NATIONAL SAILING PROGRAM.

The National Yacht and Skiff Club's racing program opens the season on May 24, and keeps on sailing until Sept. 20. There are in all 22 races, exclusive of the big Lake Sailing Skiff Association events, which are to be held for the first time in the club's history on the national course, just outside of the western gap. The schedule follows:

May 24—Fourteen-foot dinghies, 16-foot skiffs and special class.
May 27—Five round island, all classes (clubbing rules).
June 10—Fourteen-foot dinghies, 16-foot skiffs and special class.
June 24—Fourteen-foot dinghies and 16-foot skiffs.
July 1—L. S. A. A. regatta at N.Y. and S. C. Toronto.
July 8—Cruiser to Credit.
July 15—Fourteen-foot dinghies, 16-foot skiffs and special class.
July 29—Hallam Cup, all boats (handicap).
Aug. 5—Cruiser to Oakville (Whitton shield).
Aug. 10—Fourteen-foot dinghies, 16-foot skiffs and special class.
Sept. 2—Cruiser (destination not yet decided).
Sept. 9—Spanner Cup (specials).

Rowing Regatta for Buffalo.

Buffalo, March 25.—The second meeting of the recently organized Buffalo Association of Amateur Rowers was held in the Iroquois Hotel. President Thomas was in the chair and the club representatives were the Mutual, Celtic and Lighthouse. A favorable report on the constitution, which is patterned along the Middle States Association, was made by William Auman of the committee on constitution and bylaws. Hereafter each club will be represented by five delegates.

It was decided by the association to hold a big regatta on the Fourth of July. A committee will be appointed shortly to wait on the proper city officials with a request that the authorities take some special interest in this effort to promote a healthy outdoor sport.

The regatta planned for will be a stupendous affair. Aquatic races will compose the main feature of the program but there will be other events also among this line.

U.O.C. Boxer for Tournament.

Following are the results of the boxing finals held at Upper Canada College on Friday evening. Dr. Peacock and S. H. Howard being the judges. Dr. J. D. Thorburn referee, and C. S. Norris timekeeper.

Second round, lightweight—H. H. R. MacDonald defeated Walter Willison.
Final, bantam—Red defeated Paton.
Final, featherweight—Matthews defeated Stuart.
Final, lightweight—H. H. R. MacDonald defeated Willison.
Final, middleweight—Sutherland defeated Orr.
Final, heavyweight—Clarkson defeated Hutton.
Lightweight championship—H. H. R. MacDonald (winner in lightweight class) defeated Matthews (winner in featherweight class).
Heavyweight championship—Sutherland (winner in middleweight class) defeated Clarkson (winner in heavyweight class).
H. H. R. MacDonald made such a good showing that he has been urged to go in for the lightweight championship at the coming Canadian championship boxing tournament, under the auspices of the Argonaut Rowing Club, and will probably accede.

Parkdale Won League Shoot.

At a league brierock shoot on the grounds of the Nationals Saturday, the Parkdales won by an average of 17-3-3, against 16-4-5 average of Nationals. The following is the score:

Nationals—Harrison 22, W. Spanner 18, Vician 18, Waterworth 19, Granger 25, O. Spanner 14, Matthews 16, Turner 16, Mulvey 21, Wallace 12, Clark 13, Monroel 19, Ross 15, G. Monroel 13, Taylor 11; total, 252; average, 16-4-5.
Parkdale—Thomas 15, Daley 15, Reil 19, Maywood 19, Sanderson 16, March 16, Carlyle 17, Pagan 20, Rirch 20, A. Wolfe 19; total, 176; average, 17-3-3.

Daily and Sunday papers—Morning Telegraph or Chicago Form. Joe McLachlan.

Disraeli's Dress.

