General News.

—No lengthy advertisement is necessary to bolster up Dr. Sage's Catarrh Remedy.

London, Sept. 10.—Beach and Ross, oarsmen, have deposited £200 each for a race. Teemer has challenged Gaudaur to row a race on the championship course, for £200 a side.

Paris, Sept. 11.—A telegram from the bishop of Touquin says seven hundred Christians have been massacred and forty villages burned, in the province of Manhoe and 9,000 Christians are perishing of hunger.

Quebec, Sept. 11.—The Quebec official gazette issued to-day contains a proclamation dissolving the legislature and ordering a new election. Nominations take place on the 7th and polling on the 14th of October.

—The potato crop in Windsor town, the *Tribune* says, has been almost entirely destroyed by blight, and in many parts of the County there are indications of rot. Should the weather continue hot the crop generally must suffer.

Blueberries.—The Carleton *Sentinel* says 42,998 quarts of blueberries were exported to the United States from three stations on the N. B. Railway, between McAdam Junction and Welsford, during August.

From Capt. N. Card, Light Keeper, Isle a Haut.—I have used Seavey's East India Liniment, and have found it to be all that it is recommended, it is a sure cure for cramp in the stomach, Diarrhœa, Cholera, etc., I believe it is the very best liniment offered to the public. See advertisement.

—The Canadian Pacific telegraph system opened on Monday, with two wires for commercial messages from Montreal to Vancouver, and the same number for railway business. There will only be one repeater, and that an automatic one, in the circuit of 1,422 miles between Montreal and Winnipeg.

—If there is anything in this life that will give one a foretaste of hell, as some represent it, that thing is Neuralgia. It is the refinement of torture. But there is a simple and inexpensive remedy for it. *Johnson's Anodyne Liniment* snuffed up into the head will give instant relief.

—Professor Tink, well known in Halifax, Truro, Windsor, Amherst, and Moncton as a hotel beat and swindler of printing offices, has been in town for a day or two soliciting orders for combination advertising cards. A sharp eye should be kept on him.—*Truro Guardian.*

—Fevers attack those who are run down and have that tired feeling. Dr. Norton's Burdock Blood Purifier will cleanse the system and blood, destroy the seeds of disease, and save lots of valuable lives, by taking one bottle Fall and Spring. Now is the time to do it.

Fresh Arrival.—The barque Seaward, 667 tons, register, Capt. Copp, arrived in this port on Wednesday last. She is to take in a cargo of lumber hence to Rio, in Brazil, and will be loaded by our enterprising townsmen Messrs. Pickles and Mills, to whose energy we owe much of our shipping interest. We sincerely hope their shipment by the Seaward will prove of profit to them.—*Spectator.*

New Haven, Conn., Sept. 8.—The sea serpent was seen in the Connecticut river, opposite Cromwell, this morning. While Colonel Stocking and Mr. Silas Sage were crossing the river in a small boat they were struck by something and lifted nearly out of the water, throwing them off the seats, when they recovered they saw what they assert was a sea serpent nearly one hundred feet long with its head out of the water.

Bronchitis.—Dr. H. D. Ruggles, of Weymouth, writes: "In a case of obstinate Chronic Bronchitis, which had baffled the usual treatment in such cases, Eagar's Phospholine, acted like a charm, and I ascribe the recovery entirely to the use of it. I have also found it to be a valuable remedy in Consumption and other wasting diseases.

Paris, Sept. 8.—A man named Blanc was recently released from prison, where he had been confined for an attempt to murder his mistress. To-day Blanc forced his way to the woman's room and cut off her head, which he fastened with the long hair to one of the shutters on the front of the house to the horror of the passers-by. He then committed suicide with a revolver.

—Very bright with picture, and amusing with story, is the October number of Our Little Men and Women. There is the tale of an antelope some western children had for a playfellow; a charming chapter of "Me and My Dolls," by L. T. Meade, the English author; a true history-paper about Columbus; a little talk about silk-worms; and some funny poems, one of which we give.

