but it must remind those who have this country's welfare in their hands that the time is growing short and that something must be done quickly. Some weight should be given to the estimate of the country by the men who are investing thousands of dollars in developing its natural wealth. It is perhaps not unreasonable that the citizens of Sudbury should desire that some well defined policy with respect to silverland should be decided upon at the earliest moment compatible with a fair consideration of the country's needs.

PROSPECTOR A GOOD ASSET His Labors Swell Revenues of the Province.

CANADA AS AN E

I have read.

It is plain from the act. I think, that blacksmith shop with complete equipment has also been erected near where the shaft is being sunk.

There are at least 13 well defined veins on this property, four of which are known to carry native silver, and on the act appears to issue a prospectus for the purpose of inviting persons to the act appears to issue a prospectus for the purpose of inviting persons to the act appears to be that upon every occasion upon which the company desires to issue a prospectus for the purpose of inviting persons to the act appears to be that upon every occasion upon which the company desires to issue a prospectus for the purpose of inviting persons to the control of the act appears to be that upon every occasion upon which the company desires to issue a prospectus for the purpose of inviting persons to the control of the act. I think, that it has in view the issue not of one but of several prospectuses, and the policy of the act appears to be that upon every occasion upon which the company desires to issue a prospectus for the purpose of inviting persons to the control of the act. I think, that it has in view the issue not of one but of several prospectuses, and the policy of the act appears to be that upon every occasion upon which the company desires to issue a prospectus for the purpose of inviting persons to the control of the control o

will be ready for occupation in a day what the prospectus then on file in the secretary's office contained; and—I would leave out of consideration any that are being developed have confirm-ed the recently expressed opinion that James is about to "make good." It is safe to say that some of the best silver mines in this north country will have their location in this township. to the issuing of it liable to the penalties mentioned in section 100.

It seems to me that the whole pur-pose of the act would be defeated if it is practicable to do that which these defendants have done. I have nothing to do with the policy of the act.
It may be that it would sufficiently answer for the protection of the pub-lic if a shorter advertisement were

ing themselves this country will come to its own.

The application of mind as well as muscle is much needed to hasten the development of this region.

That there are numerous beneficiaries from the resources of this land who should buckle to the task of making known this region, and hastening its great destiny, cannot be gainsaid. The press of Dawson always has been a strong advocate of the development of the country, but there are others who should participate and assist. Over should participate and stamps tons. Some of the heavlest stamps tons. Some of the heavlest stamps are: Cinderella Deep, Jupiter, and Knight Central, 1700 lbs. each; Simman Deep, 1670 lbs.; Bantjes, Consolidated, Geduld Proprietary, and Vosolidated, Geduld Proprietary, and Vosolidated, Geduld Proprietary, and Vosolidated, Geduld Proprietary, and Vosolidated four new diamond areas in has located four new diamond areas in the Bembesi district of an aggregate extent of 13 square miles.—Dawson Weekly News.

Meekl Company is Not Liable.

In the other case, I should have had no doubt, in determining upon the case as stated, that a conviction ought not to have been made. Where a company gives an option to a stranger without authority and without authority and without authority and without any action upon the part of the company provisions of the act, I am clearly of opinion that there was another question which was desired to be raised—as to whether there was a violation of the act in consequence of the publication of a prospectus by the company itself, and also a question be open upon the stated case, as to whether in point of fact the company The case ought not to leave it to the court to determine any question

of fact, where there is a dispute, but the question of fact should be determined by the magistrate and the question should be stated in this form:

Assuming the facts to be, stating then it as they are not in the second of the stated and the world's output, \$30,000,000 worth of nickle and copper having been taken out of these mines since they started produced.

started producing.

In 1903, when the T.N.O. Railway were making their road from North Bay to Lake Temiskaming, a black-smith named Artemus La Rose discov-Signing of Advertisements.

