A NARROW ESCAPE FROM DEATH.

George Thompson's Gun Was Accidentally Discharged as He Picked It Up.

Toronto Junction, Oct. 19.—There are only 172 appeals against the assessment roll of this year, compared with over 600 last year. Many of the appeals are merely to have the names of owners changed, and are not appeals against the assessed value of the property. From this it may be assumed that the assessment has been a fairly satisfactory one.

George Thompson, who resides on Gorham-street, had a very narrow escape from death yesterday, when in company with a friend, he drove out to Holt to dig potatoes on his farm, each taking a gun with him. On reaching the farm they proceeded to the potato patch. Mr. Thompson stood his loaded gug in the fence corner. In about an hour's time he returned to where the gun stood, picked it up, and in so doing the hammer caught a rail, causing it to go off. The contents of the gun caught him sidewise on the left side of the face. As a result, his face was badly burned by the powder, and nearly half of the load of B.B. shot entered his face in the region of the eye. Medical aid was quickly summoned, a quantity of the shot was extracted and the face dressed. Nothing serious will result from the accident. The reason given for his wonderful escape from death is that the gun fortunately discharged at too close a range.

WHERE WERE THE LIFE-SAVERS?

City Paid $300 for a Service That Was Out of Business on Toronto Bay.

The Naval Brigade is up against it now. In the early part of the year the Britannia Life Saving Service sent its representatives to the Board of Control with a request that $1200 be granted for a steam launch, dinghies and other appurtenances. It was shown that the Britannia Life Saving Service, as an incorporated body, had taken over all the duties, responsibilities and plant of the Britannia Naval Brigade, which occupied the field—or rather the water—theretofore. The large sum was not granted, but the board readily granted to the corporate body the amount of $300 usually provided for the Naval Brigade. The grant was paid on Aug. 13, but it would appear from the following letter that the station had been closed before that date. The coroner's letter is to the Mayor:

Dear Sir,—I trust that you will pardon me for addressing you on a matter which has come prominently to my attention, as coroner for this city, especially during the last summer. Unfortunately for our city, quite a number of drowning accidents occur in our bay, the more so of course during the boating season. In my investigations in connection with these fatalities, I have firmly come to the conclusion that, for a proper life saving station on our waterfront, manned by an efficient crew, whose duty it would be to be at their post from 7 a.m. till 11 p.m. (with proper system of relief), said crew to be supplied with all necessary life saving apparatus, which could be got ready at an instant's notice, many precious lives would be saved. On Monday night last I was requested to look into the circumstances surrounding the death of poor young Lee Priest, drowned in the slip at the foot of York-street. I from all the witnesses of the fatality find that had there been a set of grappling hooks on the dock, in all probability the body would have been rescued ere life had fled. As it was the young man was not recovered for one hour, so that in spite of every possible means used by Dr. Pepler to resuscitate him his work was in vain. In the same connection I found that the life saving station had been closed entirely since July 7, so that no matter under whose auspices this station is conducted almost the whole of last season elapsed without any system of life saving being even in existence. Will you kindly write me, saying whether the city has at any time subsidized the life saving station, which was started some years ago by the Sons of England Benevolent Society. If so, is that arrangement still in existence, or when did it expire? Or, if it has expired, is it the intention of the city, so far as you are aware, to renew the subsidy next season. What precautions are taken along our water-front in reference to the furnishing of each wharf with grappling irons or pike poles, which might be used without a moment's delay to rescue the drowning person till such time as the life saving crew arrived on the spot? I trust you will write me at some length herein, during the next day or two.

W. A. Young, M.D.

The new macadam road leading from Queen-street, just east of the Don bridge, to the sunlight Soap Company's factory, was opened to traffic yesterday.

There is a movement on foot among the residents of the East End to give welcome turning soldiers from the South African war, who live in this part of the city, a grand reception when they arrive home. There is some talk of erecting a triumphal arch across the new Don bridge at Queen-street and having this structure covered with illuminated lanterns. Many of the merchants will decorate their stores when the boys arrive.

