CANADA IS NOT READY FOR BURIAL.

Rev. J. E. Starr Preaches on the Present Prevalence of Boodle in Public Affairs.

"Is the Country Going to the Dogs?" was the subject of Rev. J. Edward Starr's discourse in Elm-street Methodist Church Sunday night. His remarks were based on Jer. xlviii.:

There shall be no more praise of Moab: in Heshbon they have devised evil against it; come, and let us cut it off from being a nation.

Political corruption had prevailed, he said, in all ages. In ancient times it had led to the ruin of Egypt, Syria, Greece and Rome; in modern times of France. Like individuals, nations had their birth, youth, middle life, old age, disease and death. They were unlike individuals, however, in the fact that they have no immortality. Nations come to their judgment day, but it is in the present world, and their punishment was sometimes extinction.

"Small wonder," continued the preacher, "that there are some people who, viewing the rottenness of the administration of our public affairs, fear that our country is to be buried in the cemetery of dead nations. The opinion has already been expressed as to whether we are fit for responsible government. Can the country survive the corruption possessing the body politic? is freely asked. The infamy brought to light is most shocking and is deserving of the severest punishment, but I have no sympathy with those who try to make it appear that because of the delinquency of the few individuals the whole country is in danger!"

His first element of hope was in the fact that in both of our political parties there are numbers of good men. "You may not think so judging by the utterances of a partizan press prior to and on the eve of an election. In the rank and file of both political parties there are thousands of good citizens. Out of the 1300 civil servants at Ottawa only about 14 per cent. have been guilty of delinquency or crime. In the Senate Chamber, in the House of Commons, on both sides of these houses there are good, upright, conscientious men. Some of them are Christian men and would as soon handle a rattlesnake as touch a bribe. So long as these men are in our legislative halls the most pessimistic need not fear."

The second element of hope was in the fact that even public men want to see things purified. "We want substituted in this country," added the preacher, "citizenship for partizanship. The young people in this country must work not for party but for country. The business of officeseeking must be made contemptible in the eyes of right-thinking people. The fact that a man will seek office in the Civil Service ought to be sufficient to damn his chances for securing it. Instead of the man seeking the office, let the office seek the man and let us forever abolish the maxim, 'To the victors belong the spoils.'"

Another element of hope was in the fact that public sentiment appears to be favorable for drastic measures for the purification of public affairs. Condemnation was voiced by men of both political parties. "I know that in these parties there are men who are willing to go it blind, men who look through the smoke of party spectacles. Those are professional politicians. But the great mass of the people appear to be favorable to the most radical measures for the purification of the politics of this country. Just as long as there is this moral sentiment in Canada the country is safe. It is righteousness that exalteth a nation.

"The country is God's. He it was that set it with the jewels of the inland lakes, that threw the garland of forests about her neck, that planted the Atlantic on the one side and the Pacific on the other, that made her rich in minerals, and gave her in the Rockies a backbone of strength. From the moment, 25 years ago, that the open-mouthed cannons announced the birth of the Canadian Confederation down to the present the nation has been bounded on the north, on the south, on the west and on the east by the goodness of God. Let us acknowledge all His goodness. Hoist up under the white banner of the cross our national ensign and there let it flutter, the emblem of national righteousness. Its green symbolizing national liberty; the wreath of maples symbolizing national unity; its blue the source from which came our national blessings; its red the sacrifice at which they were won and by which means they will be maintained. There let it flutter, pessimists to the contrary notwithstanding."

About the City Hall.

The sub-committee of the Executive Committee met yesterday morning to arrange a basis of settlement of accounts in dispute between the city and the county for territory annexed to the city at various times since 1885.

It was decided to instruct the City and County Solicitors to prepare a statement of the value of the annexed parts and if possible arrange a satisfactory settlement without going into an expensive arbitration.

