IDEAL COLD CREAM.

It smooths and beautifies the skin, making it soft and white. 25 cents a box. For sale only by

Jas. Flindley
The Prescription Druggist, opp. Royal Hotel.

QUALITY

Eyes are Seldom Mates

After middle life, and frequently earlier, the eyes are apt to be of unequal strength. If this inequality is not corrected, the weaker eye will be overworked and be thus made weaker still.

This shows the necessity of always having each eye separately examined.

We fit spectacles that will correct every defect of vision and strengthen weak eyes.

Examinations Free

KENORA WINS FOUR TO TWO

A Keenly Contested Struggle for The Stanley Cup

THE GAME WAS FAST AND BRILLIANT

Second Contest in Great Struggle on Saturday Night

Montreal, Jan. 17.—The Kenoras won the first Stanley cup match this evening by four goals to one, after one of the most closely contested games in the cup's history.

Phillips scored the first goal after nine minutes.

Wanderers the second, by Russell, in five minutes.

Kenora the third in nine minutes by Beaudro.

The Wanderers the fourth, by Glass in 13 minutes, making two all in the first half.

The Kenoras scored two in the second half. In the last ten minutes of play there was no scoring and the excitement was intense.

Phillips did all the scoring in the second half, the first in one minute, after which he was laid out.

After coming on the ice again he scored in one minute, although his foot was hurt.

During the game Glass gave Phillips a body check right into the air; it was a fierce check. Hod Stuart did magnificent work for the Wanderers. The play was wonderfully clean for so hard a game. The Thistles lacked team play, but they made up in individual playing. The Wanderers were not so fast individually, but their combination saved them in the first half.

Phillips and Beaudro made the crowd yell every time they got the rubber; their work was magnificent.

The thermometer registered 15 below and the ice was very keen, favoring the Thistles. At the opening of the second half Russell gave McGinnis a crack on the head and was laid off for it.

The next game will be played on Saturday night. If the Thistles win they take the cup. The Wanderers claim they will have a stronger team.

CALGARY INTERMEDIATES IN EASY FASHION

Win From a Medicine Hat Team by Ten Goals to One.

The Calgary intermediates beat the Cypross hockey club of Medicine Hat last evening by a score of ten goals to one.

The visitors were outplayed at every point of the game, and were altogether too light for the speedy locals. At half time the score stood in favor of the intermediates.

In the second half the visitors fell off considerably and had not Walton in several rushes. The goal score would have been doubled.

As it was the locals put in six more before the close and won by the above score.

For the intermediates Dalton in goal and Rilance at point had very little work to do, while McHugh put in several rushes on the ice. Of the forwards Bates and Sparrow showed up well.

Walton of the visitors got through any amount of work and repeatedly brought off splendid saves. Harlan on the defence, and Reeder and Pringle also did well.

VICTORIAS WILL NOT COME WEST

Are Afraid of the Status of the Moose Jaw Team

The Winnipeg Victorias have suddenly called off their trip west, so that there will be little possibility of seeing this crack team in Calgary this season.

Secretary C. Robinson of the Vics said that the only reason that the trip was called off at the last minute, was because he had positive proof that Moose Jaw had professional players on their team, and that his club would take no risk.

If the assertions are true, it will mean that an investigation will be held, as they joined the W.C.A.A. and by having pros on their line-up they have also professionalized other clubs whom they have met, including Regina, Saskatoon, Wolesey and others.

Calgary city have been in communication with Regina for a series of games here, but under the present circumstances this will now be impossible until things have been straightened out.

It has been decided to let all boys and school children into the senior hockey games at half price. Commenting with the game this evening against Wetaskiwin, the admission for these will be 25 cents.

Hockey enthusiasts should not forget the game this evening between the city team and Wetaskiwin.

The north boys have one of the best teams in the Northern Alberta league and are bringing down their strongest team, and they have great hope of being able to take the measure of the locals.

The city will have out the same seven that so decisively defeated Red Deer last week. The boys are now in great form and fit to tackle any team in the west.

For this evening their line-up will be: Goal, Armstrong; point, Flummerfelt; cover, McHugh; rover, Hensworth; forwards, Rouleau, McLeod, and McKenzie.

PEACE IS THE SUBJECT

Secretary Root's Visit to Ottawa Something More than Social One.

NEGOTIATIONS REGARDING SOME CONTROVERSIES

Extensive Preparations have Been Made for Visit

London, Jan. 17.—The associated Press learns that the exchange of certain definite proposals between the United States and Great Britain for the purpose of clearing up the outstanding differences between United States and Canada, have reached a rather advanced stage, so that well informed circles not only hope but believe that the approaching meeting between Secretary Root and Earl Grey, Governor General of Canada at Ottawa, will result in arranging some if not all the long pending controversies.

Although the visit is officially described as private, no secret is made in governmental quarters that a real political outcome is expected as the visit follows exchanges which have been going on between Washington, London and Ottawa. Secretary Root first formulated a detailed plan of adjustment, which upon its receipt he forwarded to Ottawa the latter reply, having only recently been received.

A high colonial official said to the Associated Press today: "We know now that both sides desire to 'clear up the state' use Mr. Root's own phrase in one of his communications. And we have reason to believe that this will at least be partially accomplished before the assembling of the Colonial conference."

