WILLIAMS' PIANOS

A Thousand Welcomes to the Epworth Leaguers!

THE HOSTS ARE HERE

Twenty Thousand Visitors Have Already Arrived. ALL DELIGHTED WITH THE QUEEN CITY

Massey Hall Was Crowded, the Pavilion Was Jammed, the Metropolitan Was Filled to Overflowing and Cooke's Church Had Its Limit—Premier Hardy Welcomes the Delegates to the Province of Ontario—Other Addresses of Welcome—President McKinley Sends His Best Wishes—This Is a Time When the Flags of Britain and the United States are Intertwined and Cheered to the Echo—Oratory Speeches and Marked Enthusiasm Throughout—To-Day's Program.

The host of Epworth Leaguers are glad that their Cabinet in formal session at Chattanooga in 1895 chose Toronto, the Queen City of Canada, for this year's international convention. The wisdom of the choice is already abundantly justified. Highly as Toronto had been praised, the consensus of opinion of those who have only passed one day in our midst is best expressed in the words of the Queen of Sheba: "It was a true report that I heard in mine own land; howbeit I believed not the words till I came and mine eyes had seen it."

Everything conspired to make the opening day a grand success—the safe arrival of nearly 20,000 visitors; the glorious summer weather; the admirable arrangements, and considerate forethought of the reception committee; the splendid accommodation of the capacious halls and sanctuaries of this City of Churches; the generous hospitality, the cordial and yet true welcome of the citizens, and last, though not least, the captivating spiritual and intellectual bill of fare which has been provided.

Every topic that appeals to the edifying of the members and the betterment of their fellows is on the program, and the continent had been secured as it were to find fitting exponents for the stimulating themes. The most experienced and eloquent divines on the continent are here, and samples of their quality were given at the half dozen meetings yesterday.

Never was there such combined enthusiastic admiration expressed for the flags of the two great peoples, and the rafters rang with "My Country, 'Tis of Thee," and "God Save the Queen." Welcome and fraternal greetings were profuse, and loudly as the Premier of Ontario and the Mayor of Toronto were cheered on their expressions of good will, this was as a drop in the bucket compared with the visitors' exuberant cheering on hearing the telegrams of congratulation from the President of the United States.

Little more need be said here of the proceedings of yesterday. It was indeed a red letter day in the history of Methodism, and the lessons it should teach are many and should prove abiding. For joyful singing, earnest speech, fervid aspirations and words of cheer nothing more could be expected. As an augury of the success of the three following days the inaugural is most encouraging, and the leaguers may indeed adopt Milton's sentiment, and "Bate nor jot of heart and hope but still bear up and steer right onward."

AT MASSEY HALL. Scene of Enthusiasm at the Opening of the Convention. The welcome meeting in Massey Hall was attended by between 5000 and 6000 delegates, and was successful in every respect. Only delegates were admitted up to 2:15 o'clock, and they so completely filled the hall that when the general public rushed in by ten minutes they had to be content with back seats in the top gallery and standing room.

Cheering the Flags. The enthusiasm of the delegates broke out before the proceedings opened. A number of the most stirring hymns were sung in a most hearty and spirited manner. Then came a flag incident. A party of enthusiastic young men, waving across the top gallery, carrying the British and American flags. Immediately huge assemblies of thousands of handkerchiefs and sang "Marching Through Georgia," and "The Flag is the Emblem of the Nation." The flags were hung, side by side, from a top box, and there they stood, forming a significant emblem of the international and peaceful character of the convention.

After these interesting and inspiring preliminaries, James L. Hughes took the chair and announced that Prof. Excel of Chicago would conduct the musical portion of the proceedings. By this time the hall was filled to overflowing. Rev. Chancellor Burwash of Victoria University led in prayer, and then the chairman introduced Premier Hardy, who was enthusiastically received.

