The **National Crisis**

"My appeal is to the whole people; to every man and woman who wants to do right by this country; to everyone who breathes the spirit of our fathers who founded this British Dominion."

-ARTHUR MEIGHEN

THE Election to be held December 6th will be the most momentous in Canadian history; for as men and women vote will depend the economic stability, the political stability and. indeed, the national stability of this country.

Today we find group striving against group, class against class, the industrial and financial structure of the country assailed by false and unsound doctrines and theories, while our great neighbour to the south has adopted a trade exclusion policy directed against Canada's yast agricultural interests.

The currencies of nearly every country in the world are depreciated. The Canadian dollar in the United States is subject to a heavy discount causing a loss of over one hundred million dollars in exchange annually.

Europe is overwhelmed with war debts-unemployment is acute - and the restoration to pre-war conditions is slow.

While Canada is in a much more favorable condition than many countries, yet there is evidence of stagnation, instability, unemployment and lack of con-

Taxes are heavy because of the country's efforts in the Great War, but have become burder account of the misconceived policies and blunders of Governments that directed Canada's affairs prior to 1911.

These conditions are largely the direct aftermath of the war, but they must be dealt with fearlessly and constructively. This is no time to consider experimental changes, or the theories of visionaries.

This is no time for Crerar and his Free Trade policy. This is no time for King and his wobbling "charted"

policies, varying with each provincial boundary.

It is the time to cling to orderly, stable Government in the interest of all the people; to be guided by the experience of the past, proceeding upon lines that have been proven sound.

It is the time to place the destinies of Canada again in the hands of a Government led by a sane, courageous Canadian who has safely brought the country through the trying years of reconstruction, and upon whom we can rely to retain and initiate policies in the interest, not of a group or class but of all the

UNTRUTHFUL KIND **OF SMARTNESS**

By a curious twist of mind the Hon. MacKenzie King in criticizing his political opponents is prone to find fault with them for what in Sir Wilfrid Laurier's government, of which he was a member, he firm ly approved. Of Sir Wilfrid Laurier himself, indeed, he is particularly proud of having been politically his adopted son and his suc

In a meeting at Minnedosa, Man addressing his audience of farmers he is reported in this way:

he declared, "we elected a Union all right, but it was a union of lawyers. He cited the name of each cabinet minister as proof, naming Hon. T. A. Crerar as the sole exception.

"If we must have groups,' he said, farmers or working men for they would more nearly represent the mass of the people than have a union of lawyers.'

An administration which had 21 lawyers in it during fifteen years, as against 13 laymen, has not many stones to throw against any other administration on the score of be ing a lawyer's union. Last of all should the Liberal leader be the one to throw the stones. Would he have preferred a farmer or a labor government instead of Sir Wilfrid's between 1896 and 1911?

THE TARIFF

Few people not in trade reneze that the most money is made by manufacturers who take the smallest margin of profit as by doing so they get the largest output. Big output on small margin is a golden rule to big manufacturers. The main object of a protective tariff is to provide labor to the people.. Numerically manufacturers are comparatively unimportant. Their usefulness to a community lies in the employment they give to labor. Therefore any tariff encouragemen to industry is not primarily intend ed to put money in the pockets of the manufacturers. The primary consideration is to make full pay envelopes for Canadian workmen.

With the passing of the order-in council, the liquor commission of the province alone would have the right to import liquor. Hitherto retailers were at liberty to import liquor from different places in the Dominion or from overseas. This fact made it difficult for inspectors to check up the stock purchased Under the new law purchases would be made from the liquor commisconnection during the years 1896- sion alone, and this feature would 1911 the following were members of mark a big advance in the enforce ment of the law. Applied After Shaving

Keeps the Skin Soft and Smooth

M ANY men suffer from irritation of the skin as a result of shaving. With some it assumes a form of eczema and becomes most annoying and unsightly.

By applying a little of Dr. Chase's Ointment after shav-ing the irritation is overcome and such ailments as Barber's Itch and Eczema are avoided.

Success in Retailing

An essential factor in achieving success in a retail business is ADVER-TISING--telling the buyers of your community what you have for them.

One doesn't need to be exceptionally olever or a genius to be a success, but one must have an aim, and pursue it resolutely and intelligently.

The businesses that are prospering and expanding are those that purposefully seek out new customers and place before both old and new customers the news of their service, in the form of Newspaper Advertising.