In April Mr. Root's plan for setting the questions between the United States and Great Britain was brought to England by Sir Mortimer Durand last May, since when no time has been lost in working towards a final adjustment. After Mr. Root's plan had been referred by the foreign office to the colonial office, the whole question was submitted to Canada, as it was felt that the latter must indicate the lines of an acceptance or assent. The government made certain suggestions but did not seek to lay down the law to the Laurier government which was considered to be best able to judge. In the course of the visit was resolved disclosing a real desire to reach an agreement as wished for by Secretary Root, but Canada wants not so much monetary compensation for waiving any interests as a national quid pro quo for any thing she may have to give up. The questions to be settled include pelagic sealing, the lake fisheries, the Canada sea fisheries, the diversion of the water power, from the St. Lawrence, and the division from the boundary rivers.

These and other questions are not of first class importance but they may become so at any moment, and reasonable demands requires their adjustment. The matters to be discussed also include a number of individual items which require branch approval, but which Congress left unimportant. Regarding the most important, the one relative to pelagic sealing the proposal of the United States is to arrange by which Canada shall have a share in the catch in the Pribilof Islands in the North Pacific.

DISASTROUS FIRE IN EDMONTON

The Chisholm Block Completely Destroyed on Monday Night

Edmonton, Jan. 16.—The most disastrous fire in the history of the city occurred last night by which the Chisholm block, on the corner of Jasper and Fourth streets, was totally destroyed. Today the outer walls alone are standing. The floors cross walls and roof have fallen in. The fire is still smoldering in the mass of debris precipitated into the basement and sending forth lots of steam and smoke quickly condensed into heavy cumulous masses in the clear cold vapor. The firemen made a brave and futile struggle, which was rendered all the more difficult by the intensely cold weather. Several firemen have suffered from frost. The flames were kept confined to the building.

The Chisholm block was one of the first brick structures erected in the city. It was occupied by Williamson Bros., produce merchants, and Oscar Brown, wholesale fruit merchant. The second and third floors were occupied by several suits of living rooms and afforded accommodation to some forty residents. Very little of the furniture or household effects of the residents was saved, and several have lost their entire wardrobes and furniture. Mr. Chisholm, the owner of the block, lost all his papers. Mr. Brown succeeded in rescuing his office desk.

The loss on the building is thirty thousand dollars, covered by \$1,800 insurance. Messrs. Williamson value their stock at \$8,000, covered by \$2,500 insurance. Mr. O. Brown's stock is put at \$7,000 covered by \$3,500 insurance. The losses of the residents cannot be computed. Mr. McPherson, manager of the Journal lost all his household effects. Mr. Kelly and Mr. Goldsmith, of the Hudsons Bay Co., are also heavy losers. Joe Duhamel and O. E. Stevenson lived in the block and have lost everything.

The cause of the fire is unknown. The alarm was given about eight o'clock.

WEATHER CAUSES MORE CHARGES

The Canadian Pacific Railway announce that owing to the continued severe weather the heated way-freight service for less than carload lots, and other points on the Western division will be discontinued until further notice.

They are prepared, however, when ever ten thousand pounds or more of perishable freight is offered for points on one branch line to supply a car with heaters for the service. They regret having to take such action but the very severe weather leaves no other course open, and the Western division is only following the course adopted by the Central division some time ago.

CUSTOMS MEN ASK INCREASE

(Continued From Page 1)

Mr. Sutherland supported a petition which was read by Robert White, collector of customs at Montreal, with a few remarks.

A special petition was presented from officers west of Lake Superior asking for a special provision of \$15 per month on account of the increased cost of living.

Messrs. Greenway, Barker, Kemp, Dandurand, German, Daniel, Crockett and Ralph Smith spoke in support of the petition.

Mr. Patterson was impressed with the strong endorsement which the proposition received, and said that although there was \$100,000 in the estimates for this purpose it might have to be increased. Since he took hold he had given \$155,000 in increases.

The delegation was well pleased with the result of the interview.

KNOB HILL

The choicest suburban residential property on the market in Calgary, situated in the southwest part of the city in the direction Calgary is growing.

It has a most beautiful view of the city, the Elbow and Bow rivers, and to the west commands an unsurpassed view of the Rocky Mountains.

One-half mile farther west is situated Glengary, selling as high as \$250 per lot.

The city is built up to within a very short distance of this property, where lots are selling for \$400 each.

Then why isn't it a snap that you should not hesitate at, at

The Price of \$125 each

THE E IRRIGATION

Project in C Irrig

IRRIGATION

The Idea Th

Very few people realize of the importance of the irrigation of the land. The Railway Company are now selling 1,500,000 acres of land. The scheme is finally being completed. We are told that the United States will be irrigated by the present total of 1,500,000 acres. It will be the area of land irrigated by the United States. It is five times the area of the United States. It is five times the area of the United States. It is five times the area of the United States.

One of the chief reasons for the colonization of the Pacific Northwest is the idea that irrigation is the key to the development of the West. It is the only way to secure an abundant and permanent supply of food. It is the only way to secure an abundant and permanent supply of food. It is the only way to secure an abundant and permanent supply of food.
