Campbellton, N. B., June 10th, 1926.

THE DALHOUSIE MEETING.

All roads lead to the shiretown of Restigouche Co. on Wednesday and Thursday, June 16th and 17th, where the "All New Brunswick" Tourist, Game and Resources Association will hold its annual convention in the Inch Arran House. During the convention a party of American journalists, consisting of 59 men, 57 women and 13 children will be the guests of the members of the convention during the evening of the 16th.

This group of journalists form part of the National Editorial Association, which was formed 35 years ago in New Orleans, and now counts over one thousand members. Its first president was the late B. B. Herbert, of the National Printer Journalist of Chicago. Since its foundation no annual meeting was ever missed. Not even while great wars were going on. It is now stronger than ever.

The principal officers are—
President—Edward Albright, of Gallatin, Tennessee.

Vice-President—Will Wilke, of Grey Eagle, Minnesota.

Treasurer—J. Byron Cain, of Belle Plaine, Kansas.

Executive Committee—G. L. Caswell, Dinon, Iowa; E. E. Brodie, Oregon City, Oregon; J. C. Brimblecom, Newton, Mass.; E. N. Henderson, Little Rock, Arkansas; H. U. Dailey, Princeton, Illinois; W. W. Atkins, Franklin, Indiana.

It is to be hoped that every business man and every citizen of Campbellton and other parts of the County of Restigouche and the North Shore will if possible attend the meetings of the convention, and the banquet the last evening. It may be a great many years before such a gathering of distinguished men and women will meet in this section of the province again. Let us join hands and give them a hearty welcome. If they go away from us with a good impression it cannot help but be of great benefit to the North Shore and in fact to the whole province of New Brunswick.

EDITOR'S MAIL

Dear Editor:—

Will you permit me Sir, to voice my grievance and that of many others residing in the East end, over an incessant and thoughtless act on the part of one of the town employees, when he a few days ago, carted several loads or perhaps a ton of rubbish most of it waste paper, printed forms and books, all discarded by the town officials, to the Park grounds, and there dumped the same in the most exposed places, to be blown and scattered by the winds and children, along Water street, to the lawns, gardens and back yards, of every resident in that section. If this rubbish was ordered to be dumped there, as he claimed, this employee could have found holes where this matter would have been protected from the winds, or could have been covered with earth, with very little exertion. The residents are with patience trying to clear their grounds of this nuisance, but there is still sufficient evidence of this eye sore, along the streets, if our officials want to see it. This business youth may be indispensable to the town's management, but I know we who have suffered are fighting mad, and say, he should be taught a lesson, by instant dismissal. He should know, and the public should be made to know, that there is but one authorized dumping ground and that outside the town limit, and for which the rate payers are paying one hundred dollars a year rental, and besides this, paying a yearly salary to protect the same, and keep it in good order. Notice this, my long suffering public, that we have three dumping grounds, right in the heart of the town, and which have no care whatever. The result is there is little if anything to do for the man employed at the authorized dump.

How can we hope for a progressive town, and a healthy community spirit, when the management allows the so called Park grounds to be a dumping ground for all kinds of filth, and a disgraceful eye sore for all passers-by, in full view from the principal street, a town of seven thousand people, with all modern services in other respects, and this a menace to health as well. Let me name another place in even a worse condition. I refer the authorities to the O'Keefe lot on Ramsay street, where all kinds of filth is dumped to the great annoyance of residents, when the winds are from the east. This filthy place is twenty feet from the centre of the street, yet no official will take action. I hear you have a Board of Health but you cannot certainly have a Sanitary Inspector, or this condition could not exist. Why not appoint a good man at once? The third place of a similar nature, is at the south end of Sugar Loaf St. and the worst feature of this is that all material, filth and all, are dumped into that beautiful clear, uncontaminated stream the Walker Brook. And would you believe it, when I tell you, that all this material referred to, is daily carted by the door of one of the town policeman on Sugar Loaf St. If the town management cannot spare a few dollars to clean up those places on Water St, before the 16th inst., I would suggest the American visitors, who will be guests of the Town of Campbellton for a few hours, be taken on their trip to Dalhousie, by the back streets, which are at least free from eye sores.

Yours
RESIDENT.

WAS A BLESSING TO HIS WIFE, HE SAYS

Nerves Steady, Headaches Gone, Eats Anything Since Taking Tanlac.

"It has been six months now since Tanlac overcame my wife's troubles after she had suffered ten years, and today she is still enjoying perfect health," said Arthur Hillier, a well-known carpenter residing at 28 Dawson street, Dartmouth, Nova Scotia, a few days ago.

"Nearly eleven years ago my wife's health broke down," he continued, "and since that time she has gone through her share of suffering. Her digestion was so bad that nearly everything she ate caused trouble and gave her pains in the chest and stomach. She complained of a heavy, smothering in her chest and at times she was so choked up with gas she had to fight to get her breath. Many a night she was in such misery I had to be up for hours trying to help her get relief so she could get a little rest, but often it was nearly daybreak before she became easy. One time last winter she had an attack of acute indigestion and they sent for me to come, as they thought she would die. These spells got to coming on her often, and whenever they did she would be in bed for two or three days at a time. She was badly constipated and subject to severe headaches. Her nerves were in a wretched condition and she was about fifteen pounds under weight. Many times I have seen her so weak she could hardly walk and it was impossible for her to do any of the housework."

"We had been reading about Tanlac, and when she saw it recommended by several of our friends we decided to give it a trial. Well, sir, before my wife had finished the first bottle I could tell she was improving, she looked better and was picking up in weight. In all she took six bottles, gained fully fifteen pounds in weight and was restored to perfect health. This was six months ago and she has never been troubled in any way since. She is eating more than she has in many years and it all agrees with her perfectly. Her nerves are steady and strong, and sleeps like a child at night and does all her housework without any trouble. She is free from constipation and headaches and she never complains of an uncomfortable feeling of any kind. Tanlac has certainly been a blessing to her and she never loses an opportunity to praise it." Tanlac is sold in Campbellton by THOMAS WRAN, Druggist, in Jacquet River by S. McALLISTER, and in Archibald Settlement by M. SMEARER, also in Chandler by Arthur Nadeau.
