

African department diamond winning is demonstrated by apparatus washing diamond-carrying earth, and the diamonds as they are recovered are cut and polished before your eyes by skilled workmen. Much space is occupied by the British and Canadian departments which adjoin. The most noticeable exhibit in the former department is a handsome woman's statue, cut or pressed from salt, and forcibly reminding one of Lot's wife. The Canadian exhibit is most creditable, the large mineral collection of the Dominion Geological Survey being there in its entirety. The mineral wealth of Ontario is well demonstrated by huge blocks of nickel ore, weighing several tons each, and large exhibits of phosphate rock, silver and iron ores. British Columbia and Quebec are also fairly well exhibited, but the exhibit from New Brunswick and Nova Scotia is, to say the truth, disappointing. The Nova Scotia exhibit is carefully selected and beautifully arranged, but it gives no adequate idea of the extent of our mineral resources. A gilt pyramid represents the amount of gold so far mined here. In a small glass case are several thousand dollars worth of gold specimens from the Touquoy and Truro mines, but there is nothing to demonstrate the size of our gold-bearing leads. Exhibits of coal are ranged in cases, but the parties in charge of the exhibit followed instructions too literally, and there are no large blocks of coal to prove the great size of our coal beds. The great drawback to both the Canadian and Nova Scotia exhibits was the absence of anyone to explain what was to be seen or to give information in regard to the mineral wealth of the country. The exhibit was allowed to run itself, and this is a grave oversight which the Government should at once remedy. So much has been written already in regard to the mineral exhibit and the mining building, that we will spare our readers further details, but we advise them, one and all, to go and see for themselves. It will prove time and money well spent.

YARMOUTH COUNTY.—The Yarmouth Telegram says:—"Some prominent capitalists of New York arrived here this week and are inspecting the gold mines at Kempt. There is quite a boom in gold properties in Nova Scotia, and American capitalists are examining them."

LAKE CATCHA.—We clip the following from the *Atlantic Weekly*.—"The Manager of the Oxford Mines returned last Tuesday from the World's Fair. Quite a nice surprise was awaiting him in the form of a strawberry festival, under the auspices of the Misses Marshall and Smith, assisted by the managers of the Cambridge Mine. It was held in the new Mine Hall, and all present enjoyed a very pleasant evening."

HOW TO GET A 'SUNLIGHT' PICTURE.

Send 25 "Sunlight" Soap wrappers (wrapper bearing the words "Why Does a Woman Look Old Sooner Than a Man") to Lever Bros., Ltd., 43 Scott St., Toronto, and you will receive by post a pretty picture, free from advertising, and well worth framing. This is an easy way to decorate your home. The soap is the best in the market and it will only cost 1c postage to send in the wrappers, if you leave the ends open. Write your address carefully.

MONTAGU.—The Salisbury Mining Company, now managed by Mr. Price, have been mining some very rich ore from the shaft back of their mine and close to the property of the "Nova Scotia Gold Mines, Ltd." The shaft was first sunk by Messrs. Lawlor and Leadley of Dartmouth, and gives every promise of having cut a nugget pay streak, as five tons of the ore lately mined yielded over 62 ounces of gold, or 12 ounces per ton.

Capt. Thomas must be nearly ready to attack the nugget streak on the N. S. Gold Mines property which yielded such large returns formerly. The Captain took charge of the mine just as the available ore supplies had been exhausted, but has opened up new ore reserves on proper mining principles, and we trust that the energy and economy with which he has conducted the work will soon be rewarded by large gold returns.

Sinking is being done by contract on the Symon-Kaye property, and a number of areas have been reported as let on tribute. Manager Boyd has resigned and gone west, and Mr. Alfred Woodhouse, the managing director is in charge of operations. Much depends on the success of these mines as far as interesting London capitalists in our gold mines is concerned, and we are selfish in the hope that both companies are going to prove successful.

WAVERLEY.—The West Waverley Company have increased their crushing capacity by the addition of more stamps, a most encouraging sign.

