Formation of the Grenfell Association of Newfoundland.

Representative Meeting at Government House.

By kind permission of His Excellency the Governor (Walter E. Davidson, C.M.G.) a meeting was held in the ballroom at Government House yesterday afternoon at 3.30. His Excellency the Governor presided.

The following gentlemen were present:—
Captain H. Atlay, H.M.S. Calypso; Charles P. Ayre, F. C. Bortea (Auditor General), W. W. Blackall, B. A. (Superintendent C. E. Schools), H. R. Brooks, John Browning, S. E. Garland, Hon. A. F. Goodridge, W. G. Gosling, Walter Baine Grive, A. J. Harvey, R. P. Holloway, Hon. W. C. Job, Capt. Abraham Kean (S. S. Prospero), Hon. George Knowling, Dr. Cluny Macpherson, H. W. LeMessurier (H.M. Customs), John Maunsell, I. C. Macris, John S. Munn, Sir Joseph Outbridge, Hon. Robert Watson, Hon. Marmaduke Winter.

Messages of regret were received from Sir Edward Morris, P.C., Premier of Newfoundland, Hon. Edgar Bowring, Hon. John Harvey.

His Excellency the Governor in opening the meeting said:—

"I am sure it is a great compliment to Dr. Grenfell to have so large and representative a meeting. It is a busy time and a busy day. This meeting, so numerous and representative, are here as business men to associate in a sensible way with Dr. Grenfell's philanthropic work. There are two sets of men, those who originate and those who systematize. The most of us belong to the systematizing class, but we do pay the tribute of our sincerest admiration to those who can invent and carry out plans. We have in our midst an almost ideal philanthropic work, carried out by the universal assistance of the English speaking races. Dr. Grenfell has established a philanthropic enterprise which combined not only the people of Newfoundland, but the Canadians and Americans. The funds necessary for such enterprise have been widely subscribed abroad so that there is no need of a central Council which will control, systematize and make the best use of resources. The proposal is the various Associations in Great Britain, Canada, Newfoundland and United States of America shall be bound together under a common deed incorporated so that there can be a Council of direction representing all. The proposal has been that Central Control shall bear the name of the International Labrador Medical Mission, but I maintain that it is very much better for an Association of this kind to maintain the name of the founder. I am attracted by the International Grenfell Association, and I do hope for my own part, that it may be decided that such central Association be so known. Dr. Grenfell's name is associated with many philanthropic ideas, it would be a pity if the name were lost in a longer and more difficult name which would not convey to us the work that he really represents. It would cover the hospitals in Newfoundland and the Labrador, as well as the model Fishermen's and Seamen's Institute in our midst, which I believe will be copied in many parts of the world. But we are here to hear Dr. Grenfell."

Dr. Grenfell then addressed the meeting. He said, Sir Edward Morris, the Premier, had written him to say that the short notice did not enable him to attend the meeting. The Hon. John Harvey had arranged to go out of town, for which he was very sorry as he had always attended the meetings. The Hon. Edgar Bowring expressed his sympathy and regretted he was unable to be present. Other friends also wrote messages of regret. With regard to His Excellency's remarks respecting the name of the international Grenfell Association, it was the fact of introducing his own name that he suggested not having it. He would waive that if it was decided. There is objection to the word "Mission" on account of denomination at lines. The work which I get the credit for beginning in such a small way is becoming large, it became too large for the English Associations and

both Americans and Canadians want to come in and join an International Association. There have been many difficulties in arranging for an International Board, but such have now been overcome. We have not had an international meeting yet pending its incorporation. We have had a conference when Mr. H. B. Ames, M. P., Montreal, and Mr. W. R. Stirling were here; and also when Mr. W. F. A. Archibald and Dr. Henry Van Buren were here. We can arrange meetings all right, but we cannot have a thoroughly complete international Council unless Newfoundland is represented in it. The work must go on now we have begun, and we want to have the local advice and help of Newfoundland on the Council which will consist of two representatives from London, two from Grenfell Association of America, New York, two from New England Grenfell Association, Boston, two from Grenfell Association of Can-

ada, and two from the Grenfell Association of Newfoundland, who will meet in St. John's, Newfoundland annually during the month of July, and be responsible for the administration and finances of the whole mission, and Dr. Grenfell said it was essential for the meeting to resolve and incorporate a Grenfell Association of Newfoundland for the purpose of electing two representatives to become members of the International Board of Executive, as well as take such steps as it may decide to secure some financial support of grants in the Colony to assist in meeting the expenditure which will be authorized under a budget to be passed at an annual meeting of the International Corporation to be held in the month of July each year, in St. John's, Newfoundland. No other responsibilities in the work will devolve upon the Grenfell Association of Newfoundland.

