| 13. K Kt-B 3 | P-R 5    | 26. P x Kt       | Kt-K B 5 + |

And White resigns.

## NOTES.

- (a) Few could have resisted this sacrifice, and perhaps well followed up it was the best line of play.  
(b) Kt-K B 3, and presently Q to her 2nd, would probably have been stronger.  
(c) Better have played Q B-K Kt 5. An exchange of Queens was anything but desirable for White's game.

I would recommend you to read chiefly in the line of poetry in which you find your taste to lie, but not in that line only. By reading along with your taste you will get an impulse to carry you on, and by reading beyond it, you will gradually enlarge your bounds. You should not be content with appreciating the merits which are borne in upon you, as it were, but apply yourself also to discover the merits which others have perceived and which have made a poet famous, though they do not strike you at first sight.—Sir Henry Taylor: Letter to H. T.

Though the Parsees do not number more than ninety thousand souls, and half of them are in Bombay, they are wielding a decided influence in the modern civilization of the East. Long a persecuted race, they were finally driven from their native country, eleven hundred years ago, by the Moslems, and settled in Sugat, and from that point have become scattered through India. By their fruits they are making themselves known as worthy and efficient members of society. The Queen of England has no more honourable and patriotic subjects in England. They must have a deal of that noble blood of the ancient Persian coursing through their veins. They own and occupy some of the best residences in Bombay.—Interior.

People do not generally understand that the skin shares in the function of respiration, and that if this is interfered with death is apt to ensue, though this is due not so much to asphyxia as to some form of blood-poisoning caused by the constituents of the perspiration being reabsorbed into the blood. A striking illustration of the necessity of leaving the skin open to some extent to the action of air is afforded by the fact that a child who was coated with gum and then covered with gold-leaf to represent a cherub at the coronation of Pope Leo X. died a few hours after the operation. A similar fate nearly befell Gustave Doré in the days of his youth, when a passing caprice made him go to a fancy ball as *Un Monsieur Doré*; but as in his case the gilding was only partial, he survived, though he did not escape a sharp illness.—Hospital.

## WARNER'S SAFE CURE

St. CATHARINES, Ont., Jan. 24, 1887.—About six years ago I was a great sufferer from kidney disease, and was in misery all the while. I hardly had strength enough to walk straight, and was ashamed to go on the street. The pains across my back were almost unbearable, and I was unable to find relief, even temporarily. I began the use of "Warner's Safe Cure," and inside of one week I found relief, and after taking eight bottles I was completely cured.

*W. E. Hugg*

Manager for American Express Co.

TORONTO (18 Division Street), Sept. 17, 1887.—Three years ago last August my daughter was taken ill with Bright's disease of the kidneys. The best medical skill in the city was tasked to the utmost, but to no purpose. She was racked with convulsions for forty-eight hours. Our doctor did his best, and went away saying the case was hopeless. After she came out of the convulsions, she was very weak and all her hair fell out. The doctor had left us about a month when I concluded to try "Warner's Safe Cure," and after having taken six bottles along with several bottles of "Warner's Safe Pills," I saw a decided change for the better in her condition. After taking twenty-five bottles there was a complete cure. My daughter has now a splendid head of hair, and weighs more than she ever did before.

*Prof. Jas. Burns*

## THE GREATEST BLOOD PURIFIER

CHATHAM, Ont., March 6, 1888.—In 1884 I was completely run down. I suffered most severe pains in my back and kidneys, so severe that at times I would almost be prostrated. A loss of ambition, a great desire to urinate, without the ability of so doing, coming from me as it were in drops. The urine was of a peculiar color and contained considerable foreign matter. I became satisfied that my kidneys were in a congested state and that I was running down rapidly. Finally I concluded to try "Warner's Safe Cure," and in forty-eight hours after I had taken the remedy I voided urine that was as black as ink, containing quantities of mucus, pus and gravel. I continued, and it was not many hours before my urine was of a natural straw color, although it contained considerable sediment. The pains in my kidneys subsided as I continued the use of the remedy, and it was but a short time before I was completely relieved. My urine was normal, and I can truthfully say that I was cured.

*J. Moore*

296 McNab Street North, HAMILTON, Can., Nov. 2, 1886.—I had been suffering for over twenty years from a pain in the back and one side of the head, and indigestion. I could eat scarcely anything, and everything I ate disagreed with me. I was attended by physicians who examined me and stated that I had enlargement of the liver, and that it was impossible to cure me. They also stated that I was suffering from heart disease, inflammation of the bladder, kidney disease, bronchitis and catarrh, and that it was impossible for me to live. They attended me for three weeks without making any improvement in my condition. I commenced taking "Warner's Safe Cure" and "Warner's Safe Pills," acting strictly up to the directions as to diet, and took thirty-six bottles, and have had the best of health ever since. My regular weight used to be 180 pounds. When I commenced "Warner's Safe Cure" I only weighed 140 pounds. I now weigh 210 pounds.

*Mosb. Furber*

## Regulates Every Bodily Function

GALT, Ont., Jan. 27, 1887.—For about five years previous to two years ago last October, I was troubled with kidney and liver trouble, and finally I was confined to my bed and suffered the most excruciating pain, and for two weeks' time I did not know whether I was dead or alive. My physicians said I had enlargement of the liver, though they gave me only temporary relief. Hearing of the wonderful cures of "Warner's Safe Cure" I began its use, and after I had taken two bottles I noticed a change for the better. The pains disappeared, and my whole system seemed to feel the benefit of the remedy. I have continued taking "Warner's Safe Cure" and no

other medicine since. I consider the remedy a great boon, and if I ever feel out of sorts "Warner's Safe Cure" fixes me all right. I weigh twenty pounds heavier now than ever before.

*John Gries*

Inventor of the Maple Leaf Lance-tooth Cross-cut Saw.