Mr. Ferguson: Will you lordship, what turned out to be native silver, but very little notice was taken of the find, even when Prof. Miller, the government of the find, even when Prof. Miller, the government of the find, even when Prof. Miller, the government of the find, even when Prof. Miller, the government of the find, even when Prof. for our information, state in the first case: Mr. Mulvey, I understand, in practice contends that where a prospectus is filed and signed, as required prectus is filed and signed, as required with silver. It was not until the late summer of 1904 when prospectors going into the country made other rich finds, William Meredith in the cases re Garwin and re Cobalt Mines, is herewith given in full. Being the first decision, in test cases, under the Ontario Companies Act, since its amendment, it will be of great interest and value not only to the legal profession but to all who have business propositions coming under the restrictions of the act. A. P. Pousette, K.C., appeared for Garvin and Mr. Ferguson for the Cobalt Mines; Thos, Mulvey, K.C., and Crown Attorney Corley for the crown. The chief justice's judgment reads: be laid before one minister of lands and mines, Hon. Frank Cochrane, by a deputation from Sucrery, consisting of Lands and Mayor president of the board of trade, and Mayor McIeod, why arrived in the city yesterday.

In some cases I know from experience that kind is needed can be done with perfect safety, and nine-tenths of the prospectors trade, and Mayor McIeod, why arrived in the city yesterday.

In some cases I know from experience that kind is needed can be done with perfect safety, and nine-tenths of the prospectors them upon the prospectus filed with the answer to the question is whether the directors for the time being that whatever work of that kind is needed can be done with perfect safety, and nine-tenths of the prospectors them upon the prospectus filed with the necessity for publishing the signatures, but leaves it necessary to have them upon the prospectus filed with the necessity for publishing the signatures, but leaves it necessary to have them upon the prospectus filed with the necessity for publishing the signatures, but leaves it necessary to have them upon the prospectus filed with the necessity for publishing the signatures, but leaves it necessary to have them upon the prospectus filed with the necessity for publishing the signatures, but leaves it necessary to have them upon the prospectus filed would no doubt in time equal Cobalt.

I think, clearly dispenses with the necessity for publishing the signatures, but leaves it necessary to have them upon the prospectures.

Mr. Ferguson: The chief justice's judgment reads:

I think this case is reasonably plating the signatures, but leaves it necessary to have them upon the prospectures.

Mr. Ferguson: The chief justice's judgment of the leaves of necessary to have the latest silver fields, called Gowganda, the latest silver fields,

Share Gowganda's Silver Wealth

VERY man may not become a millionaire, but all may be in comfortable circumstances, if they will accept the oppor-tunities when presented. To-day opportunity is knocking at the door of the man of moderate means, the individual who desires to share the wealth of the vast treasure vaults in the famous silver fields of new Ontario. These we present on a ground floor basis-the only sane and safe basis in which to inest your money in this or any other mining field. You become an owner-not of a few shares of stock in an over-capitalized company-but an owner of the real property and all the silver and valuable mineral it contains. You direct the expenditure of your own savings-the money goes into development of properties—the returns are paid to those men only who have invested real money.

Ground Floor Proposition

One-half interest in three mining claims in diabase formation can be had for \$600 and doing the statutory work. The prospectors who staked these properties prefer retaining an interest. They were among the first to enter this territory and believe the claims are valuable.

Two splendid properties in Shining Tree Lake where big discoveries have been made can be had on the following terms. The prospectors will accept \$1500 for half interest (after inspection of property), providing the purchasers will provide \$4000 for work on properties. These claims have only recently been staked, and show many veins with large quantities of Cobalt bloom, calcite, etc. Owners state they are as good as anything was in Gowganda at same stage of development

Forty-acre claim, near Wigwam Lake, with large vein showing native silver. Six veins show Cobalt bloom. The formation is diabase of highest grade. This is an excellent syndicate proposition and persons forming same should communi-

Gowganda Silver Claims For Sale

Two splendid silver properties adjoining the famous O'Kelly claims, with the rich veins of the latter located on them. These properties were the first staked in that locality and are the choice of the district. A splendid company proposition on

One forty-acre claim adjoining Mann property. High silver values and excellent location. One of the good ones that is still in original owner's hands. Three claims in Lost Lake section, with native silver vein

traced 500 feet. These properties at \$75,000 are very cheap and will be snapped up quickly. One forty-acre silver claim in Bushkong Lake section, with big silver discoveries. This is reported to be a first-class pro-position and we have requested our own engineer to report on

Silver Lake District

In the section which is proven we offer a silver property considered equal to any in the district. Buyers know the value of Otisse, Otisse-Curry and other mines in this locality, and understand what is meant when we say good as the best.

Write or wire for particulars of any property.
