Cow Testing Associations
RAIN OR SHINE

June records furnish some interesting contrasts in milk yield as reported by members of cow testing associations.

For instance, one herd at Hickson, Ont., contains 17 cows, each one of which gave over 35 pounds of butter fat. In another association not fifty miles away, where the milk is paid for by fat content one herd of 15 cows has only 2 cows that tested three per cent. of fat, all the remaining 13 cows in the herd tested only 2.9 or 2.3, while the average yield was only 22 pounds of butter fat, or thirteen pounds less per cow during the month than the other herd.

In another herd the weight of milk from one cow is given as 14 pounds one morning, only 8 pounds the next evening, but 15 pounds the next morning; many other cows show just as sharp variations. These are quickly noted if the wise dairyman is keeping a daily record of milk, the cause of such sudden drops will be sought for, and measures taken, if possible.

Suffered For Thirty Years With Catarrh of The Stomach.

Mr. John Raitt, 71 Coursol St., Montreal, Que., has used Milburn's Laxa-Liver Pills and recommends them to all his friends. He writes:—"I take pleasure in writing you concerning the great value I have received in using Milburn's Laxa-Liver Pills for Catarrh of the Stomach, with which I have been a sufferer for thirty years. I used five bottles and they made me all right. I also had a very severe attack of La Grippe, and a few doses acted so quickly that it was unnecessary to call in a doctor to cure me. For the small sum of 25 cents we have our own doctor when we have Milburn's Laxa-Liver Pills."

Price 25 cents per vial, or 5 for $1.00, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

to prevent the shrinkage and keep each cow up to her maximum capacity.

Twice a day, rain or shine, the cow has to be milked, why not make each milking time bring in eight or nine cents profit? How many men milk eight times before they get one cent profit from some cows?