Winnipeg, Sept. 12—A fatal accident occurred on the C.P.R. near Rat Portage by which fireman Phillips and engineer Hofferman, both formerly of Truro lost their lives. The night train ran into a mass of rock which had been washed onto the track by heavy rains. The train was derailed and the fatalities occurred. Hofferman was one of the oldest engineers on the C. P. R., and was much respected.

Marriages on Board Ships.—An order is issued which states that in future no marriages solemnized on board of Her Majesty's ships will be legal unless the ceremony be performed by ministers in holy orders of the Church of England, Ireland, or Scotland, or by a priest of the Roman Catholic Church. No captain, officer or any other unqualified person is to be permitted to perform a marriage ceremony on board Her Majesty's ships.—*London Shipping Gazette.*

Sofia, Sept. 8.—Prince Alexander has signed the deed of abdication and has departed from Sofia. A compact mass of people witnessed Alexander's departure from the palace and thousands lined the route taken by him through the town. The Prince stood up in his carriage, bowing to the people and saying, "Good bye, my brethren." The populace were much affected. Tears sprang to many eyes and hearty wishes were expressed for the Prince's speedy return. Prince Alexander will go first to Lom Palanka.

Dublin, Sept. 9.—The troops engaged in the Woodford evictions, on their return to the barracks at Birr, protested against the work of forcibly putting helpless, infirm and starving people out of shelter into the roadway, and declared they would in future refuse to perform such obnoxious duty. No effort on the part of their superior officers could quiet the determined indignation of the soldiers, twenty of whom were placed under arrest on a charge of mutiny.

—A Ottawa despatch says: "A table issued by the department of Agriculture shows that in Manitoba over 54 per cent. of the land is yet unoccupied. There is also opportunity to purchase improved farms at reasonable rates. Statistics based upon actual transactions show that in the eastern group of counties the average cash price of improved lands is $9.18 per acre, in the central $8.74 and in the western $7.90. The average cash price of unimproved lands in the eastern section is $4.50 in the central $4.77, and in the western $4 41."

Sugar Refinery Meeting.—The annual meeting of the stockholders of the Moncton Sugar Refining Company took place recently. The reports of the Directors showed that they had been able to hold their own during the past year and though they had no earnings to report the prospects for the future are more hopeful. The results, taking into consideration the condition of the sugar trade, where considered satisfactory, and the meeting was harmonious. The Directors recommended the sale of a portion of the $100,000 of authorized preferential stock to provide a larger working capital, which was approved of.

Imitation

Is sometimes called the sincere form of flattery. This may account for the number of imitations of the original and only positive corn cure—Putnam's Painless Corn Extractor. All such fail to possess equal merit, so when purchasing get the genuine "Putnam's." Safe, sure and painless. Sold by all druggists.

—"He who is false to present duty," says Henry Ward Beecher, "breaks a thread in the loom, and will find the flaw when he may have forgotten its cause." A case in point occurs to us. Mr. Wm. Ryder, of 87 Jefferson street, Buffalo, N. Y., recently told a reporter that, "I had a large abscess on each leg, that kept continually discharging for twenty years. Nothing did me any good except Dr. Pierce's 'Golden Medical Discovery.' It cured me." Here is a volume expressed in a few words. Mr. Ryder's experience is entitled to our reader's careful consideration.—*The Sun.*

Ruined Charleston.—*New York, Sept* 9.—Mayor Courtenay, of Charleston, telegraphs that in order to shelter the homeless people before the cold weather sets in, from $500,000 to $700,000 is immediately required. The mayor estimates the total damage to property by earthquakes at from $5,000,000 to $6,000,000. The city appraiser estimates that there are about 7,000 dwellings and 1,500 business houses in the city, and after visiting about three-fourths of the city in the past three days, his conclusion is, that nearly every building is more or less damaged. The brick buildings suffered most, and many of them will have to be pulled down.