At the meeting of the Waterworks Committee a communication was read from Mr. F. B. McNamee asking for a settlement of the conduit contract. The new conduit has been in use for over two months. Mr. McNamee thinks there has been ample time for examination and asks that the $2300 be paid at once. The matter was left over.

Superintendent Hamilton presented a report which stated that he had appointed Mr. Baxter, an assistant engineer, to the position of Chief Engineer of the pumping station and recommended that his salary be increased to $1600.

Ald. McMurrich moved that the salary should be $1200. The amendment of Ald. Pape's, placing the salary at $1400, was carried.

The tender of Walter Page for the superstructure of the new pumping station was accepted, the amount of the tender being $7835.

A letter was received in the Mayor's office from Mr. Thomas Heys, containing an analysis of the city water. The report showed that the quality of the water used is first-class, and the same as in the lake, with the exception of the pumping house well, which differs slightly as yet.

By Laying on of Hands!

Woman restored to perfect health! Just faith and confidence enough required to lay hold of Dr. Pierce's Favorite Prescription, administer it with a little patience and a little perseverance, and complete restoration to health and vitality is insured. Not far, indeed, from the miraculous, are many of the wonderful cures of lost womanhood it has effected. There are few cases, indeed, within the requirements of sick and suffering woman, outside or beyond its helpful influence. So confident are the makers of Dr. Pierce's Favorite Prescription of its powers to heal all female diseases, that they warrant satisfaction in every instance, or refund money. Large bottles $1.00 (6 for $5.00); at druggists.

Moore's Musee.

The Musee is destined to have a rushing season judging by the immense throng that filled its halls and theatre yesterday. In the theatre especially, everything is such as to be enjoyed, and there is nothing to offend the best taste. Gilday's Irish sketch, though old, is still good. Ida Barnett is a handsome young lady, who sings to please the multitude. Fenton Brothers in their tramp sketch tickle the gods, while Meredith and Ripley are so so, and Howe and Doyle dance well. Up stairs in the Curio Hall Miss Mattie Lee Price lifts two or three ponderous men by some mysterious power that is not muscular. Barnello does the old fire act. Smith Warmer, the Musee lecturer, outdoes J. C. Conner, and that is praise enough.

Toronto Conservatory of Music.

The opening of the above institution for the present season takes place this morning. The various teachers will be on hand to meet with fitending students and all information as to classes, fees, etc., can be procured from the registrar at the office. The prospects so far indicate a successful opening, and in a few days the work of the school will be again in full operation.

Mothers and Nurses.

All who have the care of children should know that Dr. Fowler's Extract of Wild Strawberry may be confidently depended on to cure all summer complaints, diarrhœa, dysentery, cramps, colic, cholera infantum, cholera morbus, etc., in children or adults.

LIKE OUR AMERICAN COUSINS!

Let Us Take Warning.

It would be well for our Canadian people if they were thoroughly impressed by the fact that they require more bodily rest and more sleep than they now obtain. Canadians are too much like their American cousins; they go ahead too fast; they are too excitable; they want wealth, position and honor too early in life, and expend too much physical power to acquire these conditions. Our grandfathers were more thoughtful of bodily health and worked on slowly but surely to attain worldly honors and renown.

This system does not suit the present generation of men; they demand all before reaching the age of forty.

This course of action demands severe condemnation and should be frowned down if we desire to see a healthy and long-lived people in Canada.

The turmoil, worry and excitement after riches and fame, invariably beget disease and suffering, and few live to enjoy the fruits of such hard labor.

Nature demands more sleep and rest, and he who attempts to fight against nature's laws must suffer the penalties.

There is no fact more clearly established in the physiology of man than this, that the brain expends its energies and itself during the hours of wakefulness, and that these are recuperated during sleep. If the recuperation does not equal the expenditure the brain withers; this is insanity.

Let us ever remember "That those who think most, who do the most brain work, require the most sleep and rest; and that time 'saved' from necessary sleep is infallibly destructive to mind and body."

