LUCKNOW HOTELMEN GREATLY ANGERED

From Men Who Carried Local Option.

> [Staff Correspondence.] Lucknow, Jan. 18.—Businessmen are awaiting with anxiety the working out more than the required three-fifths

> The hotelkeepers say that it will impossible for them to maintain their places without bars, and the proprietor the leading house has announced his intention of selling out. By way of expressing their indignation at merhants who supported the measure, the hotelmen are ordering their supplies aside of Lucknow.

> Advocates of the measure pooh-pooh the idea that abolition of the bars will njure business to any serious extent. They claim that there is plenty of business to maintain at least one first-class hotel without a bar.

COOKING REVOLUTIONIZED

A WORD ABOUT PAPER-BAG COOKERY.

The Soyer Method Is Not an Experiment but a Proved Success

In England the Method Has Had an Immense Vogue.

All over England it has been tested, and has proved a triumphant success. Already it has had the indorsement of epicures, of experts in cookery,

and of the leading chefs of London.

The success of this system of cookery, as of all others, depends entirely upon the care with which it is carried on. Paper Cookery Bags replace pots and pans in cooking, and save time and labor, but they do not replace the care and rudimentary knowledge which is always necessary to success

ADVANTAGES OF THE SOYER METHOD

The advantages of the method-there are no disadvantages-make it a boon alike to rich and poor, to those who cook themselves, and those who enjoy the cooking of others, and for these reasons:

 It makes every dish more savory and nutritious.
 It is economical; the food weighing practically the same when drawn from, as when put in, the oven.

3. It is labor-saving-no cleaning of pots or pans.

4. It is hygienic-no germ-haunted cooking utensils. 5. No smell of cooking.