Infanticide as a Business.—*Milwaukee,* Sept. 6.—The finding of a dead infant with a darning needle thrust through its heart has lead to the disclosure that a regular business of putting babes to death at so much per head has been carried on in this city. Mrs. Paulin Nuttlestandt, proprietress of a private lying-in hospital, fled a few weeks ago upon ascertaining that the authorities had accumulated evidence criminating her. She travelled under an assumed name in Michigan, but was overhauled at Reid City, and brought back last night. The police say she has confessed the murder of the child, and claims to have been promised $300 by its mother for putting it out of the way. The authorities are investigating the deaths of numerous other infants born out of wedlock, and supposed to have been put to death by her.

—The flour milling industry is reaching heavy figures already in our Northwest, there being one hundred and thirty mills, a goodly number of them of the roller process. The whole tendency of the day is forward, and people will not now eat the quality of flour their forefathers carried from the ancient grist mill door. The most approved machinery and scientific research are brought to work upon the wheat berry, and the saving in manufacture and improvement in product would have been thought impossible a generation ago. That there is a vast field for the rolls here is evident when one thinks that for twelve hundred miles northwest of Winnipeg hard wheat can be grown to perfection, and that the mills must come to the wheat, and not the reverse.—*Qu' Appelle Progress.*

—Last week an associated press despatch reported that Mr. Archie Campbell, son of Sir Alexander Campbell, Post Master General now living at Ottawa, committed suicide. A despatch, later however, says:—

From all the circumstances surrounding the death of Archie Cambell, son of Sir Alexander Campbell, at his own hands, it would now appear that it was the result of accident. He was a most retiring and exemplary young man, and nothing that might have been weighing on his mind could have led him to take his own life. Sir Alexander, who himself is not in good health, has the heartfelt sympathy of the whole community. No inquest will be held.

Exportation of Canadian Cattle.—*Ottawa,* Sept. 8.—The department of Agriculture to-day received a cablegram stating that in answer to a question by Mr. Anderson in the House of Commons, Lord. John Manners said that the Government did not contemplate any prohibition of the landing of cattle from Canada. The question would appear to have been caused by the reports of the slaughtering in the Levis quarantine station of cattle imported from Scotland infected with pleuro-pneumonia, and the reply may be taken to indicate that the Imperial Government is so well satisfied with the precautionary measures taken by the Dominion Government that it does not consider there is any danger of the disease spreading.

Wiggins' Prediction.—*Ottawa, Sept.* 8.—Prof. E. Stone Wiggins, the weather prophet, has communicated with the Marine Department concerning his prediction of the recent earthquakes and of severe cyclonic storms for the autumn of 1886. He has enclosed proofs of his prediction. In conclusion he says:—"When the planetary forces are acting upon our planet and her atmosphere, barometer and thermometer are helpless. After my system shall have been made public, it will be as common for seamen to calculate storms from the nautical almanac as it is now to reckon their latitude and longitude." The documents attached to the letter are considered of such importance that the Department have ordered their transmission to the director of the Government meteorological Bureau at Toronto.

Spring Hill Excited.—*Spring Hill Mines,* Sept. 7.—It has been known for some time that houses of ill fame had been established in connection with two bars here and much indignation resulted, but the culminating point was reached the other day when a blasphemous bar-tender's prayer was printed and circulated on the back of Archie Madden's, the leading liquor dealer's, card. It is couched in the most obscene language and is a direct insult to every women of the town. On Sunday evening Rev. A. W. Nicholson made it the subject of a sharp and powerful criticism. The Cumberland Railway and Coal Co., have placed funds at the disposal of the prosecution and a vigorous warfare will be waged against the liquor sellers. Already five cases have been summoned for trial on the 9th inst.

