Mrs. Bonnell was a devoted adherent of the Presbyterian Church and a most active member of the Ladies' Aid Society, which she had been a part in any good work. Again is the community reminded that "In such an hour as ye are about to depart of Man cometh; he ye also ready." Harland, April 23, 1908.

FOSTER'S FORECASTS.

He Predicts Warm Wavy Which Will Go West Into May. Washington, D.C., April 7.—Last bulletin gave forecasts of disturbance to cross continent 22 to 26, warm wave 21 to 25, cool wave 24 to 26. Next disturbance will cross Pacific coast about 27, great Pacific slope by close of 27, central valley 29 to 31, cool wave about Pacific coast about 30, great central valley 5, eastern states 7. Cool wave will cross Pacific slope about 6, great central valley 5, eastern states 10. This will be one of the most important disturbances of May and will cause severe storms. May is usually a quiet weather month but it will be best to keep your weather eye on the alert for storms of more than usual force from May 4 to 8. Another period of severe storms will come about May 30 to June 3. Not much rain with the disturbances of May 4 to 8 except severe local thunderstorms and showers covering small areas. Rainfall will probably be deficient till after May 20. Long hot dry spell may be expected May 9 to 23 followed by unusually cool 21 to 31. I am expecting temperatures of May to average above normal in the states between the Rockies and the Alleghenies; a little cooler east of the Alleghenies and in Canada. In the Ohio valley and southward, including all the southern states east of the Mississippi, rainfall for May will be from about to above normal. In other states, east of Rockies, rainfall will be deficient. In Canada rain will be about the usual average. This May drought will seriously injure prospects of the grasses, oats and dairy interests. I would advise those who have old corn and oats and dairy interests, I would advise those who have old corn and oats to sell at reduced prices. It is likely the effects of this May drought. Indications are that May will be dry in Southern Florida, injuring late gardens. The weather in May will probably not injure wheat. It will give the planters of Texas a good opportunity to kill weeds in their cotton fields. East of the Mississippi the weeds will have a better chance for thrift.

JOHNSON AND BURNS.

London, April 29.—There were further negotiations today with the idea of arranging a contest between "Jack" Johnson, the colored heavyweight pugilist, and Tommy Burns, the heavy-weight champion. Johnson and his manager Fitzpatrick arrived here last night from New York for the purpose of arranging the fight. After reading the conditions under which Burns deposited ten thousand dollars in a trust for the purpose of making a purse for Burns to get such a lump of money. Of course, if somebody does not see fit to take him for \$10,000 and quite willing to take it on, but it does not seem likely that anybody will do so. Johnson will remain for some weeks and there is a possibility of a syndicate being formed to take him for \$10,000 and quite willing to take it on, but it does not seem likely that anybody will do so.

SHAMROCK'S WAVERING.

Montreal, April 25.—The lacrosse from the N.L.U. seems in a fair way to be settled by the Shamrocks coming to terms. Negotiations have been going on between the Shamrocks and Montreal for some days and to-night the Shamrocks have agreed to President Thompson's Toronto stating terms under which they would play. A wire was received here from Mr. Thompson, addressed to J. W. White, President of the Shamrocks and it now looks as if a settlement will be reached within the next few days. Both Shamrocks and Montreal want to change their game on the last Saturday of the season, and that President Thompson has agreed to do so. It is not thought there will be any difficulty. It is probable that another meeting of the clubs will be held, but this depends largely on the President Thompson.

ADVERTISEMENTS.

TO PREVENT A NERVOUS BREAKDOWN

Take Dr. Williams' Pink Pills When the First Symptoms are Noticed and Save Yourselves Much Suffering.

Are you troubled with pallor, loss of spirits, weakness of heart passing over the body, shortness of breath after slight exertion, a peculiar skipping of the heart, poor digestion, cold hands or feet, a feeling of weight and fulness? Do you make the mistake of thinking that these are diseases in themselves and are satisfied with relief for the time being? This is the way that the nerves give warning that they are breaking down. It means that the blood has become impure and thin, and cannot carry enough nourishment to the nerves to keep them healthy and able to do their work. There is only one way to prevent the final breakdown of the nerves and the more serious diseases which follow. The blood must be made rich, red and pure, and Dr. Williams' Pink Pills are the only medicine that can do this promptly and effectively. Every dose of this medicine helps make new blood and strengthens the work or worn-out nerves. Mrs. David J. Tapley, Fredericton, N.B., was cured by Dr. Williams' Pink Pills after suffering from nervous breakdown, which resulted in partial paralysis of the face. She says: "The trouble came on quite gradually, and at the time I did not pay much attention to it. Then it grew more serious, and there was a general breakdown of the nerves, which was followed by partial paralysis of the face, one side being completely drawn out of shape. My doctor's care for a couple of months, and one treatment after another was tried without benefit. By this time I was confined to my room, and the doctor told me he could not cure me. Almost in despair I was persuaded by Dr. Williams' Pink Pills. The improvement was slow, but the building up of a run-down nervous system was steadily and surely this medicine did its work, and after a time I was able to resume my usual duties. My friends look upon my cure as almost miraculous. Dr. Williams' Pink Pills did for me what the best medical treatment failed to do for me. It brought me back good health. It is the blood-building, nerve-restoring power in Dr. Williams' Pink Pills that enable them to secure such results as anemic, rheumatism, after-effects of an grippe, indigestion, neuritis, St. Vitus' dance, partial paralysis and other ailments of girlhood and womanhood. Sold by all medicine dealers or by mail at the price of a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.
