BASEBALL. THE GAME AT GUELPH.

At Guelph yesterday the Alerts Were defeated by the Maple Leafs.

They were unfortunate, not only in their hitting, but Pitcher Wood, who St. Louis, 2; Louis Calahan, Buffalo, was putting up splendid ball, had his knee-cap so badly sprained while was spiked by Hanley at second base, who jumped in feet first. The spike entered Sippi's foot but he finished the game, covering first base. Cockman's batting was the feature of the game, and practically won it. The

HAMILTON'S CHANCES. Hamilton Times: The Hamilton boys are in fine fettle, and expect to win at least seven out of the nine games they have yet to play. These nine games are made up as follows: Four with Guelph, three of which are to be played in Hamilton; two with London, both Saturday games and both at Hamilton; three with Brantford, all at Brantford. The team has won twelve out of the last seventeen games, most of them played away from home. The chances for Hamilton pulling out at the top of the league are very good.

FLYS. Here are two threats from the Hamfiton Spectator: If London is not careful it will find that the Hamiltons and Guelph will arrange a series of games and leave the Alerts in the cold. Ever since the league was formed the London club has been a kicker, even going so far as to hog all the holiday games. Mike Morrison is still at oggerheads with the management. If Mike is not careful a new man will be signed to take his place.

THE WHEEL.

WORLD'S MILE RECORD BROKEN Louisville, Aug. 15.—The races of the National L. A. W. meet ended yesterday, and the time made bordered on the sensational. One of the most important world's records, the one mile competition, was broken. The one mile national championship was decided so far as the present progress of the circuit is concerned. It was won by Tom Butler. Arthur Gardiner did the record-breaking in the mile open, with thirteen starters in the race. Gardiner rode the mile in 2:01, beating the record of 2:01 4-5, established by Bald just a week ago at Buffalo. In the stretch he was ten lengths behind Sanger, who led the field. Cooper was not entered in this race. In the one third mile national championship, Cooper, who won, had the closest call of the year. He beat Owen Kimball across the tape only half the diameter of his front wheel. Bald was third, a length behind Kim-ball. The others were bunched be-hind. The first serious accident of

neet occurred in the five-mile

State championship. J. C. Mitchell's chain broke, and he fell. Karl Thome, the Kentucky one mile champion, fell over him, and three other riders landed on Mitchell before he could rise. The latter's collar bone was fractured in two places. Summeries: in two places. Summaries:

NIAGARA TOURNAMENT. Niagara, Ont., Aug. 15.—The bicycle tourney opened yesterday under the most auspicious conditions. After the floral procession came the races. The special tandem prize was awarded to Mr. Arthur VanKoughnet, Toronto, and Miss Sybil Seymour. The team prize for the six best decorated wheels was won by Mrs. Fleischman's party, of Buffalo. The ladies' prize for most effective ensemble, costume and wheel considered, was captured by Mrs. W. F. Boughton, of Buffalo. The ladies' prize for best decorated wheel fell to Miss Mattie Winnett, of Toronto. The men's prize for best turnout was given to Mr. Guy Boughton, of Buffalo; and for the best decorated wheel Mr. Percy Papps, of Hamilton, captured the premier honors. Of the young girls Miss Althea Birge was first, although Miss Daisy Wright, in powdered hair, eighteenth century costume, was a close second. The boy's prize was captured by Mr. Rosseau Kleiser, of Toronto, with yellow ribbon, goldenrod and asters.

The kindergarten race for girls, 12 years and under, competitors to ride through upright posts 22 inches apart, had nine starters, and was won by Miss Geraldine Beddome, Hamilton; Miss Laura Hespler, 2; Miss Etta

THE BELLEVILLE REGATTA. Belleville, Ont., Aug. 15.-The conditions were highly favorable yesterday. The double scull professional, mile and a half, with turn, was contested by Rogers and Durnan, Hackett and Hanlan, Bubear and Barry, and Haines and Rice. The race was won by Rogers and Durnan. Time, 19:55 1-8. Bubear and Barry, who had turned first, were fourteen seconds behind. Hanlan and Hackett were third. The other pair did not finish the course. The water in the afternoon was rougher than in the morning, and in the professional single scull dash of three-quarters of a mile all declined the contest excepting Hanlan and Durnan. The ex-champion won by several lengths in 4:50 4-5. The protest in the single scull race was arranged between Hanlan and 1 Rogers. The referee ordered the men to row over, but Rogers was averse, and they divided first and second money. The referee afterwards gave the race to Rogers on the protest be-ling withdrawn. BOTHWELL,

The Boom Continues — A 200 Barrel | Gusher Struck.