Whycocomagh via Port Hastings.—*September* 10.—On Wednesday night a shocking tragedy was enacted at South Whycocomagh. John McLellan, of Gillis Cove, met an old enemy named McDonald, son of Duncan McDonald, the well known trader of Bras d'Or at the house of John McLeod. A hand to hand encounter ensued, in which McDonald was being worsted, when a friend interfered and quieted McLellan. McDonald then went into the house near by. When McLellan came in he was again attacked and stabbed while sculling in the hall. A wound four inches long in the thigh severed the femoral artery and the unfortunate McLellan bled to death. On Thursday Mr. McIntosh held an inquest and a verdict was rendered in accordance with the facts The neighbors began searching for McDonald, intending to lynch him. Hearing this the murderer on Friday surrendered himself to John MacKehen, J. P., and had been jailed. The McLeods are to be prosecuted as accessories.

A Rare Old Negro.—About five weeks ago a negro man died in the Providence neighbourhood who has a record that is hardly ever equalled and never excelled. He was 73 years of age at the time of his death, left an aged wife, who died a few days ago, and who is said to have been 70 years old. This old man was a former slave of J. A. B. Ward, and his father and he and his wife lived with the Ward family nearly fifty years. He was never heard to swear an oath, never accused of lying or theft, never had a dispute or quarrel with his wife, never had a whipping during slavery, nor was he ever known to take a drink of whisky. Was always faithful and obedient, peaceable and reliable. He and his wife had sixteen children, and they lived to see 120 descendants, who are now living. Occasionally heroes are found in the humbler walks of life, and but few can point to a brighter and clearer record than this unpretentious old negro who now fills an unmarked grave among the old red hills of Steward county.—*Lumpkin (Ga.) Independent.*

A Word of Explanation.

The liver secretes bile to move the bowels; the kidneys secrete urine to carry off uric acid which would poison the blood; the stomach secretes gastric juice to digest or dissolve the food, etc. Burdock Blood Bitters acts upon these organs and purifies the blood by cleansing all the secretions of the system.

—The Toronto *Mail* says that in future every cent received in fines for infractions of the Scott act is to be passed over to the provincial governments.

Correspondence.

We do not hold ourselves responsible for the opinions of our correspondents.

How Shall We Vote?

Believing that a large majority of your readers are in sympathy with the effort to stamp out the liquor trade, we ask them calmly and deliberately to consider this question, "How shall we vote?" You can talk and you can pray these are agencies not to be disputed, but "how will you vote?" Do not forget your temperance principles on election day as in times past. This prohibition question has become one of the burning questions of the day especially in Dominion politics. It is high time that temperance people woke up to a sense of their duties and responsibilities. If we wish our influence to be felt we must *organize* and *agitate! agitate!!* The Counter Alliance should take the lead in this matter, but is doing nothing. They should not rest on their past record, be it ever so good, but go forward until victory is assured. If we wish the Scott Act enforced, we must show our influence at the coming municipal elections, and if we wish the Scott Act and prohibitory legislation to continue and progress we must make a decided stand at the next Dominion elections. Remember that while men slept the enemy sowed tares. The attitude and record of the political parties and parliament at Ottawa will furnish material for another communication.

Prohibition Man.

Mr. Editor and the Rate Payers of Annapolis County.

