· Tells women how to dry up a corn so it lifts out without pain.

Modern high-heeled footwear buckles Modern high-heeled footwear buckles the toes and produces corns, and many of the thousands of hospital cases of infection and lockjaw are the result of woman's suicidal habit of trying to cut away these painful pests.

For little cost there can be obtained

at any pharmacy a quarter of an ounce of a drug called freezone, which is sufficient to rid one's feet of every hard or soft corn or callous without the slightest danger or inconvenience. A few drops applied directly upon the tender, aching corn stops the soreness and shortly the entire corn, root and all, ifts right out. It is a sticky substant dries the moment it is applied, and thousands of men and women use it because the corn shrivels up and omes out without inflaming or even ir-

ritating the surrounding tissue or skin

To Her.

Unless the person who found a handbag containing about \$40 in gold and silver, yesterday, returns it, the owner and her family of small children will face a difficult situation during the coming month, for it was all the money they possessed. It belonged to Mrs. A. A. McLeod of Broughdale, and was her separation allowance from her husband, who is with the Canadian forces overseas.

She had just received it and was coming from Broughdale to the northen do postoffice. She believes that she dropped the handbag containing it somewhere between the Broughdale bridge and Cheapside street. There was a letter from her husband in the handbag, which would give a clue to the owner's address.
