BRAZILIAN LEADER IN BUOYANT MARKET

Cement, Cannery, Steels and Paper Stocks Are Among Strongest Features.

UPTURN IN FOUNDRIES

With the pound sterling soaring again, bullish sentiment on the Toronto Exchange increased in confidence yesterday, and, under the active leadership of Brazilian Traction, the general run of stocks scored substantial gains.

Brazilian was the centre of active buying such as had not been seen in this issue in weeks. A strong opening at 47 was followed by a further advance to 48, and the closing price, 47 1/2, showed a net gain of 2 1/2.

Atlantic Sugar is relatively neglected, only 290 shares being traded in, but the closing price, 97 1/2, showed a net gain of 1 1/2. Dominion Cannery was bought aggressively, and sold up to 40, closing half a point below the best for a net gain of 1 1/2.

The paper stocks were conspicuously strong. Spanish River rose a point to 85 1/2, and the preferred spurred 6 points to 123. The first sale of Rioiron in some days was at 185, a gain of 1/2 point.

War bonds were quieter, with prices steady. In the unlisted group, Black Lake common was again active, slightly more than 1000 shares changing hands, all at 11 1/4, unchanged from Thursday.

Domestic Foundries, in response to a revival of rumors of absorption by the Canadian Car and Foundry, rose from 81 to 84, but the closing bid dropped to 81.

The day's transactions: Listed stocks, \$229, including \$68,850; unlisted stocks, \$277, including \$60 mining.

NEW YORK STOCKS HAVE STRONG TONE

Improvement in International Credit Situation Reflected in Wall Street.

MOTORS LEAD UPTURN

New York, March 5.—Interest in the international credit situation obscured all other events in the securities market today.

Attention was attracted to the reports of the gold situation in London, with the prospect of further shipments from the northern border.

Exchange on Europe, France and other leading European markets again very strong, a maximum of \$3.70 being quoted for demand bills on London before the close of the stock market.

This is an advance of 12 cents from yesterday's highest accepted trading rate and 31 cents over the low record of February.

Dealers in exchange described today's operations as chiefly speculative and based not so much on respect for gold imports as increasing signs that England will adjust her adverse trade balance in due course.

Stocks were generally strong. Popular shares of the motor and oil varieties dominated the dealings of extreme range of 2 to 8 1/2 points.

Strength of these issues was coincident with further advance in prices of crude and refined oils, an increased dividend for Chandler Motors and rumors of an early rise in prices of auto tires.

Steels, equipments, shippings and sundry specialties participated in the advance, which touched 1/2 cent in the later dealings. Exchange then was stronger and call loans eased from the nine per cent. opening rate to six per cent. Sales amounted to \$75,000 shares.

Action from the firmness of foreign issues, the bond market was featureless, most domestic rails and industrials showing irregularity with the Liberty group. Sales were valued at \$12,750,000. Old United States bonds were unchanged on call.
