The Boston and Albany.

The Boston and Albany. In New England the lease of the Boston & Albany to the New York Central is for-maily known. The negotiations of the Bos-ton & Maine, which owns the Central Maine Bailroad, to take over the Fitchburg, has been officially admitted. This leaves the New England territory divided among the New York, New Haven & Hartford, the New York Central and the Boston & Maine interests. It became generally known yesterday that the Lake Shore, which, under the consoli-dation scheme of the New York Central, recently became practically an integral part

cels. On Saturday she allowed us to see some portraits of children, so sympatheti-cally painted and so charmingly colored, that we were tempted to believe that in such work lies her peculiar genius. No one who was not a lover of children would render the unconscious grace and beauty of childhood so felicitously. There is one pleture of a little girl seated on a grassy bank, with a pitcher beside her, that is especially attractive and effective. The expression in the little yellow-haired fig-ure is altogether charming, and the color scheme of the whole, with its recurrent note of delicious blue in the green, is very delightful. A little girl with her doll is another of these child portraits over which one loves to linger and ponder its charm of unconscious childhood. In it there is the same beauty of coloring which is found in so much of Miss Muntz's work. A lit-tle maiden, in a beruffied cap, with all the mystery of infancy in her great, soft, dark, wondering eyees, and a three or four-year-old boy with long yellow curls, seated in a tiny chair, are other fascinating bits of child portraiture, which Miss Muntz has treated through her sympathetic insight and dation scheme of the New York Central, recently became practically an integral part of that system, has taken over the Lake Erie & Western, which was formerly re-garded as a property of the late Calvin S. Brice. It is understood that the new owners and their representatives will at once take places on the directorate, and that hereafter the road will be operated as a part of the Lake Shore system.

Men To-Day-Gunner McGregor Got a Cheque.

From The Sunday World. Stanley Barracks yesterday presented an unusually busy scene. Both men and horses are working overtime. The instructors have their hands full teaching the recruits the during the past couple of days, and by Monday, when General Hutton inspects them, they will no doubt have reached a very fair state of efficiency. Every man seems to be delighted with his stay at the barracks, although the work to many, who have never been used to it, is at first rather hard; still they work cheerfully an are giving every satisfaction' to the offi-

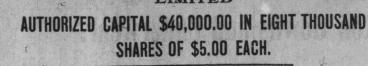

**General Hutton's Inspection** When General Hutton arrives he will in-spect the men and foot at 10.30 a.m., the horses at noon, and mounted parade at 2.00 ses at noon, and mounted parade at 2.,0

Horses at the Barracks.

All the horses at the Barracks. All the horses have now arrived at the barracks, and the total number there amounts to 259. Of these 170 were yes-terday equipped with saddles, 45 of which were furnished by the R.C.D., and 125 from the stores of the Governor-General's Body Guard. All are in first-class repair, and it it not yet known which for the balance will It not yet known whether the balance will be served out here by the Government or at Halifax.

Men Still Seeking Service. Men still secting service. Men are still coming out to the barracks with the intention of enlisting, and horses are also being offered for sale. As a re-suit, the authorities have instructed the sentries to allow none to pass unless they have business within. This step has been found absolutely necessary, and in the in-terests of all

McGregor's Cheque. The following letter, together with a cheque, was handed to Mr. F. J. McGregor, a member of A Battery:

## PROSPECTUS.

This Company is incorporated under Letters Patent from the Provincial Govern-ment, and has ample power to carry on all branches of the Printing Business, includ-ing the manufacture and sale of Printers' Supplies, etc. In connection with the Company there is carried on the well-established Business of The Leader and Recorder Newspaper and Job Printing Business, one of the best known and most prosperous concerns in the Province of Ontario.

GENERAL OUTLINE.

The Leader and Recorder represents the amalgamation of seven York County vspapers. We have four printing offices: (1) Woodbridge, Township of Vaughun; Schomberg, in the Township of King; (3, Mount Albert in the Township of East illimbury, and (4) the head offices at No. 54 Adelaide-street east, in the City of ronto. We have also business offices at Toronto Junction, Newmarket, North To-to and East Toronto, and more than one hundred agencies in the County of the county of

York. At the Head Office we have one of the best and most up-to-date printing plants in the Queen City, including: Two fine typesetting machines, a first-class two-re-volution Campbell printing press, which prints, cuts and counts the sheets; a Brown newspaper folder, with insert attachment; a rapid pony press of the most approved pattern; two small presses, large paper cutter, wire stitcher, numbering machine, proof press, electric motor for operating the machinery; a large and first-class as-sortment of job and newspaper type, cuts, galleys, chases, imposing stones, cabinets, wood and metal furniture, metal and wood borders, etc., mailing machine, brass rules, etc.