Ontario's Prime Minister. The Premier was in capital form and humor and extended a hearty welcome on behalf of the province. In theatrical manner, he made a hit. He expressed his amazement at the rapid growth of the League and referred to the great good that was being accomplished by these modern church societies. It was an Englishman who said that much could be made of God Scotchmen, if he was caught young. [Laughter.] The Epworth League was evidently acting on this principle, and Premier Hardy proceeded to bestow every kind of complimentary upon the League of the Union. He told them that they were the pick and flower, the youth and beauty, of a great and powerful church.

The Chancellor's Message. "That old favorite, 'All Hail the Power of Jesus Name,' was sung in spirited fashion, and then followed the reading of this message from Chancellor John H. Vincent of Chattanooga: "Welcome to the Province of Ontario, May the Epworth League, like the Epworth League, send forth to bless the children of God, the earnest, courageous fathers, inspired leaders of sacred songs, masterly church administrators and mighty preachers of the everlasting gospel."

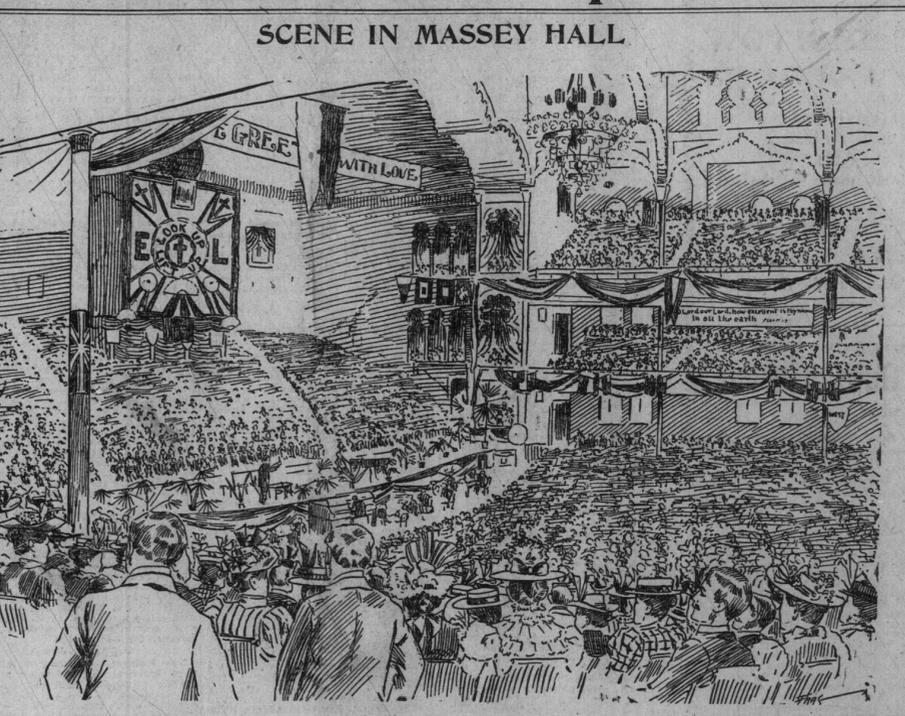

Workmen's Compensation Bill. London, July 15.—In the House of Commons today the Workmen's Compensation Bill was read a third time without a division.

When the Great Epworth League Convention opened yesterday afternoon—6000 people within its walls.

The Toronto War.

SCENE IN MASSEY HALL

When the Great Epworth League Convention opened yesterday afternoon—6000 people within its walls.

SHAME AND REMORSE

John Barber Squandered a Small Fortune in South Africa and came Home and Killed Himself. London, Ont., July 15.—John Barber of Komoka died at his home about 5 a.m. to-day, the result of a dose of Paris green. John Barber has lately been in the employ of James Wickes, for whom he was drawing pay. On Tuesday night he went home rather late and slept in the granary. Beside him was a box of Paris green and a bottle of alcohol. Barber's mother became anxious about him and sent her little son to John to ask him to come to breakfast. John replied that he didn't want anything and that he wasn't any good in the world and he had had this he took the Paris green and washed it down with the alcohol. Barber comes of a very respectable family. His father died three or four years ago and left him \$3000 to \$4000. Barber went to South Africa and was a participant in the war there. He returned about eight months ago. It is alleged that since that time he has led rather a dissipated life, and has of late been drinking heavily. He fell in his position, having gone through his money by an extravagant and it is supposed that shame and remorse caused the unfortunate man to take his life.

