Local officials stated this morning, however, that they looked for settlement within the next fortyeight hours. Notification has been received her of several minor embargoes placed by individual railroads in the United States on certain districts during the past twenty-four hours. The only effect that these embargoes will have, it is expected, is that they will extend the territory which has already been embargoed. All embargoes on the different frontiers are still in force. ent frontiers are still in force.

Some freight crossed the borders both at the Niagara frontier and at Port Huron during the week-end. Several shipments have arrived in this city.

There will be little freight shipped out of this city for a day or two after the embargoes have been lifted because of the congestion at the ports of entry which first must be relieved. Superintendent C. F. Forrester, of the local division of the Grand Trunk, said that it would not take long to get things clear.
