The trustees of these sections refuse to pay the city the amount asked, and as a result a resolution was passed in July barring all pupils of Barrion trownship from attending school in Hamilton until the account was paid. A special meeting was held a week ago, and it was decided to allow to the township form attending the board, which was held last evening. News of Dr. Dumba's recall had been requested created a sensation in the capital. It had been known in of-

ficial and diplomatic circles that Pre-sident Wilson and Secretary Lansing regarded the conduct of the ambassa-dor as a grave breach of propriety but there had been a well defined impression that the only immediate step would be the cancellation announced today of the passport of Archibald, the American who carried the interepted despatches. Dr. Dumba left yesterday for the

summer embassy at Lenox, Mass., to await word as to whether the administration was satisfied with the explanation he made to Mr. Lansing

It was stated at the embassy that the ambassador had been instructed of its effect upon the part the U.S. is by the foreign office to give the wide playing as diplomatic representative est publicity possible to a decree against the aiding by Austro-Hungari- gerents of Europe. ans in the manufacture of munitions for enemies of their country, and that this was the only step contemplated in orders so far received. The choice of Archibald as a despatch bearer both for the German and Austro-Hungarian Governments, it was lectared, was without orders or sanc-ion from abroad.

Avoid Diplomatic Issue.
While everywhere it was admitted onight that the situation created by the American note might prove a serious one in its effect upon the relations between the two governments, it was pointed out that the language of the communication indicated clearly a desire to have Dr. Dumba recalled with-

pointed out that the language of the communication indicated clearly a desire to have Dr. Dumba recalled without making a diplomatic issue of his case. No mention was made of the order given the ambassador to proclaim his government's decree to Austro-Hungarians working in this country. An ambassador is the personal representative of the head of his government, near the ruler or executive of the country to which he is accredited, and a request for his recall does not necessarily mean more than that he is personally objectionable.

If the Vienna government should take this view of the case and withdraw Dr. Dumba without entering into the question as to the propriety of his conduct or its right to control the action of Austro-Hungarians in this country, it is declared that there would be an end to the situation, for the present at least. On the other hamd, persons versed in diplomacy say that a decision at Vienna to up-
