FOR LAW-MAKERS.

If the truth were known there are surprisingly few remedies in the market that would stand legislative investigation. This is made apparent, even to a layman, whenever it is proposed to require all proprietors to give information about their preparations before they will be allowed to offer them for sale. This suggestion, although prompted by public welfare, is as a bomb thrown in the midst of many remedies. This fact shows only one thing, which anybody can understand.

The public has a right to demand thorough investigation of everything sold to benefit health. If there is any reason whatever why any preparation should be taken only on a doctor's prescription for the sake of public health this fact should be made known. If, on the other hand, a preparation is utterly worthless and will not do what is claimed for it, the public should not be allowed to be deceived.

One fact will surely stand. The proprietors who are always and a long rise in the market again put him into the list of wealthy men.

Thomas A. Jebb, who died Saturday at Kenosha, Wis., experienced some strange viciosistudes of fortune. In early life Mr. Jebb was a figsawyer in Buffalo. He pataented a churn for making butter, and, while it failed, he made an immense fortune out of it. Then he patented a churn for making butter, and, while it failed, he made an immense fortune out of it. Then he patented a churn for making butter, and, while it failed, he made an immense fortune out of it. other dinner and enumeration. Col. Bob Givens, the indefatigable prophet and census guesser, presented elaborate statistics to substantiate the claim that the present population of the city exceeded 2,000,000. Col. Bob Givens is posterior to the times and behindhand with figures. An eminent citizen of Chicago, the Hon. Hinkey Dink, estimates the present population, submerged and floating, of Chicago, at 6,374,597 souls, oversouls and undersouls. The name of the census club should be changed to the Seven Million Club. Scientific estimators can roll up seven millions as easily as two. Col. Bob Givens has not, we fear, the true mathematical imagination.

Louis Dill arrived in the city Sunday evening, en route from Buffalo to Sault Ste. Marie, where he proposed going into lumbering. He put up at Reid's Hoel, York and Wellington-streets. At an early hour yesterday morning the porter found Dill unconscious in his room. He had evidently blown out the gas before retiring. The victim was restored to consciousness after an hour's hard work.

Ottawa, Nov. 20.—A communication from Scotland Yard by cable came through the Governor-General's office last week, which resulted in the arrest on Sunday, when alighting from the Dominion steamer Labrador at Halifax, of William Crocker Coward, alias Tapper, alias Temple, an embezzler from London, Eng. The man's age is given as 26 and his occupation as farmer, which seems as though the days of the secret and worthless compounds are numbered. Every time the worthlessness of a secret mixture is exposed by the medical profession there is a public reaction in favor of the legitimate preparations which really have merit. The public is also gradually awakening to the possibilities not only of fraud, but of actual harm, in many preparations whose proprietors hide behind the inability of the chemist to trace the elements in their nostrums. The result is that people are becoming more cautious about buying new preparations, or old ones that are enshrouded in mystery.

Scott's Emulsion is good for a dyspeptic person, for it aids the digestion of other foods, and to all persons who suffer from any wasting condition Scott's Emulsion offers the most effective cure.

For all affections of the Throat and Longs, like Coughs, Colds, Sore Throat, Bronchitis and Consumption, Scott's Emulsion is invaluable. It soothes the Throat, cures Coughs and Colds, relieves inflammation, and possesses the power to overcome the wasting of Consumption up to the last stage of the disease. Persons who have been so far gone with Consumption that they have raised quantities of blood have been entirely cured by this great remedy.

For weak babies and children with wasting tendencies Scott's Emulsion has been prescribed by physicians until it is a household word in hundreds of thousands of families.

The following from The New York Sun

There is no cloud, as has been remarked, without a silver lining. Every woman can find one in her own case if she will but look for it. The stay-athome woman can shudder at the misserable, rushing, nerve-straining life of the business woman, and the business woman can thank her fate that she does not have the dull monotony of domestic life to contend with. By reflecting on the disadvantages of other people's lots, one's own can generally be made endurable.