In a few weeks we will be called upon again to choose men to fill the Municipal Council and to do the public business of the County for the next two years. There are many of the present councillors that have filled this position ever since we became a Municipality. I ask why is it they have represented us so long? Is it because they have done our business so well and satisfactorily? Is it because they have used our money so wisely and economically? I answer no! and I will just take one instance to show that they have used our money unwisely, and worse, in this instance, than thrown it away; the subject is the back road in No. 4 and 5 Wards, and leading west from the Chute Mountain road along under the North Mountain to the Phinney Mountain road, the distance about two and a half miles. That road was laid out about 25 years ago; it was given to the public by the owners of the land through which the road went; fenced and made a passable road for teams and waggons by the County money. This same road has been kept open and passable up to the present time by the people living over the mountain. Eight or nine years ago, Mr. T. W. Chesley and three or four others, privately interested, got up a petition praying that a change might be made in this road. The wished-for change by them was this: that the west end of this road might come about one-half mile further south along the Phinney Mountain road, thence east about one mile, thence north to the old road. The parties wishing this change live between the two roads, all but Mr Chesley and about one mile from the Granville post road they each have a right of way to the post road; they have the privilege of doing their statute labor on their own road. This petition got up by them for the change was passed through the old sessions by misrepresentations, and I believe the change was granted and the damages appraised, which were about seven hundred dollars. I know that time David Phinney and three or four others got up a petition that there be no change in the old road. Those petitions tied both roads, and our councillor, Mr. Young, knew neither road "sawdust" swindlers could have been struck had detectives been properly supported by the authorities; and this is probably true. It is to be hoped that all concerned in bringing criminals to punishment will continue to stamp out those in Canada who are engaged in making and circulating bogus notes and coins. There cannot be a doubt of the fact that some of the most skillful counterfeiters of America are at work in Canada, and there are believed to be Canadians, too. The author of the Bank of Commerce ten dollar counterfeit, is probably the most skilful of his kind.

No Bride and No Wedding.

A Wedding that St. Luke's did not witness because the lady fled.

From St. Luke's cathedral on Thursday morning there departed a disappointed and disgusted bridal party—or at least that portion of it that was there to depart. One very essential section of the group was absent—the bride that was to be failed to appear. The groom and his best man were on the scene, a few friends were in waiting to witness the quiet ceremony, and Rev. Mr. King was present prepared to tie the knot. The hour appointed for the ceremony, 7.30 o'clock, came and went without the bride's appearance, a half hour more passed away, and then the impatient groom started in search of the recreant lady. Soon afterwards he returned with the news that his intended mother-in-law had unexpectedly died at her home in an adjoining county and that his love had hastened to the scene of death by the steamer City of St. John. Two hours afterwards the disappointed man took a train and started for his residence on the western shore.

Subsequent developements show that the explanation given of the bride's sudden departure was not in accordance with the facts. It seems that the young lady, a belle from a western town and only about twenty years of age, was sent to England by her friends several months ago, it is said to get her out of the way of her lover who is a doctor enjoying a good practice in the same neighborhood, but considerably addicted to liquor. Separation, however, did not alter their feelings or intentions, and the lady, disbelieving the stories of the doctor's habits and determined to marry him, left London for Halifax three weeks ago, arriving here on Wednesday by the steamer Milanese. But her reception was of a character not calculated to enrapture an affectionate *fiance.* Her admirer had arrived in the city several days before, succeeded in getting started on a "time," and when the steamer reached her wharf a drunken man was there to greet the lady. Her disgust and abhorrence were undisguised and she resolved to change her plans, but to deceive the doctor until she could proceed homeward. Her scheme succeeded so admirably that a clergyman is minus a handsome fee, a lover's hopes were crushed and a sumptuous wedding breakfast was spoiled. The young lady concerned is connected with a family of the highest social standing in the province. *Hx. Chronicle.*

Fishing Schr. Hattie M. Astray.—While the captain and crew of the schr. Hattie M., of Moose River, were running their trawls in the Bay of Fundy (with two dories) on Tuesday last, they left one man, named George Morgan of Bear River on board to keep ship. The wind was blowing fresh from the southeast at the time, thick fog, and after getting their trawls they were unable to find the schooner. They arrived safely at Mispec, N. B., in a fatigued condition, after being in their dories fourteen hours without food. Capt. Swigger and crew arrived here from St. John by packet schr. May Rose yesterday, and report that they have not heard any tidings of the H. M.; up to this (Friday) morning.—*Digby Courier.*

London, Sept. 9.—The *Standard* urges England not to oppose who ever may be elected to succeed Prince Alexander. It continues: "If Alexander's successor be pro-Russian, he will more quickly bring Austria to the full consciousness of what concerns her in Bulgaria, and force Germany to decide whether to sacrifice Austria to Russia, or *vice versa.* Russia is the old man of the sea for Austria and Germany, by their recent subservance have got him tighter around their necks than ever."

