

The rugged coastline of Terra Nova National Park on Newfoundland's coast contrasts with the rolling terrain of the forested interior. It covers an area of 155 square miles and is one of the largest parks in the province. With its natural beauty and more Canadian wilderness, it offers a unique experience for visitors.

This special 24-page color brochure, available from the National Parks System, provides information on the park's history, geology, and natural resources. It is a valuable resource for anyone planning a visit to this beautiful area.

Canada's National Parks System, established in 1909, is a world-renowned network of protected areas. It includes 39 national parks, 17 national historic sites, and 11 national marine scientific reserves.

Canada's National Parks System is a world-renowned network of protected areas. It includes 39 national parks, 17 national historic sites, and 11 national marine scientific reserves. The system is managed by the Canadian government and provides a wide range of recreational and educational opportunities.
