THE CHURCH AND THE ORDER.

The Northampton *Nonconformist*, in an article on the visit of the Grand Lodge of England to Northampton, said:

"No adult Temperance organization better keeps up the interest of the members than the I.O.G.T. The time has surely come for a more hearty recognition of this fact by our churches, and, therefore, a warmer welcome in our premises of I.O.G.T. lodges, and no rent beyond strict out-of-pocket-expenses."

This is just as it should be. Every place of worship should willingly and heartily lend a room for mere out-of-pocket-expenses for a lodge. It is either half-heartedness in the cause, or else a miserable jealousy of other than purely sectarian organizations that prevents this. — *International Good Templar*

Good Templary is the only society that is to be found in almost every settlement of the Province, most of the other societies being found only in the cities and in the large agricultural centres. Good Templary stands today in this Province as pre-eminently

the missionary temperance society of British Columbia. It has done more work with less noise than any other temperance agency in this country, and is now the social centre of the majority of our settlements where once the whisky jug and keg of beer

formed the social life. Good Templary is reaching a class of our people with a helping hand that can be felt, but which some others are only helping in theory. In other words, Good Templary is a practical force, having got beyond the theoretical.
