, until the endmost animal is able to grasp a tree on the opposite side, hold, and convert the chain into a living bridge, over which the females, the young, and the aged pass. Following that, the chain has to release its hold upon the tree to which it was first attached, and in turn swing over the gulf. The whole thing is impossible. The trees on the banks of the river would not allow room for a chain long enough to cross the stream to get the necessary swing. The bridge could not be made. But, if it were made, when the chain was detached from its hold many of the monkeys would be dashed to death.

The story has lately been investigated by scientists of the American Museum of Natural History, who declare that the belief arises from the honest misconception. Observers have seen long processions of monkeys following each other across a stream, not by a chain bridge, but leaping from branch to branch of trees growing on the two banks, and nearly meeting overhead. The explanation is undoubtedly correct, but it will upset the teaching of thousands of school books on zoology.

Two Sentenced
Moncton, Nov. 24—In the county court at Dorchester today Alder-Balfour was sentenced to two years in the penitentiary for petty burglary at Backville and Barrington. Howe was given six months in jail for receiving stolen goods.

Rockefeller Gives Away \$475,000,000

New York, Nov. 24—John D. Rockefeller has given away nearly half a billion dollars, his son, John D. Rockefeller, Jr., declared here tonight in what is to be the first authoritative detailed statement that has ever been made concerning his father's philanthropic gifts. The approximate total of the gifts is \$475,000,000 nearly half of which has been distributed in the last five years.

Acadia Oil And Shale Company

Letters patent have been granted incorporating Sydney L. Kerr, John Smith, both of St. John, and George B. Willett, of Moncton, as the Acadia Oil and Shale Company, Ltd., with a capital stock of \$99,000 and head office at College Bridge, Westmorland Co. The object is to acquire certain lands in Westmorland and Albert counties for the extraction of oils, etc.

It Has that deliciously fresh and fragrant flavor, so uncommon in "Just ordinary teas"

"SALADA"

Your Tea-Pot will demonstrate this, in a 5 minute infusion—

There is a very great deal of clear, hard thinking done to-day by the men wearing overalls. At any rate, the farmer belongs to both classes. The more he understands of those discoveries, which it is the business of the agricultural college to make, the more he absorbs the teaching which it is the business of the college to spread abroad, the better farmer will he be.

An Advertisement WORTH READING

We are now prepared to supply you with your Xmas wants for both young and old. Come in and look over my large stock consisting of:

- | | | |
