A HORSE'S MARVELOUS LEAP. Flung over a cliff a distance of fifty feet and escaped unhurt.

New York, Aug. 1.—The horse owned by Casper M. Hunt of Hudson-avenue, Guttenberg, yesterday jumped from a cliff of the Palisades 50 feet high, and landed on the top of a tree, fell to the ground and escaped with a few scratches.

The horse did not perform this feat deliberately, however. It was a part of a runaway performance at the residence of a wagon, had been left standing in front of its owner's store, and was frightened by a passing trolley car and man.

At a turn in the Bull's Ferry-road it struck a telegraph pole, wrecking the wagon.

Then the harness parted and the horse dashed upward. The roadway terminates abruptly at the face of the cliff, but is guarded by a wall four feet high. The frightened animal bounded over this wall and went down the cliff.

The owner expected to find the horse dashed to pieces, and was greatly surprised when he descended the road to find the horse unharmed. The animal ran to meet him with a glad neigh, as if it realized its wonderful escape.

More Grand Trunk changes. Circulars have been issued at Toronto by the Mr. Fitzhugh, master of transportation, Grand Trunk Railway, making the following appointments:

Mr. David Macdonald, superintendent of Toronto terminals, with jurisdiction over station and yard service at York, Don, Toronto and Parliam, with headquarters at Toronto.

PROSPECTUS OF THE BIG THREE GOLD MINING COMPANY.

CAPITAL - \$3,500,000. 3,500,000 Shares of the Par Value of \$1.00 Each.

1,000,000 shares of this stock are in the hands of the Company's Treasurer for development purposes. All stock issued is fully paid and non-assessable.

THE BIG THREE MINERAL CLAIMS ARE LOCATED IN THE CELEBRATED TRAIL CREEK GOLD MINING DISTRICT OF BRITISH COLUMBIA.

OFFICERS: President, RUFUS H. POPE, M.P., Cookshire, Que.; Vice-President, O. G. LABERRE, Rossland, B.C.; Secretary and Treasurer, JAY P. GRAVES, Spokane, Wash.

TRUSTEES: HON. W. B. IVES, M.P., Ex-Minister of Trade and Commerce, Ottawa; RUFUS H. POPE, M.P.; W. A. McDONALD, Spokane, Wash.; G. O. LABERRE, JAY P. GRAVES.

The management of the development work will be conservative and under an able and experienced Mining Engineer. This Company has been formed for the purpose of opening up and developing the Eldorado, Snow Shoe and Southern Belle claims.

The owners, after doing considerable work and demonstrating to their own satisfaction that they had valuable property, and that with further development they could make shipping mines, incorporated the Big Three Gold Mining Company, and now offer a limited number of their shares for sale.

MAP SHOWING LOCATIONS OF ELDERADO, SOUTHERN BELLE AND SNOW SHOE CLAIMS PROPERTIES OF THE BIG THREE GOLD MINING CO.

Trail Creek Mining District. The War Eagle is adjoining the Le Roi. This property was purchased by American citizens in October, 1884, for about \$85,000 and was incorporated for 500,000 shares par value of \$1.00 per share.

In February, 1885, the property paid a dividend of \$35,000, and offerings of \$1.00 a share were made but none could be obtained. Since then a total dividend of \$178,000 has been paid, and in addition they have placed the latest improved mining machinery at a cost exceeding \$50,000.

This mine lies nearly west of Red Mountain and is a real Jumbo. The claim made by the owner is that they have the largest ore being placed on the property. They have shipped a good deal of ore from this mine. It is confidently believed that they will become early dividend payers.

This mine lies on the east side of Red Mountain, and in same vein as Monte Cristo, St. Elmo and others. The property is mining and shipping some very fine ore and is considered one of the big mines of this district.

This mine is located nearly on the top of Red Mountain and is just developing into a splendid property. The latest reported assays being \$1.00 per ton and 14 per cent. in copper at a depth of about 50 feet.

This claim is located on the north-east slope of Red Mountain adjoining the Southern Belle on the east and consists of about 40 acres. The ore taken from this claim is very high grade for the face showing and the assays have been very satisfactory. The vein passing through or making the Snow Shoe mine is known as the snow shoe vein. This claim lies well for tunnel work and will be developed by that method.

We wish in particular to call the attention of the investing public to the fact that the policy pursued by the most successful mining men is to invest in a large number of different mines instead of investing their all in one property. This is the policy of the Big Three Gold Mining Company in consolidating these three properties into one company thereby giving the smaller investors an equal chance with larger investors and the company has no hesitancy in stating in offering the public an opportunity to purchase stock in the Big Three Gold Mining Company, that they are offering one of the safest mining investments ever all bought on their individual merits. By consolidation of these properties the development expenses will be reduced. For instance, one set of machinery will be sufficient to develop and operate the Snow Shoe and Southern Belle claims. Also much money may be saved from the fact that all office employees required to operate the entire group will not be required to be employed to properly manage a single property, under the ordinary system of separate organization.

This property consists of about 30 acres and is situated on the north-west slope of Red Mountain, which adjoins the cliff in the north and the