Bothwell, Aug. 15.-The oil boom here is increasing every day. On Thursday Mr. Alex. Elliott struck antest has shown it to be at least a 200-barrel well per day. This makes the third well of this description in this territory inside of a week and has been the means of stirring up great activity among the many speculators who have gathered here. At present there are twelve drilling rigs at work, and all being pushed with the greatest possible haste. Today a new company, headed by Mr. John Puddicomb, jun., are placing a new rig on the Brewer farm, and have engaged experienced men to make a thorough test without delay. It may be safely said that within the next fortnight many more new rigs and operators will be at work. At present all the available men are picked up and times here are the best seen in Bothwell for many years.

Walker has already over 40 men working for him and paid out on Friday of last week over \$1,500 wages. He is putting more new rigs on the ground each day, and next week will have upwards of 100 men at work. The wells that have been struck,

No. 1, 35 barrels per day.

All the teamsters here are kept drawing night and day in order to

keep the tanks low enough to continue the pumping. Owing to want of tank room the wells are not pumped to their full capacity at present. In the old oil days of Bothwell two much water was the great difficulty to contend with, but at the present time the only difficulty—and that is very easovercome-is a scarcity of water. Mr. Spearing, an expert from Illinois, who is managing the Walker operations, has devised a scheme that sets that obstacle aside for all time to come, so that this field is today as easily operated an oil field as any other in America, and is proving it-self to be the richest one ever found. Mr. Blair suffered a paralytic stroke on Wednesday, and is lying at the point of death. It is not thought possible for him to recover.

AN IDEA OF THE PAST.

The office of Lord Warden is more an idea of the past than a matter of the present. In the old days the chunk of bluish ice dropped into the Cinque Ports were of the greatest importance as shipbuilding centers, contributing great numbers of ships of the public. "Millie tonnerres!" to the English navy. They grew so cried the white-vested individual; to the English navy. They grew so powerful that in time they undertook piratical expeditions, made war and concluded treaties on their own account, while the warden united in his own person the privileges and functions of sheriff, customs rotulorum, lord-lieutenant and admiral. The criminal jurisdiction of the warden was abolished in 1835. His civil jur-The Brunswick House is gaining a isdiction still continues, for the administration of which he appoints a judge. He appoints commissioners in salvage cases, arbitrates, and exercises right to flotsam, jetsam and lagan (floating, cast-up and sub-merged wreckage) within his jurisdiction, which extends to the original Cinque Ports-Sandwich, Dover, Hythe, Romney, Hastings—which were formed into a jurisdiction by William the Conqueror, and to Winchelsea and Rye, which were subsequently added.

Francois; no fighting," whispered one man to his friend, the hero of the hat. Today, however, the new warden dispensed with one of the ancient customs, the holding of the installation at the site of the "Brodenstone," an uninteresting looking stone which,

carefully fenced in, lies in the Drop Redoubt of Dover Castle. For many centuries the ceremony has always taken place at this stone. This morning it was held in Dover College

LI HAVING A GOOD TIME. Li Hung Chang, or Li Chung Tong, "First Secretary Li," as he now requests he should be called, has been going about in London in a style that has suited him-in the four magnificent equipages of Lord Lonsdale, painted canary, yellow and black. Two of them are horsed by four splendid chestnuts, each ridden by postilions in yellow jackets faced with Salisbury Formally Installed in the black and worn in combination with white waistcoats and white beaver post-boy hats. The two others are horsed by pairs of chestnuts. With Li's yellow jacket and his gailyequipped suite of mandarins, the pos-tilions and the outriders accompanying, the procession is more gaudy than usual to London streets and easily evokes British cheering. He con-nives at it with his best staile, although he cannot understand the enthusiasm.

AN AMUSING HAT STORY.

It Resulted in Heating the Heads Instead of Cooling.

Necessity is the mother of invention, and among those which this hot weather has called into existence chapeaux a glace are perhaps the most ingenious and extraordinary. Now, there were many top hats on the ground, at the moment, for the heat was excessive, and the bulk of the visitors had indulged in abundant dining and were eager to be refreshed. When at last the ice came, the genup the situation in a graceful speech.