Non-Jury Assizes.

Chancellor Boyd, in the non-jury Assize Court yesterday afternoon, heard the suit brought by George B. Joges, the well-known cold storage architect, to recover $400, being the amount claimed as commission for selling a cold storage plant valued at $15,000, to the Collingwood Meat Company. The defendants were the Hinde British Refrigeration Company of Montreal. Judgment was reserved.

Judgment was also reserved in the suit brought by James P. Langley, assignee of the Sword estate, and some Montreal creditors, against E. Van Allen, manufacturer of Hamilton. The claim was to recover $780 paid under an agreement made in connection with an extension given J. A. Sword by his creditors in August of last year.

The cases set down for trial on Monday are: Baker v. Royal Insurance Company; Bowman v. Metallic Glass Company; Rogers v. Miller, Williams v. Dominion P. E. Company.

George Wrigley reviewed an address delivered by Prof. George D. Herron on the opening of Debs Presidential campaign in Chicago two weeks ago. Prof. Herron returned from Palestine to aid Debs, altho the Socialists only expect the poll about 100,000 votes in this election. He stated that the coming struggle would be between imperialism and Socialism, and pointed out that so long as there remained one slave upon the earth no man could be truly free. Dr. A. J. Hunter presided.

The New Technical School.

The Technical School Board polished off their bill of fare in short order last night. The reading of the minutes was the biggest item.

Asked as to the prospects of an early removal to the new premises, Architect Wickson said parts of the building would be ready for occupation at a comparatively early date.

The Property Committee reported that they had inspected the furniture for the new premises and recommended that the board pay $3500 for the same, the balance of the appropriation of $75,000. The report was adopted. Several accounts were passed, and a requisition for students' supplies was ordered.

FOR MANY YEARS

Physicians Have Been Seeking a Reliable Pile Cure.

For years physicians have experimented in vain, seeking a remedy which would effectually cure piles and similar rectal troubles without resorting to surgical operations.

Many salves, ointments and other remedies were found to give only temporary relief, but none could be depended upon to make a lasting satisfactory cure.

Within the past few years, however, a remedy called the Pyramid Pile Cure has been repeatedly tested in hundreds of cases and with highly satisfactory results.

The first effect of this remedy is to instantly remove the pain and irritation, and from that time on the cure rapidly progresses, and before the patient is hardly aware of it he is entirely cured.

The Pyramid Pile Cure seems to act directly upon the nerves and blood vessels of the parts affected, as it comes into direct contact with them and sets up a healthy action, which, in a perfectly natural way, reduces the swelling and inflammation.

The Pyramid Pile Cure performs the cure without pain or inconvenience to the sufferer, and is justly considered one of the most meritorious discoveries of modern medicine.

Piles is a most annoying and oftentimes dangerous disease with which humanity is afflicted. If neglected it frequently develops into fistula or some fatal or incurable rectal trouble, whereas by the timely use of this simple but effective remedy no one need suffer a single day from any form of piles.

The Pyramid Pile Cure is perfectly harmless, contains no mineral poison, opiate or dangerous drug of any kind.

It is in suppository form composed of emollient oils and astringents, and is applied at night and absorbed into the parts affected during sleep.

Druggists everywhere sell full-sized treatments of the Pyramid Pile Cure at 50 cents per package.

The uniform success of the remedy has made it the most popular and best known of any form of treatment for piles.

We put certain chemicals together, chemicals which have a known result. We make no immoderate claims for them, and we confidently expect them to do what we say they will do.

Ayer's Hair Vigor will make hair grow.

Miss Moore, who is the postmaster at Welchburg, Ky., put the letter in her mail the other day:

"Last summer my hair was thin and short and was falling out profusely. I then began using Ayer's Hair Vigor, and two bottles of it gave me beautiful and glossy hair. My hair is now over a yard long, and my friends all wonder what has made it so thick and heavy."

Now that the secret's out we suppose her friends will stop wondering.