This office is situate within a few doors of the General Postoffice, right in the heart of the city, has lofty ceilings, is well lighted, and has been rented for a num-ber of years at a reasonable rental. It is one of the best-equipped and most centrally located newspaper and publishing offices in Toronto.

FIELD OF OPERATION.

The Leader and Recorder entered upon its eleventh year on the first of January. 1600. Twelve to sixteen pages of matter is issued weekly and liberally patronized by the best advertisers. No paper in America contains such a complete epitome of county news as The Leader and Recorder. It covers one of the richest agricultural districts in Canada, namely, the County of York, and at the same time it is gradually but surely extending its field of operations outside of these limits, and is destined to become one of the largest and best paying newspaper enterprises in Canada. Already it has no equal in the country newspaper field in America, and notwithstanding the expense entailed in building up the business to its present proportions, it has net-ted the late proprietor, who is now the largest shareholder in the company, interest at the rate of ten per cent. per annum on the money Invested.

CIRCULATION.

The circulation of The Leader and Recorder is probably larger than that of any other county newspaper published in the Dominion of Canada. Its press room are freely open to the public on publication days. Those residing in York County are well aware of the extent and character of its circulation, and a single glance a the newspaper, as published, is sufficient to convince any person of its excellency. PROSPECTS.

The Leader and Recorder is now a well-established business enterprise, and only requires additional working capital to develop it. Its growing circulation will, in the course of the next two or three years, accessi-tate the purchase of a faster press to facilitate handling the increased business and reduce the running expenses to the lowest point. Meanwhile the present field of operation will be developed to the fullest extent. The Company guarantees to its shareholders interest on their money invested at the rate of five per cent. per annum, and by careful management the company is confident that even better results can be obtained for its shareholders. Applications for shares may be made to A. R. Fawcett, Esquire, General Manager, Head Office, No. 54, East Adelaide-street, Toronto, or to any other duly authorized agent of the Company. The difference between Petroleum and Cod Liver Oil is the difference between a pleasant, palatable medicine on the one hand and a nauseating dose on the other. The purified Petroleum we use is deprived of all taste and smell and rendered acceptable to the most sensitive stomach. It retains, however, all the virtues of the crude oil, and is prescribed extensively by physicians in the treatment of throat and lung troubles. As a matter of fact, it is equally effective in stomach disorders and in all affections of the mucous membranes. A pleasant fact is that children all like it and take it readily, without any objection.

LOMDON

Angier's Petroleum Emulsion Prescribed by the medical profession for 20 years, and

different entirely from any other medicine. It is of supreme value in the treatment of Consumption, Bron chitis and all bronchiat troubles.

ANGIER'S PETROLEUM EMULSION was first introduced into the United States in 1880. where it was heartily welcomed by the medical profession as a palatable and most efficient substitute for Cod Liver Oil. Its rapid growth in favor, and the high appreciation in which it was held by all who tried it, together with the corresponding growth in volume of business, led in 1892 to its introduction into Great Britain. There its success has been quite as pronounced as in the States. Two-thirds of the medical profession of Great Britain prescribe it constantly in their practice, while it is also used in the leading hospitals. Within the last few years it has also been introduced into South Africa, Australasia and India, so that it is now well known throughout the entire English-speaking world, and prescribed by fully 50,000 physicians.

Angier's Petroleum Emulsion is for sale by leading druggists everywhere at 50 cents and \$1.00 a bottle, according to size. We give small sample bottles free to those who call for them, or send to any address on receipt of 10 cents to cover postage.

# **Angier's Petroleum Tablets**

In connection with the large and constantly growing use of Angier's Petroleum Emulsion we want to emphasize the Petroleum Tablets, which not only cure simple coughs, hoarseness and sore throat, but relieve the stubborn cough of Bronchitis and Consumption. Many physicians prescribe the two together, thus saving their patients from the bad effects of using common cough remedies.

> For sale by druggists generally at 25 cents a box, or sent to any address by mail on receipt of price.
