COUGH LOZENGES

Are the only certain Remady ever discovered for COUGHS, COLDS, HOARSENESS, BRONCHITIS, ASTHMA, INFLUENZA, DIFFICULT BREATHING, INCIPIENT CONSUMPTION,

And all Discusses of the PULMONARY ORGANS generally.

MoPHERSON'S Lozenges are the most convenient, pleasant, and ellicacious remedy that can be employed for the removal of the above distressing, and if neglected, dangerous symptoms. They give almost instantaneous relief, and when properly persevered with, never fail to effect a rapid and lasting cure. -To those who are affected with difficulty of breathing, or redundancy of phlegm, they give speedy relief by promoting free expectoration. For aged persons they are indispensable; and no one whose lungs are in the least degree susceptible of cold ought to be without them. In cases of moist asthma, M'Pherson's Lozenges will at once prevent that soreness which is the result of constant expectoration, and in a dry or nervous sathma, they will promote that degree of expectoration by which the painful conghing may be greatly presented.