—Pure rich blood gives us health, long life and a "green old age," but how few pay any attention to the state of the blood? *Parson's Purgative Pills* make new rich blood, and taken one a night for three months will change the blood in the entire system.

Counterfeit Notes and Silver.

The most dangerous counterfeit in America.

From an interview with Mr. Plotts, travelling agent for *Dyer's Government Counterfeit Detector,* it is learned that he has large quantities of the counterfeit Dominion $2 notes which are still in circulation. He found some of them in the Maritime Provinces and a great number in the Eastern Township of Quebec. The following is a description of the counterfeit from *Dyer's Detector:*

2 DOMINION OF CANADA. New Government Issue, Letter C. Dated June 1st, 1878, which has been charged "Payable at Toronto" on the back, with red figures on the face. A dangerous counterfeit, excepting the poor center vignette of Lord Dufferin, and the imitation lathe work in the large green T's. Most all the other work on the bill is about as good as some genuine. Vignette portrait coarse, expression of the face unlike the genuine, eyes and nose poor, and lower lobe of the ear, in width up and down, is far narrow. Lathe work in the green 2's especially different in lower center of these 2's, as in counterfeits the two very distinct and upright zig zag lines do not touch one another. Paper fairly good. In the imprint, "British American Bank Note Co., Montreal," the dots over the "i's" are omitted, and the letters different and are unequally spaced. The e and r in "America" are widely separated. When the vignette of Lord Dufferin is worn this note is very dangerous.

Several of the subscribers of this Detector have sent in counterfeit tens of the Bank of Commerce. A number of them have been passed on bank tellers in cities, which is not surprising, as the counterfeit is one of the most solid and dangerous ever put in circulation. The *Detector* gives the following description:—

10. CANADIAN BANK OF COMMERCE, Toronto, Ont., Dated May 1st, 1871. Letter D. These very dangerous counterfeits have "capital $6,000," and are signed W. Cook, cashier. Under all the letters of the words TEN DOLLARS are five parallel lines of shading; on the genuine notes there are only four such lines. The lion's face has also on the counterfeit more of a scared or startled expression, and his right ear is not so prominent and pointed. Lathe-work but little defective; in both counters 10, especially when viewed with a glass, parts of it lacked the unbroken and continuous lines of the genuine. The green color on the back of this issue of notes is too high and the blue numbers on the faces of notes are also a little light in color. Notes well printed on good paper and are very dangerous.

Nothing has been heard lately of the Montreal party who was connected with the counterfeiting gang that have been operating in and around the city, and whom the police had in custody but allowed to escape. Late developements show that men of this stamp are not idle in Canada. An Ottawa telegram in the *Witness* last night says:—

"The country is being flooded with counterfeit fifty and twenty-cent pieces. At the races of the Ottawa Driving Park yesterday over one hundred dollars of bogus coin was put in circulation. Most of it is now in the hands of Government detectives. The counterfeits were being shoved by several notorious gamblers who got word the detectives were on their track and skipped."

Our Canadian detectives have done some good work in this line from time to time, and in Ontario especially important arrests have been made, but there is not much doubt that, through bungling on the part of the police and some of the Montreal detectives, some parties have escaped who should now be in the penitentiary. It is complained that there have been times when effective blows at counterfeiters and

Marriages.

Graves—Winchester.—At the residence of Mr. Wm. Winchester, father of the bride, Stony Beach, on the 8th inst., by Rev. Wm. H. Warren, Mr. Minard W. Graves, of Granville, to Miss Florence N. Winchester.