For the information of the meeting and the people of Newfoundland generally, he said the St. Anthony Hospital costs about \$25,000 a year, and the Government grant is \$1,500, saying he thought the grant would be increased if properly put to the Executive. The figures show that from the 1st of January to the end of September there have been at St. Anthony about 3,160 "out patients" and 352 "in patients," one surgeon and generally two nurses with some assistants, and of late years one eye and ear specialist and a dentist.

St. Anthony has its Orphanage. The children left by men and women, who die, of course, have to be looked after. This began when a man and woman buried by me, and left five children, had to be cared for. Last year I visited one of the children who grew up in the Orphanage who was comfortably married to a lawyer in Buffalo. Gradually these children began to accumulate. The Orphanage, in a way, has been specially provided for. The two ladies in charge are volunteers. The trouble is that a great many of the children have a parent alive and we do not get a government grant for them. Among the forty children quite a number are not provided for by Government aid. We educate them and they go out as servants, or marry, or we take them into our employ. We are able to get grants for the technical education for some of the children. With regard to the St. Anthony School, in the summer we get a kindergarten by the ladies who come down. This winter we have a school with two teachers. At

ter this I have one permanent scholarship for technical training of the young men. Now that motor boats are coming there is a great need of practical work, and a certain amount of experience is needed. Last winter I was in residence at St. Anthony and had one doctor with myself, Dr. Seymour Armstrong, a volunteer, and we feel that it is more and more necessary that it should be well looked after. Mr. Sheard is to be Secretary of the International Board; he has taken a real part in the work and has made the success more than possible by his experience and diligence. Everything is systematized and you will subsequently be able to find out from the Secretary what any branch is costing. Every department is working and a patient can get every treatment there that is essential for him.

Battle Harbor is costing about \$6,000. It has four nurses and two doctors and two assistants. Indian Harbor costs about \$4,000, has a doctor two nurses and an assistant. The doctors at these two hospitals are volunteers. Each hospital has a motor boat and a good one at that. The "Yale" assists her cost by carrying the mail. Last winter we transferred the Indian Harbor staff to Mudiak.

(To be continued.)

Suggestive Pictures.

CASH-IN TO BE CHANGED TO CASH-OUT.

Two very suggestive pictures appeared in last Friday's Herald. The first was the imposing picture of the great Finance Minister, with body bent as if trying to lift a very heavy burden, nasal organ elevated, as if scenting defeat (absent the Assembly grin) and with hands clasping a big portion of material, which was interpreted as Cash-in attempting to transfer the whole revenue to the Prime Minister's office—which name the wag quaintly remarked would soon be changed to Cash-out.

The other picture represented a big piece of timber with Bond standing over it with an upturned pile-driver in the act of knocking off the grips, with Morrison, peering through the proverbial knothole, as a referee from Liberal Justification.

This is really what Bond will do when he comes into office—knock off the "grips" and give every man a fair chance to live in his own country. Bond will do it. HE CAN'T LOSE!

For a cold in the head, inhale Stafford's Liniment and apply a small quantity to the forehead. For sale by T. Fitzpatrick, Governor Street.—oct.7,tf

DEFENCE

is the watchword for Lifebuoy Soap. It defends

the Body, the Family, the Home from the invasion of disease. Lifebuoy Soap represents the blending of a pure soap with a perfect disinfectant. It cleans and disinfects at the same time, does more than other soaps, yet costs no more.

LIFEBUOY SOAP

LEVER BROTHERS LIMITED, PORT SUNLIGHT, ENGLAND.

Rossley Theatre.

There was a good attendance at Rossley's last night and everyone was delighted with the clever act of Harry Rosa, the American ventriloquist, and his dummy, George. It is an interesting and amusing act and a decided change to what has been seen. There are also some fine pictures shown. "The Sleepy Tramp" will make the most gloomy person laugh. And none should miss seeing "The Price of Man" and "Puncher's Law." They are the best seen in a long time, while the shipwreck on the English coast will appeal to all who are interested in the sea. Altogether it is a fine show and a pleasant evening's entertainment to please all.

HERE AND THERE.

