istance here, and in-

fluence in England to aid us in accomplishing  
this great and important object.

Allow us in conclusion, to offer to your Ex-  
cellency our sincere wishes for the health and  
happiness of Lady Head, and the other mem-  
bers of your family, and our earnest prayers  
that your residence amongst us, may tend to  
the promotion of your Excellency's comfort,  
and to the happiness and prosperity of the  
people of New Brunswick.

To which His Excellency was pleased to make  
the following reply:—

Gentlemen,—I know well the loyalty and the im-  
portance of the County of Charlotte and of the  
Town of St Andrews.

I thank you for your congratulations, whilst I  
deeply regret that on my first visit here, I should  
find the commercial interests of the place in a state  
of such depression.

I look to the establishment of Railroads, as the  
most powerful machine to unite in one focus, the  
scattered elements of prosperity, in which this  
Province abounds.

You will have earned the credit of being the  
first to bring this power to bear on the resources  
of New Brunswick, and I earnestly hope that the  
results of the project, may come up to the warmest  
anticipations of those who have undertaken it,  
with so much spirit.

I acknowledge on behalf of Lady Head the good  
wishes you express for her health and happiness,  
and I trust I may have an early opportunity of re-  
peating my visit to a portion of the Province, which  
offers so much to interest me in every way.  
St. Andrews, Sep. 30, 1848.

### Arrival of the Steamship America.

The English Mail by the Steamship Ame-  
rica was received here last night. We have  
only space for the following.

The grain trade has been steady and the  
prices last quoted supported. The best flour  
32s to 34s per bbl.—Indian Meal 17s to 17s  
6d per bbl.

Trade continues to improve.  
The weather had been favourable—and the  
grain crops, had been housed in good order.  
The potatoe crop had been damaged but not  
so extensively as previously reported; on the  
whole it is reported there would be average  
crops.

There had been some slight disturbances  
in Ireland, but they were put down at once,  
some few persons were killed on both sides.

The Continental news is exciting, the  
armistice between Denmark and Prussia has  
been repudiated. The Prussian Ministers  
resigned. Paris is still unsettled.

LAUNCHED from the building yard of Messrs  
E. & J. Wilson, on Thursday last, a beauti-  
fully modelled, thoroughly finished, and sub-  
stantially built ship of 844 tons, which on  
entering her future element was named the  
"SALACIA." The day being fine, a large  
number of persons assembled, to witness the  
launch of this noble vessel, which glided  
gracefully into the water, amidst the cheers  
of the spectators. She is principally built of  
the best hamatac and pitch pine, and copper-  
fastened. The following are her dimensions,  
length on deck 151 feet—breadth of beam  
33 feet 9 inches—depth of hold 21 feet 8 in.  
This vessel has been pronounced by compe-  
tent judges to be a perfect specimen of naval  
architecture, and one of the most faithfully  
built ships in the Province; adding another  
laurel to the well earned fame of the Messrs.  
Townshends' as builders. She is owned by  
those enterprising merchants, Messrs Edward  
and Joseph Wilson, of this Town.

The news by the ACADIA, is cheering—  
there was every prospect of an abundant har-  
vest throughout the United Kingdom—the  
prices of grain and flour have declined nearly  
as much as the recent advance. In some few  
districts in Ireland, fears were still entertain-  
ed respecting the potato crop, but it was hoped  
that the fine weather which had prevailed,  
would check the disease.
