

FOUST'S PATENT HAY LOADER.

The Foust, from its good working qualities, is pronounced by competent judges to be one of the greatest labor-saving machines of the day, and its superiority is proved by the fact that ten times more Fousts are annually sold than all other makes combined.

Received the HIGHEST and ONLY AWARD at the Centennial Exhibition.

Received the HIGHEST and ONLY AWARD at the Centennial Exhibition.

Manufactured by **MATHEW WILSON & CO., Hamilton,** manufacturers of HAY LOADERS and HAY TEDDERS.

This machine has been in successful use in the East for several years, and has lately been introduced with great success in Ontario. Each succeeding year has added new evidence of the practicability of the Loader, and shows conclusively the necessity for pitching hay on the wagon in the field by machinery.

All other work in hay-making has been done by machinery for a long time, leaving the pitching on the wagon the only part accomplished in the same manner and with no greater speed than during the earlier period of hay-making. With the use of the Loader as much time is saved in pitching as is saved by the Mower, Horse Rake, Horse Fork, or Hay-carrier, thereby making it safe for the farmer to cut at least double the amount of grass daily, knowing that he has the facilities for securing it.

The Bain Wagon

—IS THE—

Farmers' Favorite

BECAUSE IT IS

THE LIGHTEST RUNNING WAGON MADE.

No inferior iron is used, and special attention is paid in ironing it off. The wheels before the tire is put on are thoroughly saturated in boiling linseed oil, which is a

SURE PREVENTIVE OF LOOSE TIRES.

The patent arms made from our own patterns are superior to those made by other makers. All material used in painting it is of the finest quality, which gives it a superior finish. Every wagon is inspected in all its parts by one of the members of the company before being sent out. It is just as represented every time.

Agents Wanted for Every County.
