

Thus at Harvard post-graduate and undergraduate courses are provided for and are controlled by the same Faculty, which, under the statutes of the University, "is composed of all the Professors, Assistant Professors, and Tutors, and of all the Instructors appointed for a term longer than one year who teach in the departments under the charge of the Faculty" (p. xxxii.).

### YALE UNIVERSITY.

"The Graduate School of Yale University, first fully organised in 1847, is a section of the department of Philosophy and the Arts, and is under the combined Faculty of that department, the other sections of which are Yale College" (wholly undergraduate), "the Sheffield Scientific School, the School of Fine Arts, the Department of Music, and the Forest School." It leads to the degrees of Ph.D., M.A., M.S., Mechanical Engineer and Mining Engineer. (*Bulletin*, p. 312, 1908.)

"Sheffield Scientific School is devoted to instruction and research in the mathematical, physical, and natural sciences. The instruction is intended for two classes of students: (1) graduates, (2) undergraduates." (*Bulletin*, p. 210.)

Here, as at Harvard, undergraduate and graduate work are controlled by the same body.

### CORNELL UNIVERSITY.

"The Board of Trustees, by a statute adopted in April, 1909, directed that after June, 1909, the division of the University formerly known as the Graduate Department should be designated the Graduate School; that its Faculty should consist of those professors and assistant professors who are actively engaged in supervising the work of graduate students as members of the Special Committees in charge of major and minor subjects; and that this Faculty should have exclusive jurisdiction over all graduate work and advanced degrees." (*Register*, p. 70.)

The degrees under the control of this School are "Master of Arts, Master of Civil Engineering, Master of Mechanical Engineering, Master of Science in Agriculture, Master of Science in Architecture, and Doctor of Philosophy." (*Cornell University Register*, 1909-10, p. 71.)

Cornell is the only one of the five universities under review where "exclusive jurisdiction" over graduate work is given to a Graduate School; advanced degrees in medicine and in law are not given by Cornell.