WILL BE DRY DOCKED.—The s.s. Stephano is due to-morrow at New York, where she will be dry docked for her annual overhauling.

POLICE COURT.—A 65-year-old laborer for loose and disorderly conduct was held over. Admired was let go to take the pledge.

LOADS FISH.—The s.s. Raven arrived from Sydney yesterday with a cargo of coal. After discharging she will load fish for Mediterranean ports.

Bible Class Meeting.

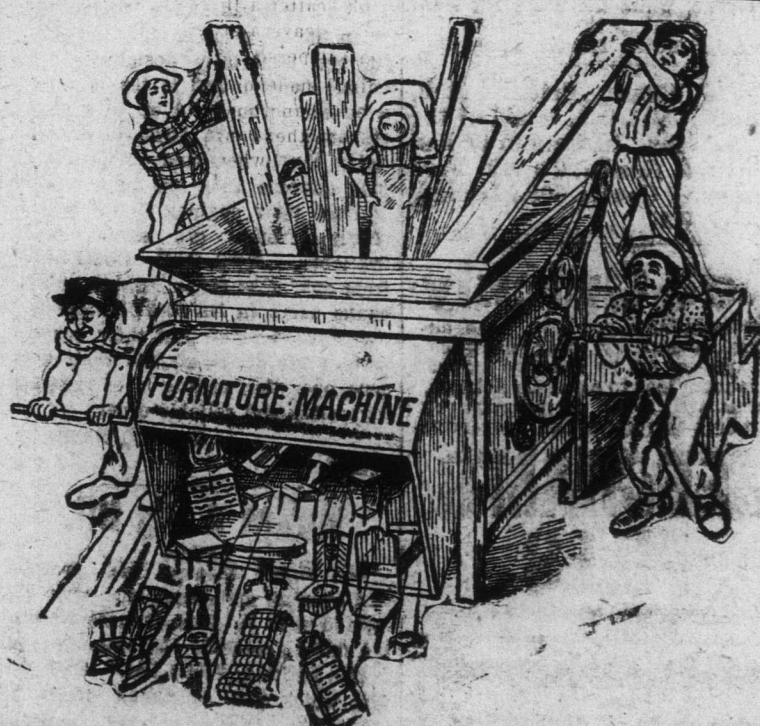

The semi-annual meeting of the George Street Adult Bible Class was held in their room last evening. The reports of the outgoing officers showed the class to be in a flourishing condition. A large increase in attendance and collection over last year was reported. Mr. C. P. Ayre conducted the election of officers, which resulted as follows: President, C. C. Pratt, re-elected; Vice-President, B. Edmonds, re-elected; Secretary, A. H. Edmonds, re-elected; Treasurer, C. L. Loughlan, elected; Organist, C. A. Peet, re-elected; Assistant Organist, C. March, elected; Librarian, W. F. Joyce, re-elected; Assistant Librarian, C. W. Peet, elected; Teacher, C. P. Ayre, re-elected. The annual class contest will commence on Sunday, when the class will be addressed by Rev. J. W. Bartlett. The members are looking forward to a pleasant and profitable season.—Com.

Apply Stafford's Liniment freely when suffering from any kind of an Ache or Pain. You will find relief at once. For sale by Mrs. McCourt, Duckworth Street.—oct.7,tf

The Man of the Hour.

Editor Evening Telegram.
Dear Sir.—The man of the hour, as before, when the country was mislead by Tory misrule, was Sir Robert Bond. He it was that saved the country then, and he can do it in the present crisis. It is also true that the supporters of the Plenic Party admit that Bond is the only Statesman in the country, and when the ballots are counted after the coming general election, they will have to go a step further and admit that Bond is the man the country wishes to control the affairs of this Colony. I see by to-day's issue of the Grabbal organ of Prescott Street, that the Hon. D. Morrison is again the candidate for the Plenic Party at Bonavista. What a gall he must have to ask the honest and intelligent voters of that district to re-elect him, a man who forest the law. I have very grave fears of his safe return, for the Union will beat him so badly on election day and snow him under, so much so that he will forget to come back. The whole country is crying for a change, and why? Because those who were placed at the head of affairs four years ago, have proven a failure. Better known as the Plenic Party, whose whole suck in trade has been to guard themselves individually, and grab wherever they had a chance. But changes will soon come about, for now the people have a chance to overthrow them and send back Sir Robert Bond, whose name in political life stands for all that is clean, honest and square. Morris was given his chance. What
