

## CLASSIFIED INDEX.

## Abrasives

Chas. A. R. Machinery Co., Toronto

## Acids

Chas. Chemical Co., London, Ont.  
Chas. Chemical Co. of Canada, Montreal.

## Air Compressors

Chalmers-Bullock, Limited, Montreal.  
Crescent Steam Pump Co., Battle Creek, Mich.  
Crescent Foundry Co., Toronto.  
Crescent Rand Drill Co., Sherbrooke, Que.  
Crescent R. B., Brooklyn, N.Y.  
Crescent Bros., Montreal.  
Crescent & Koerting Co., Philadelphia, Pa.

## Alum

Chas. Chemical Co. of Canada, Montreal.

## Aluminum

Chas. Aluminum Co., Pittsburgh, Pa.  
Chas. Smelting Works, Montreal.

## Angles, Beams and Girders

Chas. Fuller Co., Cleveland, Ohio.  
Chas. Foundry Co., Toronto.  
Chas. F. H. & Co., Montreal.  
Chas. Scotia Steel & Coal Co., New Glasgow, N.S.

## Aniline Colors and Dyewood Extracts

Chas. W. T. & Co., Montreal.  
Chas. Mond & Co., Norwich, England.  
Chas. Chemical Mfg. Co., London, Ont.  
Chas. Color Co., New York City.  
Chas. Aniline & Extract Co., New York City.  
Chas. Cornwell & Co., Montreal.  
Chas. Chemical Co. of Canada, Montreal.  
Chas. & Holland, Montreal.

## Annealing Muffles and Furnaces (Wire)

Chas. A. C. & Co., Montreal.  
Chas. Vaughn & Taylor Co., Cuyahoga Falls, Ohio.

## Antimony

Chas. Smelting Works, Montreal.

## Anvils and Vises

Chas. F. H. & Co., Montreal.  
Chas. A. C. & Co., Montreal.

## Architects

Chas. R. J., Toronto.  
Chas. R. J., Toronto.  
Chas. C. H., Ottawa.

## Automatic Gear Cutting Machines

Chas. Brainard Milling Machine Co., Hyde Park, Mass.

## Axles

Chas. F. H. & Co., Montreal.  
Chas. Scotia Steel & Coal Co., New Glasgow, N.S.

## Babbitt Metal

Chas. H. W., Toronto.  
Chas. Smelting Works, Montreal.

## Banks

Chas. of Hamilton, Hamilton, Ont.

## Bar Iron and Steel

Chas. Fuller Co., Cleveland, Ohio.  
Chas. F. H. & Co., Montreal.  
Chas. A. C. & Co., Montreal.  
Chas. Rolling Mills, London, Ont.  
Chas. Drawn Steel Co., Hamilton, Ont.

## Belt Dressing

Chas. J. C. Belting Co., Montreal and Toronto.  
Chas. H. W., Toronto.  
Chas. & Haworth, Montreal and Toronto.  
Chas. A. R. Machinery Co., Toronto.

## Belt Fasteners

Chas. Co., Waterbury, Conn.  
Chas. D. K., Montreal and Toronto.  
Chas. J. C. Belting Co., Montreal and Toronto.  
Chas. H. W., Toronto.  
Chas. & Haworth, Montreal and Toronto.  
Chas. A. R. Machinery Co., Toronto.

## Belting (Cotton)

Chas. Belting Co., Hamilton, Ont.  
Chas. D. K., Montreal and Toronto.  
Chas. J. C. Belting Co., Montreal and Toronto.  
Chas. H. W., Toronto.  
Chas. & Haworth, Montreal and Toronto.  
Chas. F. & Co., Manchester, England.  
Chas. & Haworth, Montreal and Toronto.

## Belting (Leather)

Chas. Belting Co., Montreal.  
Chas. D. K., Montreal and Toronto.  
Chas. J. C. Belting Co., Montreal and Toronto.  
Chas. H. W., Toronto.  
Chas. & Haworth, Montreal and Toronto.  
Chas. F. & Co., Manchester, England.  
Chas. & Haworth, Montreal and Toronto.  
Chas. A. R. Machinery Co., Toronto.

## SCHUTTE &amp; KOERTING CO.

12th and Thompson Sts., PHILADELPHIA, U.S.A.

CABLE ADDRESS: SCHUTTE, PHILADELPHIA.

CODES USED { A. B. C. CODE.  
WESTERN UNION TEL. CODE.

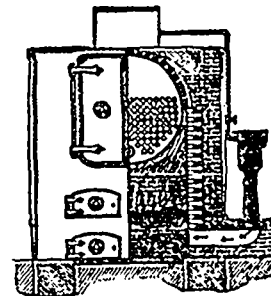

The Schutte & Koerting blowers offer a means of burning low priced fuel, such as screenings, gas works breezes and other refuse with perfect combustion, thereby making a direct reduction in cost of steam. They are used to great advantage on:

Can be actuated by steam or water jets.

1. Heating or Forging Furnaces.
2. Heating and Gas Producing Furnaces in chemical and glass works.
3. Steam Boiler Furnaces.

Ask for catalogues: Injectors, Blast Nozzles, High Grade Valves, Water Jet Condensers, Air Compressors, Exhausters, etc.

THE FURNACE BLOWER  
Attached to a Tubular Boiler.

## MANIPULATION

Regulate blast with side handle.

Start and stop by opening and closing a valve in steam pipe—full.

ASH PIT.

## A FINE STEAM PLANT.

"I will say without qualification that it is as fine a boiler and engine plant as I have ever had the pleasure of seeing for its size. The engine was working without heating and absolutely without any noise. I wish to congratulate you on your success in building this class of engine and hope that we may have pleasure in dealing with you again."

The above refers to a 350-horse power Robb-Armstrong Corliss Engine and two 175-horse power Robb-Mumford Boilers installed by us.

Robb Engineering Co., Limited  
AMHERST, N.S.
