Stocks in Detail and En Plea CHICAGO MARKETS.

CHICAGO, July 14.—Alleged discovery of black rust in North Dakota and Minnesota had a bullish effect on wheat today and the market closed firm at an advance of ½c to ½c net. Corn showed a gain of 1½c to 1½c to 1½c to 1½c and oats a rise of ½c to 1½c. In provisions the outcome varied from 20c decline to an upturn of 2½c.

Altho rumors concerning black rust did not receive anything like full credit, such gossip almost monopolized attention of wheat traders in the last part of the session. Fargo, N.D., and Ada, Minn, were the points from which lews of the blight was said to emanate. The mere of the content of the service of the content of the blight was said to emanate. The mere of the content of the service and the following prices on the fol

ward the greater part of the day. On all swells, however, longs did enough realizing to keep net gains much less than enthusiasts had hoped. Scaboard clearances of wheat and flour equalled \$31,000 bushels. Primary receipts of wheat were 1, 891,000 bushels, a year ago \$82,000 bushels. Corn and Cats Higher.

Damage reports from Kansas and Oklahoma put strength into the corn market. Besides, receipts here were extremely small. Oats rose in sympathy with corn, but a big increase in the visible supply total checked buying to some extent. Provisions prioces suffered under free seiling, due to an unexpectedly heavy run of hogs here. Afterwards the market steadled on the bulge in coarse grains.
