Almost Completed.

The rebuilding of our premises is almost completed, and we have received a large stock of new goods, including Stoves, Ranges, Refrigerators, Gas and Oil Stoves, Enameledware and General Housefurnishings. Everything is new. The stock is large and the prices are low.

Our workshops are again fully equipped with the newest and most improved machinery, and we are better prepared than ever to attend to all kinds of sheet metal work, whether the job is large or small.

We furnish repairs for all makes of stoves and furnaces. We solicit all our customers, and the public generally, to give us their patronage.

QUEBEC PROVINCE LOYAL TO CORE

Stirring Address by One of the Cabinet Ministers.

PROVINCE NOT PRIEST-RIDDEN

Government Spending Much Money for Educational Purposes -Other Notable Progress,

Toronto, April 6. - "The Province of Quebec is loyal to the core. There is no truth in the allegation that Quement made by Hon. W. A. Weir, speaking of the Quebec Legislature, in an address on "Quebec, Present and Future," at the Empire Club luncheon 271/2 yesterday at Webb's. The number of members present was very large.

Mr. J. R. Roaf, in proposing the toast, "The King," briefly referred to the increase of population in Canada, showing that increase to be more than the United States, comparatively

speaking, during the last century. Mr. James P. Murray gave notice of motion that the Empire Club forward a request to the Dominion Parliament that a memorial be presented to the Imperial authorities, with the object of having an edict passed with reference to flags, that no foreign flag could be displayed anywhere in the empire unless alongside a British ensign of equal or greater dimen-

In beginning, the speaker of the day, Hon. Mr. Weir, drew attention to the remarks of Mr. Roaf, and thought references should have been made to the Province of Quebec when any increase of population was mentioned. The Province of Quebec had prejudices against it because of the different nationality, but today, in Montreal and Quebec, the utmost harmony and good feeling prevailed between the two races. Making the Province of Quebec famous were many prominent Canadians, who were celebrated for their breadth of view. There was no truth in the allegation that the inhabitants were priestridden. Time after time damage suits have been instituted against the clergy by the humble habitant, but at the same time there were no higher respected people than the clergy of Quebec. When they overstepped the mark the first people to protest were the farmers of Quebec.

They were, perhaps, rather behind in the establishment of technical and commercial schools, since the frame of mind of the people tended more towards the literary. It was also true that little more than 10 per cent of the land of the province was occupied, because, for one reason, the railroad development had not been as great as in Ontario. The construction of the Grand Trunk Pacific was sure to open up a large development in the province.

During the last year they had chartered a railway to run from Montreal to Labrador, from where a passage to Great Britain could be made in 31/2 days, and the railway also went through valuable mineral lands. Quebec was as large as France and Prussia combined, and seven times the size of New York State. In conclusion the speaker drew a glowing picture of the future of the French-Canadian province.