A contemporary of Disraeli in his memoirs records his impression of that famous dandy's personal appearance. "I saw him wear a state colored velvet coat, lined with satin; purple trousers, with a gold braid down the outside seam; a scarlet waistcoat, long lace ruffles falling down to the tips of his fingers; white gloves, with brilliant rings adorning them, and long black ribbons rippling down over his shoulders. When he spoke in parliament he was accustomed to wear a bottle green frock coat, with a white waistcoat, collarless, and a copious supply of gold chains."

BASEBALL AT BALMY BEACH.

The ball-in section of the Balmy Beach Club have organized a baseball club for the season, and have elected the following officers:

Councilor J. McP. Ross, hon. president; R. J. Winsor Barker, president and manager; Fred Lynde, vice-president; H. J. Ross, treasurer; Hank Philpott, secretary; T. F. Hodgson, captain.

The following have signified their intention to play with the team: T. F. Hodgson, Jim Wallace, Heck Ross, Hank Philpott, E. E. Popper, J. A. Pape, Sandy McKay, Allan Brady, M. J. Kelly, Silver Jones, Harry Kennedy, J. Pierpont Oakley (manager). Kindly send all communications to the secretary, Hank Philpott, Balmy Beach P. O.

Pastor Stays With Rochester.

There doesn't seem to be much chance of the local baseball club getting shortstop Pastor from the Rochester Club. The Herald says:

"The Toronto baseball management is leaving no stone unturned to provide the Canadian city with a first-class team this year. Wherever there is a possible chance to effect a trade or buy a player the managers are always on hand with a proposition. The latest deal that the Toronto people would like to pull thru is one whereby Tony Pastor, who has been secured by Manager Buckenberry to cover short for the Rochester team, will be secured, and Louis Carr, the Canadian third-baseman transferred to Rochester. That the Rochester manager pooh-poohed the idea goes without saying. They realized that Carr is a good third-baseman, with few equals in the minor leagues, but in Pastor they also realize that they have the coming shortstop of the Eastern League, if his work for three seasons in the New England League can be taken as a criterion. The reason for the deal to secure Pastor is as plain as day. Soffel, who is now the south with Connie Mack's Philadelphia Americans, will soon be transferred to the Canadian team. Soffel has played for years on second base with Pastor at shortstop, and it is said that the two cover me and play together better than any two minor leaguers in the business. With Pastor in the s-o-t garden for the Canuks, there is no telling where Dick Harlow's bunch might land, but as far as Rochester is concerned there will be nothing doing. Pastor will fill a long-felt want on the local team, and to let him go for Carr, over me and play together better than any two minor leaguers in the business. In J. S. Kennedy and O'Brien Rochester will not be found wanting for the third sack material."

Eastern Schedule This Week.

Newark, March 25.—President Powers today wired to all the Eastern League baseball managers asking them when it would be most convenient for them to attend the league schedule meeting in New York. Manager George T. Stallings of Buffalo, who has to come all the way from Augusta, Ga., and Ned Hanlon of the Baltimore Club from Columbia, S.C. The schedule is all ready for adoption, and it requires only the approval of the managers at the meeting before it will be issued. It is likely that the session will be held next Thursday.

First Baseball Practice.

The Alert baseball team held their first practice of the season Saturday afternoon in Sunlight Park. The grounds were a little good workout, but ten of the players had a very good workout.

Basketball.

The most interesting game of the year in the Basketball Senior League will be played in the West End Y.M.C.A. gymnasium next Saturday night. The Central and West End seniors will meet for the first of the home-and-home games they have to play to close the Ontario championship series.

It is probable that both Malcolm and Taylor of Hamilton will be sent down to officiate.

The West End Boys' team will play a picked team from Central on the same evening, and the Junior Ryerson School team will play the Junior Palmerston School team.

Advice on Marriages.

Tennyson once attended a dinner where G. L. Craik proposed "The Ladies." In doing so he recalled the "crucial advice" given by a brother Scot to his children: "Take my advice and don't marry for love. You can borrow cheaper." Some time later Tennyson, at his own table, repeated Mr. Craik's story, but expressed the idea without attempting dialect. His son, William, remarked: "Surely, father, Craik did not use those words." "No, he did not," but Craik is a Scotchman and I am afraid to venture on repeating him exactly. However, it's almost as good in English as in Scotch and it's tremendously true in both.