Gibson—Bridges.—At the residence of the bride, Sept., 9th by the Rev. S. B. Kempton, George H. Gibson, son of George Gibson, Esq., of Margaretville, Annapolis Co., to Bessie J., youngest daughter of John Bridges, Esq. of Kingsport, Cornwallis.

Harrington—Lovett.—At Kentville, on the 9th inst., by Rev. S. McC. Black, Rev. Charles K. Harrington, of Cape Breton, to Miss Jennie Lovett, third daughter of Henry Lovett, of Kentville.

Deaths.

Young.—At Fairfield, near Bridgetown, on the 8th inst., after a short illness, Edward T. Young, an old and respected citizen of this place, in the 91st year of his age.

Nichols.—At Liverpool, on the 3rd Sept., Caroline S., beloved wife of the Rev. E. E. B. Nichols, D. D., rector of Liverpool, aged 34 years. Her remains were brought to Digby, and interred in the Episcopal cemetry.

Balcom.—At Lawrencetown, Sept. 8th 1886, of consumption, after a lingering illness, William Wallace Balcom, aged 54 years.

Fash.—At Lawrencetown, Sept. 9th, William H. Fairn, aged 38 years.

Steadman.—At Bridgetown, Sept. 11th, Margery Rose, beloved wife of Walter Steadman, and daughter of the late Capt. John Fraser, of Liverpool, Nova Scotia aged 65 years. Deceased was a consistent and faithful member of the Baptist church, and was respected and esteemed by all. Her end was peace.

Bishop.—At Round Hill, on the 12th inst., Mr. Earnest Bishop, son of the late Mr. Lovitt Bishop, in the 21st year of his age.

The American Tailor,

W. D. SHEEHAN,

HAS opened an establishment next door to the Monitor Office, and is prepared to fill all orders for custom work in the Tailoring line in the very latest styles and at LOWEST PRICES.

PRICE LIST.

$6 50 for making Full Suits
$7 00 for making Overcoats

Williamston, August 24th, 1886. 1y 15

SEASON OF 1886.
TO SHIPPERS
—OF—
APPLES.

As the season for the marketing of APPLES is now at hand, I beg to call the attention of my many consignors and shippers in general that I have leased the premises

CORNER OF BUCKINGHAM AND BARRINGTON STREETS, FARMERS MARKET BUILDING, where I shall have my AUCTION SALES.

I intend to offer every consignment first at private sale (unless otherwise ordered by the owner), then by having auctions regularly, will give every advantage for the quickest and most profitable sale.

Having been engaged for the past fifteen years in the marketing of Apples and other Country Produce, I have made large connections in the business, and feel confident that I am now better prepared than ever to give satisfaction. Any one who has farm produce to sell, ship to me, and it will receive my very careful attention.

Thanking my many consignors for their very liberal patronage in the past, and asking for a continuance of their business this season,

I remain,
Your obedient servant,
H. H. BANKS,
COLONIAL MARKET - HALIF AX. N

SOLUBLE Pacific GUANO!

NOW is the TIME TO BUY!

A LARGE quantity of Soluble Pacific Guano, is used every fall for seeding down grass lands. The most satisfactory results have been everywhere obtained by those who have tried it for this purpose, during the past ten years. The summer and autumn dew and is yearly increasing. Apart from the good catch and luxuriant growth attending the use of this guano on grass, the disue of stable manure, is followed by a great decrease in the growth of weeds. Soluble Pacific Guano possesses all the fertilizing power of manure with NO weed seeds. A large second crop of grass can be got by top dressing grass land with 200 lbs. of Soluble Pacific Guano per acre, after the first mowing and just before a rain. Use your manure on field crops, where the weeds can be kept down, and use Soluble Pacific Guano where it is not possible to kill the weeds without great labor.

Give this valuable fertilizer a trial and be convinced. This is the 22nd year of its sale, increasing from 800 tons to 50,000 tons a year in that time.
