## The New Imperial Penny Postage Stamp.

We take pleasure in presenting to our readers the likeness of the new stamp issued to commemorate the inauguration of Penny Postage for British colonies. It is

a beautiful stamp, superior "(Canadians think)" to any stamp beretofore issued. The British possessions are printed in red as designated by the black in the illustra. tion above. The map stands out in lold reliff against a background of a delicate light blue. Surmounting this is a wreath of maple and oak leaves in which is a crown thus symbolizing the unity of England and Canada. At the apper edge are the words, "Canada Postage" and underneath the map "Xmas 1898" so that the date of the inauguration of Imperial Penny Postage will be made a matter of record. In each of the lower corners appear the figure 2 and at the lower edge connecting these in this sugrestive pansage taken from a peem by a Canadian poet. "We hold a vaster empire than has heen." As
someone remarked on seeing the stamp for first time, "It is the prettiest and cheapest map of the world ever published..

The stamp is already in circulation and will be available for local postage only, until Xmas day when the two cent rate to Great Britain takes effect. It is the purpose of Mr. Mulock to have prepared, a card bearing the impress of the new penny postage stamp together with a table of figures indicating the important elements in Canada's claim to greatness, the volume of her trade, etc., etc. These cards will be placed in envelopes and distributed amongst teachers and others in Canada and Great Britain in the hope that they assist in the formation of a true idea of Canada's present and prospective position.

A small number of these stamps have been issued and when this scpply is exhausted the issue will becume obsolete, and a new 2 cent stamp issued for Imperial Penny Postage purposes.

The stamps were first placed on sale in Toronto on Wednesday, 7th inst. Mr. Jno. H. Lowe secured the first sheet. As no one knew of their early appearance the demand was not great. It is expected that the stamps will be comparatively scarce.

An error has been noticed already or rather a misprint. We have a copy where the red is priuted altogether out of place. Careful search among several thousand other copies does not reveal another similar copy.

But the Canadian farmer who wants to communicate with his son near hy, or to write to the nearest town, must pay three cents.

What spnse is there in snch discrimination against Canadians :

Why shonld we pay two cents for a long distancer and three ceints for a sbort ole:
