A LITTLE WHOLESOME ADVICE TO THE LAITY.

—1. Leave your bedroom window open at the top, except in damp weather, the night air is purer than that of the day, despite the alarming fairy tales of our grandmothers; but, when you arise in the morning, close the window, and *pull down the blind*, until you are completely dressed.

2. Get your wife to tack a band of flannel, about a foot wide, on the inside of your undershirt, over the region of the kidneys. This will save many a cold, backache, and derangement of important organs. If you haven't a wife, get one.

3. If you *will* drink intoxicating liquors, do so only at the time of eating. This, at least, will mitigate the direct effects of alcohol on the lining of the stomach; for the presence of food causes the gastric fluid to flow, and this protects the delicate membrane. To avoid a bad taste in your mouth in the morning, show your good taste in what you put in it at night. If the bad taste persists, and is not due to indiscreet eating or drinking, have your heart examined.

4. If you *will* smoke, give a better price for your cigars, and reduce the number. And do not

FOR INVALIDS.—Delicious Dishes made in a few minutes at a trifling cost.

WYETH'S LIQUID RENNET.

The convenience and nicety of this article over the former troublesome way of preparing Slip, Junket and Frugolac, will recommend it at once to all who use it.

WYETH'S RENNET makes the lightest and most grateful diet for Invalids and Children. Milk contains every element of the bodily constitution; when coagulated with Rennet, it is always light and easy of digestion, and supports the system with the least possible excitement. Price, 25 cents per bottle.

FERMENTATIVE DYSPEPSIA.

WYETH'S COMPRESSED TABLETS. * BISMUTH SUBGALLATE, 5 GRAINS.

DR. AUSTIN PLINT says:—"In nearly every case of functional dyspepsia that has come under my observation within the last ten months, I have begun the treatment by giving five grains of bismuth subgallate, either before or after each meal. I find it almost a specific in cases of purely functional dyspepsia with flatulence. Price, per bottle of 100, \$1.00.

WYETH'S COMP. SYRUP WHITE PINE.

A most valuable remedy in chronic or recent pulmonary affections of the throat or lungs—relieving obstinate coughs, by promoting expectoration and serving as a caduative in all bronchial or laryngeal troubles.

Each fluid ounce represents: White Pine Bark, 30 grs.; Wild Cherry Bark, 30 grs.; Spikenard, 4 grs.; Balm Gilead Buds, 4 grs.; Blood Root, 3 grs.; Sassafras Bark, 2 grs.; Morph. Sulph. 3-16 gr.; Chloroform, 4 mins.

Wyeth's Glycerole Chloride of Iron.

(NON-ALCOHOLIC.)

This preparation, while retaining all the virtues of the Tincture of Iron Chloride, so essential in many cases, in which no other Salt of Iron (the Hydrochloric Acid itself being most valuable) can be substituted to insure the results desired, is absolutely free from the objections hitherto urged against that medicament, being non-irritant, and it will prove invaluable in cases where Iron is indicated. It has no hurtful action upon the enamel of the teeth, even after long exposure. Each fluid ounce represents 21 minims Tinct. Chlor. of Iron.
