IT'S BETTER

THAN

DRUGS.

chance.
FOND DU LAC, June 29, 1893.
We have now reached this the last post of the Hudson's Bay Company that we shall come to before starting into the Barren Grounds, and so far everything has gone on pleasantly and well. Since leaving Fort Chippewyan James has made a survey of the north shore of Lake Athabasca to here, a distance of 180 miles, and I have already surveyed the rest of the shore to Black Lake. Besides, we have secured a guide to take us up to the Barren Grounds and to carry part of our load that far.

The old man who was in charge here last year died last winter, and the post has been abandoued as a summer post, so that we may be out before you receive this letter; but if not, you will know that we are all in good spirits and have already made some interesting discoveries.

HEALTH NEWS r, Bryce off for Port Dalhousie—A Difficulty Arranged.

Difficulty Arranged.

Dr. Bryce, secretary of the Provincial Board of Health, left for Port Dalhousie and Niagara Falls yesterday morning to investigate the complaints from that section of malaria nuisance, arising from water on the Dominion property that has been dammed back by the canal bank.

The Provincial Health Board has been notified that the trouble between Windsor and Walkerville; on account of Walkerville sewage contaminating the Windsor drinking water, has been amicably settled. Each town has agreed to pay a proportionate share of the cost of a new water main to enter the St. Clair above Walkerville.

Independent Foresters.

Editor World: The statement made in the public press that the Independent Order of Foresters "is seriously disturbing the insurance world of two continents "led the writer to examine the system of this body with the result that there is the most ample ground why the present position of the body should seriously disturb all those who are relying upon it as a provision for themselves and those dependent upon them. An examination of the literature of this body shows that all its contracts are what are known as endowment contracts, i.e. (1) For payment at death of the sum named in the certificate; or on its holder attaining age of 70 such amount is payable in 10 annual instalments; or (2) what is known as the special endowment benefit, payable to the holder at death or on attaining expectation of life. To show the entire unsoundness and insufficiency of the system I will at present only give a few illustrations of the special endowment. With regard to the vital element of the insufficiency of the sums charged by this order to meet its contracts the Supreme Chief. Ranger stated recently in the public press that any criticism of that character always received the most serious and respectful consideration of the body. In view of this fact let us briefly consider what the rates charged by the body are. The following table gives the rate nce world of two continents"led the writer to

consider what the rates charged by the body are. The following table gives the rate charged by the order and the net rate fixed

The rates quoted above from Government tables are absolute and do not provide any margin for expenses, while the rates of the L.O.F. are liable to a deduction of 5 per cent. for expenses, which would increase the annual deficiency, already less, from one-half the sum absolutely essential for such a contract. If the Supreme Chief is sincere in his recently expressed wish that his order should be under Government supervision, I challenge him to produce from any competent authority a valuation of the order's liabilities under its contracts. I am confident such a valuation will show the utter insufficiency of the rates charged to enable the Order to meet such contracts at maturity.

Toronto, Oct. 6, 1893.

Mr. Walters, who is connected with the firm of the Sabiston Lithographing Company, met with a rather serious accident HOME ON EASY PAYMENTS. erday morning. He was standing near a pony in Victoria-street, which proved to be vicious, and while conversing with a friend received a very nasty kics. He was removed to his home, where the injury was attended to the vicious and while conversing with a friend received a very nasty kics. He was removed to his home, where the injury was attended to his home, where the injury was at-

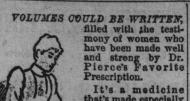

Dyspepsia or indigestion is occasioned by the want of action in the biliary ducts, loss of vitality in the stomach to secret the gastric juices, without which digestion cannot go on; also, being the principal cause of headache. Parmelee's Vegetable Pills, taken before going to bed for a while, never fail to give relief and effect a cure. Mr. F. W., Ashdown, Ashdown, Out., writes: "Parmelee's Pills are taking the lead against ten other makes which I have in stock."

New Route to Buffalo, It is freely stated in commercial circle that during the coming season the Niagara Falls Park and River Railway (electric line) will either build a bridge from the Canadian side to Navy Island, thence to the American shore, or arrange for a line of boats to run from Chippewa to Buffalo. Years ago boats ran between Chippewa and Buffalo and did a big business.

When you notice unpleasant sensations aftesting, at once commence the use of Northrop Lyman's Vegetable Discovery, and your Dyspe sia will disappear. Mr. James Stanley, mechant at Constance, writes: "My wife has tak two bottles of Northrop & Lyman's Vegetat Discovery for Dyspepsia, and it has done in more good than anything she has ever used."

At Osgoode Hall yesterday the Toronto General Trusts Company, acting as execu tors of the estate of John Leys, formerly a member of the firm of Rice Lewis & Son, brought suit against E. Strachan Cox, formerly a Toronto stockbroker, and now of London, England, to recover \$100,000 for advances alleged to have been made.

These two desirable qualifications, pleasant the taste and at the same time effectual, are to be found in Mother Graves' Worm Exterminator Children like it.

strength and to cure women's ailments—an invigorating, restorative tonic, soothing cordial, and bracing nervine; purely vegetable, non-alcoholic, and perfectly harmless. For all the functional derangements, painful disorders, and chronic weaknesses that afflict womankind, the "Favorite Prescription" is the only guaranteed remedy.

It must have been the medicine for most women, or it couldn't be sold on any such terms. Isn't it likely to be the medicine for you? Sold by drawnists everywhere.

agreed. Since then many courts have wrestled with the case without reaching any decision, and finally it was set down for trisl by 12 good men and true. The plaintiffs claim that the glass was improperly loaded, and that its breaking was the result of the negligence of the railroad men. The C.P.R. says that the glass was marked out for vengeance by the Aimighty, otherwise their defence is that the damage was caused by "the act of God."

Part of the evidence was put in, but a material witness, the manager of the Shedden Company of Montreal, was not on hand. The counsel for the plaintiff, after some of the evidence was in, asked that the trial go over, but Judge Street would not listen to a postponement. The hearing will be continued to-day.