WILLIAM BUCK IS DEAD

The Well-Known Store Manufacturer of Brantford Expired While Witnessing Buffalo Bill's Show. Brantford, July 15.—This evening Mr. William Buck and family went to see Buffalo Bill's Wild West Show, which is exhibiting here to-day. Mr. Buck and Mayor Elliott were sitting together and chatting, about 8:15, shortly after the performance commenced, when Mr. Buck fell over against Mr. Elliott and expired in a few moments. He was removed to the open air, and medical aid summoned, but too late, as he had departed.

NOTES FROM WINNIPEG

Brakeman Mangled to Death—Little Girl Drowned—Deer Elected the Liberal Candidate. Winnipeg, July 15.—(Special).—As an east-bound freight train was moving out of the station at Broadview on Wednesday head brakeman Ebermay, while walking along the top of a car, lost his footing and fell between the cars. The wheels of the six engine rolled over him, completely severing both legs close to the hips. He died two hours afterwards.

NOTES FROM OTTAWA

Norden, Man., Made a Port of Entry—The Arrest of Hamilton at Pembroke—Ottawa, July 15.—It is reported that P. J. Loughry of Sault Ste. Marie is an applicant for the position of agent for the Attorney-General of the Dominion to enforce the alien labor law in Western Ontario. It was learned at the Department of Justice this afternoon that no appointment has been made. It is just probable that something will be done next Saturday, when there will be a meeting of the Cabinet.

LEAGUERS A STUDY

Styles and Styles—A Revolving Multiple City—Everything Goes. To the observant eye it's a rare treat to study the styles of the thousands of strangers thronged here from all quarters of the continent. Such a motley lot the Mar's Heaven has contributed for comfort, of course, but every man to his taste, and with it all there's little the Mar's Heaven has contributed for the purchase of ironclads. It would be much better, says Lord, to furnish the colonies to provide well fortified and equipped naval bases where a fleet could be repaired and refitted in the shortest possible time. The increasing of such bases would do more to strengthen the Empire than the largest amount of money, and Lord Bessford thinks it would have been wiser to spend £1,000,000 in making the Cape more effective as a naval base.

BERESFORD'S CRITICISM

Colonies Would Do Better to Equip Naval Bases Than to Present Warships. London, July 15.—Lord Charles Beresford has written a letter in reference to the magnificent offer of Cape Colony to present a first-class battleship to Great Britain, in which he depreciated the fact that the other colonies are hurrying to imitate the Cape, because, as he says, in the event of war strategic reasons might require the removal of the fleet from colonial waters, leaving the colonies open to hostile attacks; and this might cause soreness and misunderstanding on the part of the officials of the colonies, which had contributed to the purchase of ironclads. It would be much better, says Lord, to furnish the colonies to provide well fortified and equipped naval bases where a fleet could be repaired and refitted in the shortest possible time.

WORKMEN'S COMPENSATION BILL

London, July 15.—In the House of Commons today the Workmen's Compensation Bill was read a third time without a division.

PEMBER, TURKISH BATH AND BED 81

London, July 15.—(Special).—As an east-bound freight train was moving out of the station at Broadview on Wednesday head brakeman Ebermay, while walking along the top of a car, lost his footing and fell between the cars. The wheels of the six engine rolled over him, completely severing both legs close to the hips. He died two hours afterwards.

ARMED AND DANGEROUS

The contractor on the Queen-street subway has created a railway for carrying heavy stones from one side of the street to the other. It is supported by a trestle and is in the shape of a loop, and is only a space of four inches between the trestles and the ground. The contractor has arranged for the carrying of heavy stones from one side of the street to the other. It is supported by a trestle and is in the shape of a loop, and is only a space of four inches between the trestles and the ground.
