Wild West Show, which has been here
since the exhibition opened, was seized

ing for the bailiffs, and fled when the first
officer appeared. Most of them took the
first train that would carry them over the
frontier.

Soldiers Sunstruck.
BERLIN, July 30.—Although tropical
heat prevails throughout the Empire, the
summer military drills have been carried on
according to programme. The troops have
suffered intensely. Fifteen soldiers have
died of sunstroke at the garrison maneuvers
around Bismarck, Kautzen and Leisnig.

In Essen lightning struck three electric
cars. One person was killed. Eight persons
were injured by lightning yesterday in

Fatal Fall From a Horse.
VIENNA, July 30.—Archduke William
III., son of the late Archduke Charles, and
a second cousin of Emperor Francis Joseph,
met with an accident yesterday that re-
sulted in his death. He was riding at
Wolkersdorf, near Baden, when his horse
shied, being frightened by a passing electric
car. The Archduke was thrown out of the
saddle and in falling his head struck a
stone. One of his feet became entangled in
a stirrup and, the horse running, he was
dragged some distance before the animal
was stopped.

The Archduke, who was unconscious,
was carried into a nearby restaurant and
medical aid was summoned at once. The
physicians found that he was suffering from
concussion of the brain and gave orders for
his removal to his own villa. Shortly after
he had been placed in bed at the villa he
recovered consciousness and hopes were
entertained of his recovery. He soon re-
lapsed, however, and shortly afterward
died.

China vs. Japan.
PEKIN, July 30.—The following official
version of the recent engagement between
the Chinese and Japanese fleet has been
issued by the Government: The collision
between the Chinese and Japanese ships
occurred in the Prince of Wales Gulf in the
islets on which Ashan is situated. The
Japanese attacked the Chinese vessels,
which were escorting the second and
smaller division of troops dispatched from
Taku to reinforce the Chinese army at
Ashan. The Japanese opened fire on the
Chinese, having orders not to fire
unless attacked or if the landing
of the Chinese troops was opposed.
The result of the action was that one
Japanese ironclad was disabled by the
Chinese battleship Chen Yuen.

The Kow Shing, which was sunk by the
Japanese, was a chartered transport flying
the British flag. No news has been re-
ceived here of the loss of the Chinese war-
ship Izo, which was captured by the Japanese.
The Chinese and Japanese Ministers remain at
their posts.

It is reported that two German passen-
gers on the Kow Shing jumped over-
board and swam to the Japanese warship
and asked to be taken on board.
Though they declared themselves non-
combatants their appeal was refused and
they were shot by the Japanese.

The French warship Lion saved a few
Chinese who were struggling in the water
after the Kow Shing sank.

The report that a large Chinese army has
crossed the northern frontier of Korea and
is marching down the peninsula is con-
firmed. It is reported that Japanese cruis-
ers have sunk several Chinese steamers at
Taku and captured a number of others.

LONDON, July 30.—In the House of Com-
mons today, Sir Edward Grey, Under
Foreign Secretary, said that the Govern-
ment had not offered to mediate between
China and Japan, except in the way of
proffering friendly advice to the disputants
in concert with other powers. It was
hoped that these officials would tend to the
maintenance of peace. The Government,
he said, was not yet in receipt of informa-
tion as to a declaration of war between
China and Japan, nor had they any direct
news that there had been an encounter be-
tween the warships of the two nations.

The absence of official news from Great
Britain's representatives in Peking and
Tientsin has caused much complaint in the
House of Commons. The Foreign Office
therefore telegraphed orders this after-
noon to the British consuls and ministers in
China and Japan that they must send more
comprehensive dispatches and not permit
the Chinese or Japanese officials to delay
forwarding them. Sir H. Macartney, Sec-
retary of the Chinese Legation, made a
long call at the Foreign Office today.
He still urges negotiations for peace.
The Foreign Office received important dis-
patches late this evening from British
representatives in China. No definite
statement was made, however, concerning
the declaration of war.

Sir Edward Grey, in the House of Com-
mons today, said that as long as war was
not declared the hope of a settlement re-
mained. From the beginning the Govern-
ment had taken the view that it was
desirable to maintain peace in the general
interests. Russia and the other powers
had fully agreed with this view, and all had
exerted themselves to persuade the Jap-
anese and Chinese Governments not to re-
sort to arms.

It is understood that China will not

formally declare war until the vessel and
ammunition which she has ordered abroad
reach Chinese ports.
The transport Mee Foo and Toonan,
which the Chinese feared had been captured,
have arrived at Che Foo. The 41 survivors
of the Kow Shing disaster who were picked
up and landed at Che Foo by the French
gunboat Tion tell a story differing in few
details from previous accounts of the Kow
Shing's end.

WHAT WILL PULLMAN DO?

Another Palace Car Company May Take
His Men.

CHICAGO, July 30.—The Record today
publishes the following: If the negotiations
now pending are carried to a successful
termination, the striking car builders at
Pullman will quit the "model town" in a
body and become the employees of a power-
ful new corporation organized for the
manufacture of palace and freight cars and
day coaches.

For more than a week secret communi-
cations have been passing between the
agent of the corporation in Chicago and the
striker's local committee. All of the
offers to the men are in writing, signed by
a man of wealth and prominence in the
business circles of the city. The names of
a number of capitalists who are connected
with the enterprise are also mentioned to
give the communications greater weight.

THREE CHILDREN SMOTHERED.

They Were Locked in a Newly Painted
Freight Caboose.

HARTFORD, Conn., July 30.—Raymond
(9), Leroy (7) and Freddie (4), the children
of James W. Ganion, a locomotive engineer
on the New York, New Haven and Hart-
ford Railroad, who have been missing since
Thursday afternoon, when they went to
bathe in the Connecticut River, were found
dead at 8 o'clock this morning in the cab-
of a freight caboose standing on a side track
near the roundhouse not 300 feet from
their home. They were shut in by a spring
lock.

The inquest by Medical Examiner Fuller
resulted in a verdict of accidental asphyxia-
tion. The caboose was newly painted and
the children went in to play, a pack of
cards being found in the closet. It is sup-
posed they closed the door and could not
open it, and soon suffocated in the stifling
hot air of the narrow enclosure.

Farmers Rushing in Stock.

CHICAGO, July 30.—Live stock receipts
today were the largest ever known—hogs
60,000, cattle 25,000, sheep 12,000, a total
of 97,000 head. This extraordinary move-
ment is attributed to the reported failure
of the corn crop. Farmers who had
bought stock to be fed and fattened with
corn next winter, finding they could have
no corn to feed the animals, are hurrying
them forward.

added, leaving a few hundred thousand
dollars on the right side of the ledger. Not
the slightest uneasiness is expressed as to
the gold reserve, as the treasury has \$70,-
000,000 currency—less \$7,500,000 interest
paid—to meet current demands, and can
obtain gold in the west in exchange for

entirely overcome by the continued use of
Eseljey's Liver Lozenges by taking one or
