MAGNOLIA METAL

Endorsed by United States and German Governments.
THE EQUITABLE LIFE ASSURANCE SOCIETY,
No. 120 BROADWAY, NEW YORK.

October 26th, 1890.

Engineer's Department,
THE MAGNOLIA ANTI-FRICTION METAL CO.,

Gentlemen:—In compliance with your request for my experience with your Magnolia Metal, I beg to say, for the past three years I have used it in the Crank and Cross head bearings of a 12" x 12" Armington & Sims Engine making 287 revolutions per minute, running on night circuit of Electric Light. This engine is very heavily loaded, frequently doing from 90 to 100 H. P. We also have your metal in the Crank bearing of our main Electric Engine, a 500 H. P. Watts Campbell Co's Corliss. I have never had trouble of any kind either from heating or otherwise. I further desire to say that in my 28 years experience with machinery I have never found it so equal for Anti-Friction and wearing qualities.
Very respectfully, J. F. WILSON, Eup't & Chief Engineer.

Note:—Fly wheel of the main engine weighs 68,000 lbs.; revolutions 84 to minute; and runs more than 5,000 United States Electric lamps in the Equitable building.