There are thousands of professional men, bankers, merchants, manufacturers, bookkeepers, clerks and students who have become victims of nervousness, insomnia and irritability, brought on by overwork of body and brain and too little indulgence in nature's sweet restorer, sleep. The nervous system is broken and shattered and the body becomes weak and frail.

They are now suffering the penalties of broken laws. Nature, ever kind and indulgent, was ill-treated, badly used and its warnings were unheeded.

To-day many of such sufferers have had the true remedy for strength, vitality and recuperation put into their hands. They have heard of the wonders achieved by Paine's Celery Compound, and have gone at once to the fountain of health, which alone can bring to them new life.

Others are still wandering in gross darkness; they try remedy after remedy without finding relief from their sufferings. It is to this class that we would utter a word of warning. Your condition is serious and desperate, and it is well for you to know that procrastination is fatal. There is hope for you if you take hold of that preparation furnished by science; there is new life for you by using Paine's Celery Compound.

You may consult the best physicians in the Dominion, but they in their wisdom will not hesitate for a moment (if they be honest) in recommending Paine's Celery Compound. Its wonders in speedy cures are spoken of everywhere, and all who try it are astonished at its power and successes.

Exhibition Notes.

One of the curiosities for the Toronto Exhibition arrived yesterday in the shape of a trotting pig. This animal has been trained to harness and the owner says he can outtrot any dog in harness. A telegram was received by Mr. Hill yesterday morning stating that one-half of Mr. Thayer's per forming horses had been shipped from Boston to the Exhibition. The remainder will be sent to-morrow. The workmen employed in arranging the grounds for the "Siege of Paris" have up to the present completed the work to the middle distance of the besieged city. They are now at work on the cordon of fortifications which surrounded Paris and for so long held the enemy in check. It is expected that the batteries and forts will be finished by to-morrow night, when the cannons will be placed in the positions prepared for them. It is likely, although not absolutely certain, that during the exhibition visitors to the fair will be transferred from one street car to the other free of cost. A very large number of entries have been made for the boys' bicycle race on school children's day, Sept. 11. Bicycling has now become so general amongst all classes that this will prove extremely interesting to thousands, at least to all the school children in the city. Mr. Unitt, who has charge of the allotting of space in the building, has removed his office from the Public Library building to the grounds. The race track has been greatly improved this season. The finishing touches will be put on it to-morrow, when it will be ready for the great events of next week. All arrangements are about complete for the bench show of dogs Sept. 14 to 18. There will be four judging rings, two downstairs and two up. From present indications the show will be the largest of any ever held in Canada and the largest fall show ever held in America. The following specials have been donated: $5 for the best progeny of Eberharte Cashier and $5 cash for pug with best tail.

The Grand's Next Attraction.

The clever farce comedy, "Hoss and Hoss," which will be produced at the Grand Opera House next Thursday evening, will introduce the two clever comedians, Mr. Charlie Reed and Mr. William Collier, who have made themselves famous all over the United States, particularly during the last season, in "The City Directory." They have been assigned to peculiarly amusing parts, the first one that of a lawyer, the last one of a funny judge who knows everything but law. Mr. Reed as the lawyer will make up and look like Abe Hummel, the well-known New York criminal lawyer. Besides these two stars the cast that will accompany is a very strong one, every one being a recognized singer or a dancer of repute. Among these are Miss May Yohe, whose phenomenal voice has been recognized, and Miss Adele Farrington, whose superb contralto voice has placed her in the very front rank of her profession within one year. Miss Louise Allen, whom the manager had a great deal of trouble in securing, owing to the fact that nearly every manager in the country wanted her, is also in the cast, and so is Mr. R. C. Moulton, the eccentric comedian, Mr. Reirer and many others of ability. Unlike other farce comedies, "Hoss and Hoss" has a very strong plot, founded on an amusing story, and the specialists who are seen in it are not dragged in, but play a part in the story itself, which is clean and refined.

