

Wrestling-in Tons.

Wrestling is probably the most strenuous sport on earth for it brings into play practically every muscle in the body.

During a wrestling match an enormous amount of force is exerted. Take the recent match between Zybco, the Polish giant and Raymond Cazeaux, the champion wrestler of Italy, for example.

In that time he lifted Cazeaux on the mat fourteen times. As the Italian weighed 210 pounds this means that Zybco lifted no less than 2,940 pounds.

That doesn't take account of the strain of the pulling and struggling and getting out of various holds during the match.

A Few Pertinent Questions for Morrison.

Editor The Evening Telegram. Dear Sir—I noticed in last night's Evening Herald a letter signed "Watchman" and headed "Coaker's Utterances a year ago and his views now."

Will you allow me through the columns of your paper to put a few questions to Mr. Donald Morrison? Now, Mr. Morrison in the Orange Hall, in Carbonear, on the 21st August 1888, you made the statement: "The Roman Catholic portion of the Government asking for a bill in all cases where the agrarianism of themselves and their co-religionists was concerned, ruled supreme in the Councils of the Country."

I have a circular address, "To the Orangemen of Newfoundland," which bears your signature and in which the following appears:—"The principles of the Reformation and of the old Reformation are these same principles for which we ask you to contend in the coming struggle, and these principles can only be vindicated and victorious by the united action of all our Brethren in favour of the new Reformation and the new reformers."

Did you stir the "New Reformation" when you joined Morris in 1909, and have you carried out the "principles of the Reformation and of the old Reformers" during the past four years, or have you been "swallowing your vomit," day by day, while you scooped in interests in land grants and thousands of dollars in fees?

LONDON, To-day. The sublime Porte has opened direct negotiations with the Bulgarian delegate M. Nockovitch who is in Constantinople. It is understood that the Porte remains firm with regard to Adrianople and Kiria Bihassa, but is prepared to make concessions in other quarters.

OTTAWA, To-day. The action of the officer, commanding the 93rd (Punjab) Battalion, in dismissing Hunter Hill for resenting the flogging of the American flag by a woman in face of the regiment July 21st, has not been sustained by the Minister of Militia and Defence, who understands the evidence asked for and submitted, does not warrant his dismissal on that account.

LONDON, To-day. The Vienna correspondent of the Daily Mail declares the Powers have been unable to agree to any plan to coerce Turkey. France opposes any financial pressure, while Germany objects to moral pressure. Neither Austria nor Russia appears inclined to assist Bulgaria. There is little doubt, according to this correspondent, that Turkey will retain Adrianople.

WASHINGTON, To-day. Besides Britain, France and Japan, practically all Central and South American countries are lending support to the efforts of the States to bring about a peaceful settlement of the Mexican revolution. Unless satisfactory overtures are made by the Huerta Government before Tuesday, President Wilson will proclaim in person his message to both Houses of Congress, that the principle of constitutional Government alone can be recognized in Mexico.

NEW YORK, To-day. Edward C. B. Mitrall, chairman of the public Service Commission, was designated as Mayorality candidate by the democratic city committee. McCalt's selection by sixty-three delegates as leader of the Tammany forces was unanimous as had been the forecast. Tammany leaders have decided not to re-nominate Mayor Gainer, he will be nominated by the Gainer League with a complete independent city ticket of its own. Her A. Metz is unanimously designated for comptroller, Metz held this office during McClellan's second term. Congressman Gould is unanimously selected for President if the Board of Aldermen.

MEXICO CITY, To-day. The keenest anxiety is manifested in the capital to-day as to what will be the development of the action of the States Government in Mexico's internal affairs. Mexico's attitude is one of waiting while people resented here, both native and foreign are displaying deep apprehension. Rumors continue that Huerta is still considering resigning, possibly in favor of Gen. Trevino, but there is no sound basis for this assertion. Those close to the Executive insist, he will not alter the stand he has taken, and will await Washington's next move. Public opinion is expressed here that there will be swift consummation of all peaceable relations and Congress will be given an opportunity for a full debate on President Wilson's statement of facts in the case.

Special to Evening Telegram. LONDON, August 21.

Rt. Hon. J. A. Pease, President of the Board of Education, has out the Government's scheme, which the bluntest children in the elementary schools may reach the universities. A sketch is as follows:—verities for, everybody; grants older universities; huge extra grant from Imperial taxation to enable local authorities to draw up schemes for a much improved system of education for universities; technical schools and secondary schools; inspecting fields, gymnasiums, native inspection, nursing houses, cook schools, and other domestic subjects will be encouraged, developed, supported, with extra money for intermediate education. Those classes in existing acts which limit the power of the local authorities to raise money by rates, will be repealed. Strong powers will be given to local authorities to prosecute cases of cruelty to children.

That Ulster is to be dragged out of accepting Home Rule, probably under martial law, is asserted by the Unionist Standard. The recent Londoner riots have furnished the Unionist newspapers during the last few days with texts for many articles, predicting gruesome doing if Home Rule is enforced. Antagonism among political and religious circles is exceptionally acute now. Ulster, as was shown by an one-sided verdict at an inquest yesterday, is a Unionist named Armstrong, who witnesses affirm and Unionists believe was deliberately shot by policemen without provocation. Even if the situation is exaggerated by the party press, it still undoubtedly holds out the ugliest possibilities. This has been shown during the last few days by the amount of insurance of property in Ulster against riotous loyds are said to have covered £500,000 in Belfast and elsewhere. Rates are steadily rising, and it is shillings per cent will be doubled in many. Underwriters do not see a profitable for any more business, and prohibitive rate is talked of. The Standard predicts that martial law will be declared in Ulster. It says that the Government will raise a large force of military mounted police, and is taking a hurried horse census. There is talk also of...