Parties from New York have been inspecting the tunnel property with the idea of purchasing, and timber has been hauled for a stamp mill.

WALTON, HANTS Co., N. S., JULY 25th, 1893.

EDITOR CRITIC, HALIFAX.—Dear Sir,—The notice in last issue of CRITIC under head of Mining, thus: "A New Mining Co.—The Tenny Capo mangan so property, near Walton, etc., etc." This item has no foundation in fact, as the property has not changed ownership since our company purchased it over a year ago, and we are still "doing" business at the old stand under the efficient management of Mr. D. W. McVicar, one of the owners, and an enthusiastic miner. The product of the mine is highly satisfactory, both as to quantity and quality. We are just now forwarding a 20 ton shipment of very fine No. 1 ore to New York, and have just completed a telephone line connecting our Walton office with the mines.

Yours very truly,

SHAW & CHURCHILL.

WHAT! LIMPING YET?

Why should you go limping around when Putnam's Painless Corn Extractor will remove your corns in a few days. It will give almost instant relief and a guaranteed cure in the end. Be sure you get the genuine Putnam's Corn Extractor, made by Pol-on & Co., Kingston, for many substitutes are now being offered, and it is always better to get the best. Safe, sure, painless.

MOOSE RIVER.—Henry Archibald and Mr. Donaldson have been prospecting on the Archibald areas adjoining the Touquoy mine with very favorable results.

A WANT SUPPLIED.—A reference to our advertising columns will show the card of Mr. F. H. Mason, F. G. S., Consulting Metallurgist, Chemist and Assayer, who has opened an office in Arlington Place, Truro, N. S. The Province has long felt the need of a competent Assayer and Chemist, and now that a gentleman of the highest ability in his profession has opened an office here, we trust that he will be liberally patronized.

CROOKED WORK IN THE KOOTENAY MINING DISTRICT.—*Nelson Tribune*. One thing can be said to the credit of the press of the Kootenay Lake country, that is, that it has never lent its aid to advance the schemes of unprincipled prospectors or mine manipulators. It is true, there has been little crooked work attempted, but no attempt has been countenanced. The Kootenay Lake country has merit, and it stands well with men who have money to invest both in speculative property and developed mines. However, should unprincipled men succeed in working off even one "salted" claim, the effect would be hurtful to the country. Last winter several parties made trips into the Duncan river country, and one or two of them returned with specimens of very rich gold rock. These reported finds have very much to do with heading prospectors into the Duncan river country this spring. While not denying that section, the *Tribune* is in possession of information that justifies it in making the following statement:

"The Gold Nugget Mining Company of Duncan river is a pure fake, and got up to swindle. The locations are show ones, well salted with sixty pounds of rich gold rock from California. The rock was brought to Kalso last summer, and hid across the bay till this spring. A portion of the interests of the locators have been disposed of to Spokane parties, and a man formerly well known at Kalso is now in the east selling stock. Some officials of the Great Northern railway are being roped in. The Spokane papers are boosting the scheme, not knowing its character. The original locators are in Kalso trying to sell their remaining interests at any figure, and the report that they intend putting a force of men at work is pure fabrication. All the parties interested on the outside have been deceived, and know nothing of the true state of affairs. The whole scheme is a swindle and will hurt the country."

WHAT DO YOU TAKE

Medicine for? Because you are sick and want to get well, or because you wish to prevent illness. Then remember that Hood's Sarsaparilla cures all diseases caused by impure blood and debility of the system. It is not what its proprietors say but what Hood's Sarsaparilla does that tells the story of its merit. Be sure to get Hood's, and only Hood's.

HAVE YOU TRIED DRUGS AND FAILED

TO FIND A CURE FOR

RHEUMATISM, LUMBAGO, SCIATICA, KIDNEY, LIVER and BLADDER COMPLAINTS, DYSPEPSIA, LAME-BACK, &c.

