Copy of a Letter from Mr. Edward Tomkingson, and Cape Breun, Nora Sco in, dated the tit May, 1854.

To Pr. teasor Holloway,

The Marchard Mrs. Lanc Tomking Cape Marchard Mrs. Lanc Tomking Cape Breun, Nora Sco in, dated the tit May, 1854.

To Priteasor Holloway,
Sir.—My sister, Miss Jane Tomkinson, suffered for a great number of years from a suffered for a great number of years from a load leg; in which there were several deeplify seared and old us unds, defying the skill of some af the most eminent of the means of description and the corner of Water & Eliza faculty, a variety of remedies were also need descreedfully; and it seemed to me that there was not any thing capable of midgating the agonies she endured. At miligating the agonies she endured. At length, she had recourse to your Omtment and pills, and af er using them for about five other means had failed to silled her the slightest relief. I have no objection to these facts being published, if you feel disposed to make them known.

Premain, Sir, your most obde Sevi-(Signed) EDWB TOMKINSON.

A BADBREAST CURED WHEN AT DEATH'S DOOR!!

Three Rivers, Canada West, dated July 9:h, 1854.

To Professor Holloway, Sir,-My wife suffered most severely after the birth of car last child with a had breast There were several holes in it, one as large se a hand; all the devices and strategerns ! tried would not heal them, but a sumed en espect more frightful than before, and hor-rible to behold. As a last resource I tried your cintment and pills, which she persevered with for seven weeks, at the expiration of thet time her breast was almost well; by continuing with your remedies for two more weeks, she was entirely cured, and we offer you por united thanks for the cure effect

1 am, Sir poor, truly, (Signed) HENRY MALDEN

AYER'S PILLS,

only prevairs, which might have been avoided by the incely and indicates need a good purpairs. This is alike true of Courts, Feverish symptoms, and Hibrors derangements. They all tond to become or produce the deep seated and formidable distempers which load the hearness all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. As extensive trial of its strides by Physicians, Professors, and Patients, has shown results surpassing anything inhistor to known of any medicine. Cures have been effected beyond belief, were they not substitutioned by persons of such exalted position and character as to fortid the suspicion of untruth. Among the criment gentlemen to whom we are Hooky to refer for these facts, are Prog. Valinking Morty, the distinguished Surgeon of New York Cur. PROF. VALENTINE MOTT, the distinguished Sur-geon of New York Cur.
DOCT. A. A. HAYTS. Practical Chemist of the Port of Boston, and Geologist for the State of Mas-

sichusetts.

IRA L. MOORE, M. D., an eminent Surgeon and Physician, of the City of Lawell, who has long used

Tha L. Moore, M. D., an eminent Surgeon and Flagidian, of the City of bowell, who has long used them in his extensive practice.

H. C. SOUTHWICK, Eag., once of the first merchants in New York City.

C. A. Davis, M. D., Sup't and Surgeon of the United States Mairine Hospitai, at Chelsea, Massa, Did spuse permit, we could give many hundred such names, from all parts where the Fills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects sipon trial.

These Fills, the result of long investigation and study, are othered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the draws themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Fills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obtained by any process. The reason is perfectly obtained by any process. The reason is perfectly obtained by the old mode of composition, every medicine is burdened with more or less of acromonious and inparious qualities; by this, each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial, and the Pills a sure, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a temody without knowing its composition. I have supplied the accurate Formula by which both my Pectural and Pills are made to the whole body of Pract

few would be taken if their composition was known'their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by attentific men to be a wonderful insidicate before its effects were known. Many emment Physicians have declared the same thing of my Fills, and even mpre confidently, and are willing to cortify that their anticipations were more than resulted by their effects upon trial.

They operate by their freets upon trial.

They are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely segetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.

THY EMINENT MEDICAL PRACTITIONER, HAS LEFT A VALUABLE LEGACY TO THE WOLLD IN HIS Great Preventalise of Consumption,

FAILING CURE FOR TULMONARY DISTANCES MEDICATED FUR CHEST

PROPERCE.

To all persons of all ages and conditions, as a certain and a sale shield against those fearful diseases, Consumption, Broachites As hma, Coughs, Colds, and other affictions of the Lungs, which arise from the exand the continual changes of our climate.

"The Protector" is simply a chemically prepared fur, lined with silk and padded, which, suspended from the neck, covers the chest, in so a greeable a manner, that, once worn, it becomes a necessity and a comfort.

" The Projector," although but recently ntroduced into Americ progress through the United States, the Canadas, South America, and the West Indies. It has for a long time been a staple article in England and on the Continent of Europe, while it has grown in many coun ries to the position of an agricle of dress.

To demonstrate these facts enquire of any Fag-lish resident in your vicinity of his knowledge of the heneficial effects of wearing the Protector, without recourse to doctoring of any, kind. The cost of wearing these articles is a more trible, and one will last some years. No one who values the health of hamself or his family will be without them. The Hospitals in this country are not alone recommending them, but rapidly introducing them. Harcourt, Bradley & Co. of London, and Man-chester. England, were origically entrusted with the manufacture of the Protectors, by the lument-ed Dr. Cooper, and continue to manufacture acd Dr. Cooper, and continue to manufacture ac-ording to his original instructions, and therefore ecommend these who would wear "The Proctors," to see to their being genuine.

REMEMBER THIS IS A STAPLE ARTICLE, and to Patent Medicine.