To-night the Roth Lyric Opera Company will present "The Pirates of Penzance," "Pinafore" will be given at the matinee to-morrow, and the engagement will close with "The Chimes of Normandy" on Wednesday night.

Health in Herbs.

Health-giving herbs, barks, roots and berries are carefully combined in Burdock Blood Bitters, which regulate the secretions, purify the blood and renovate and strengthen the entire system. Price $1 a bottle, 6 for $5. Less than 1 cent a dose

The Typesetting Machine is Coming.

Mr. Murphy, the official reporter of the United States Senate, was in town Saturday. He is a stockholder in the Mergenthaler typesetting machine, which is now an undisputed success and the orders for which are coming in so rapidly that the company cannot begin to fill them. They are closing a contract with one big shop to build them a thousand machines.

T. W. Lemon, who was a compositor in The World's newsroom two years ago, is now working one of these machines in Oil City, Penn., and the other day he beat the record, setting 44,000 ems solid minion newspaper composition in eight hours, four times the speed of the best compositor and six times that of the average one.

Stick to the Right.

Right actions spring from right principles. In cases of diarrhœa, dysentery, cramps, colic, summer complaint, cholera morbus, etc., the right remedy is Fowler's Extract of Wild Strawberry—an unfailing cure—made on the principle that nature's remedies are best. Never travel without it.

Better Make It a Potato Field.

Editor World: Instead of the Park being kept open for Sunday riots, which show the imbecility of the police and the whole council, who are making a laughing stock of this fair city, better have it fenced in next year and planted with potatoes. It would be better to let potato bugs hold high carnival there than the disorder that has prevailed for several summers past and the riots this season.

Sic Him, Towser!
Prof. Burke, with the able assistance of Mr. J. C. Conner, whose opening address was really a masterly effort, exhibited his dogs at Hanlan's Point twice yesterday. The animals are really clever and are especially entertaining to little people. On account of the mild weather there was a large crowd. The performance will be repeated every day this week.

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly and causes a healthy and natural action. This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery etc., in the market.

I AM A MAN

"I have been treated by doctors, who had long lists of so-called cured patients, but t y could not reach my case, and hope had been murdered in me by fair promises, but on first application of your magical appliance, hope and confidence came flocking in stronger than the combined powers of the four winds. I knew then that you would cure me, and now that I am a man and well again, I cannot thank you sufficiently for the cure. So again I say, use my name as reference whenever you wish. You nor any one else cannot use words too strong to express my sentiments in favor of so wonderful a treatment as that given by you."

AUCTION SALES.

THE MART
ESTABLISHED 1834

UNRESERVED SALE OF VALUable Freehold lots in the County of Simcoe to close an estate.

Under and by virtue of a power of sale contained in an indenture of Mortgage, which will be produced at the time of sale, there will be offered for sale by public auction at the Auction Rooms of Messrs. Oliver, Coate & Co., King-street east, Toronto, on Saturday the 26th day of September, 1891, at the hour of 12 o'clock noon, the following very valuable lots in the County of Simcoe. Firstly, in the Township of Matchedash, lot 15 in the first concession, lots 2, 13 and 14 in the second concession; lot 2 in the sixth concession. Secondly, in the Township of North Orillia, lot 18 in the third concession.

There will also be sold at the same time and place, 108 acres of lot 19, in the nineteenth concession of Tiny.

The above are all bush lots, and as there is some good timber fit for cordwood and other purposes on them, this would be a good chance for persons looking for wood to purchase.

The lots will first be offered for sale en bloc subject to a small reserve figure, and if not sold in that way will be offered separately without reserve.

Terms: Ten per cent. cash on the day of sale and sufficient therewith to make up one-third within thirty days of the day of sale, and balance within three months to be secured by the note of the purchaser, with interest at six per cent., on the payment of which a deed will be given.

For further particulars and conditions of sale apply to