DR. SANDEN'S ELECTRIC BELT with Electro Magnetic Suspension will cure without medicine all the above ailments. Those who suffer from Nervous Debility, Looseness, Urinary, Lost Manhood, Nervousness, Sleeplessness, Poor Memory, all Female Complaints, a general ill health, the effects of abuse, excesses, worry, or exposure, will find relief and prompt cure in our marvelous invention, which requires but a trial to convince the most skeptical. In ignorance of effects you may have unconsciously drained your system of nerve force and vitality which is electricity—and thus caused your nervousness or lack of force. If you replace into your system the elements thus drained, which are required for vigorous strength, you will remove the cause and health, strength and vigor will follow at once. This is our plan and treatment, and we guarantee a cure or refund of money.

Our 200 page book "THREE CLASSES OF MEN," should be read by every young, middle-aged and old man, sent sealed, free. Dr. Sanden's Electric Belt is no experiment, as we have restored thousands to robust health and vigor, after all other treatments failed, as can be shown by hundreds of cases throughout this and other States, who would gladly testify, and from many of whom we have strong letters bearing testimony to their recovery after using our Belt.

WE HAVE CURED THESE—WE CAN CURE YOU!

FROM CANADA.

CLAREMONT, P. O., Ontario, October 18th, 1892.
Dr. A. T. Sanden, Dear Sir:—Kindly accept my hearty thanks for advice to try your electric belt. It gave me wonderful relief. I was suffering from heart trouble, indigestion, nervousness, and inactive circulation of the blood. Had doctored for over two years, during which time I had several doctors, but they did me every other remedy proved useless, and at the time I received your belt I was unable to sit up all day. I had not worn it two days when I began to improve, and now I feel like a different person altogether. I would not take \$200 for your belt today if I could not purchase another. There are electric belts made in this province (Ontario), but I do not know of any which will produce a current of electricity such as yours. If I can be of any use to you in regard to writing to an afflicted person in Canada I will be glad to do so. As we Canadians consider a testimonial from a Canadian worth much more than an American testimonial, it may be to your advantage to send this letter to some afflicted Canadian. You may also put this on your list of testimonials if you feel so inclined. I remain very respectfully, YRS. H. H. HUNTLY, Clarendon P. O., Hamilton Co., Ontario, Canada.

NEW YORK CITY, Oct. 20, 1892.
Dr. A. T. Sanden, Dear Sir:—I can report to you that the belt has entirely cured me of rheumatism from which I suffered for fourteen years almost continually. I am a better carrier, and the long daily tramps necessary in my round, up to the time of getting the belt, were painfully gone through with, but thanks to your wonderful invention, I can now walk as well as I ever did, and will recommend your treatment to all afflicted. The current has also brought back my vigor in other ways as you said it would. Yours very truly, JAMES MEAD, 24 Perry St.

GENERAL DEBILITY, &c.

OFFICE OF SARGENT & SON, DAY GORRIS BROS., CANINE, Maine, Feb. 27, 1892.
Dr. A. T. Sanden, Dear Sir:—I am glad to add my testimony to the many you have of the great value of your belt. My health has improved wonderfully, and I have gained two or three pounds of flesh, and now sleep well and have an excellent appetite. Your splendid electric belt with your "rule of health" has been a very valuable element to me, and I am pleased in recommending your belt. Yours respectfully, W. GEO. SARGENT.

THE DR. SANDEN ELECTRIC BELT

Is a complete galvanic battery, made into a belt so as to be easily worn during work or at rest, and it gives soothing, prolonged currents which are instantly felt throughout all weak parts, or we forfeit \$5,000. It has an Improved Electric Suspension, the greatest known over given weak men, and we warrant it. Cures any of those troubles, weakness, and enlarged shrunken limbs, or parts, or money refunded. They are graded in a series to meet all kinds of weakness in young, middle-aged or old men, and will cure the worst cases in two or three months. Address for full information.

SANDEN ELECTRIC CO., 826 Broadway, New York.

CUSTOMS DUTIES:—Arrangements have been made with the Canadian Government whereby all Customs Duties will be prepaid on our goods in New York.