LONDON'S SENIOR LACROSSE CLUB.

Matter Will Be Settled at Meeting on Monday Night.

London, March 25.—The announcement some few days ago of the probability of a senior lacrosse team to represent London in the Canadian Lacrosse Association, has awakened considerable interest amongst the lovers of the sport in the city, so much so that the promoters of the idea have felt that a meeting should be held at an early date to complete the organization of the club.

The matter will be finally settled at a meeting on Monday night at the New Bernard House, when all interested in the project are invited to be present. Those who are pushing the team are anxious that the meeting be a large one, so that the views of many may be heard, and that the team will be started under the most encouraging conditions, as soon as the weather permits.

Preston Lacrosse Club.

Preston Springs, March 25.—(Special.)—A large and enthusiastic meeting was held here last night in the Poupars Hall to organize a lacrosse team for the coming season. Prospects were discussed and a line got on a promising bunch of local stick-handlers, who should give a good account of themselves, when they once get into the game. The following officers were elected: Hon. president, George A. Clark; vice-president, Frank Moss; first vice-president, A. D. Pritchard; second vice-president, Wm. Stahlenschmidt; third vice-president, J. Schott; secretary, R. H. Everett; treasurer, H. James; manager, Thomas Yates; captain, H. Nix; managing committee, W. Gordon, Joe Daniels and Wm. Pick-up.

DECEIVED SAMARITAN.

Tramp's Flight on the Horse of His Benefactor.

Dublin, March 20.—An Irish farmer who acted the part of the Good Samaritan, even to the extent of putting a needy wayfarer on his own beast, is now inclined to think that the Levite's was the more discreet policy.

His name is O'Shaughnessy, and he lives in Glinn, County Limerick. He met in a village a needy tramp, travel stained and hungry, who—so he said—was seeking a prodigal son and stood sadly in need of compassion.

The tender-hearted heart of Mr. O'Shaughnessy was touched. The tramp drank at the nearest public house at his new friend's expense, and was invited to spend at least one night at his hospitable home.

They set out soon, Mr. O'Shaughnessy riding his best horse and the stranger walking at his stirrup. But the farmer was too tender-hearted to acquiesce in this arrangement. He dismounted and begged his guest to ride, saying he would walk alongside.

The stranger, moused, and as he did so he dug his heels in the horse's ribs, and in an instant was galloping down the road, leaving the astonished Mr. O'Shaughnessy glued in his footsteps. The road here skirts the Shannon for miles, and the farmer had to endure the sight of his best horse disappearing at a gallop into the distance and to listen to the clatter of hoofs that gradually died away.

'Till yesterday the curiosity of the police as to the whereabouts of Mr. O'Shaughnessy's mare has not been satisfied. Nor can any trace of the Celtic Turpin be found.

How to Tell a Liar.

Do you want to read the character of the men and women with whom you are brought in contact? Watch their eyes, head, hands, and walk, and the matter becomes simple as reading the first book in your library. If you only observe the rules laid down here, the Chicago Credit Men's Association at the Great Northern Hotel, by Charles F. Rogers, who has made a study of character reading for 16 years.

Dr. Rogers' advice you can tell almost at a glance the hidden idiosyncrasies of character of anyone you meet.

Here are Dr. Rogers' rules:

First—A man who presses his thumb on the back of your hand when shaking hands is a liar.

Second—The man who never presses his thumb against his chest when shaking hands is a liar, and the higher he keeps his thumb the stinger he is.

Third—A man who shakes hands with the tips of his fingers only is not to be trusted—he may pay one debt, but he will never pay the second.

Fourth—When a man gives you a listless and lifeless hand, which you have to shake, beware.

Fifth—You can tell a liar as far as you can see him by watching his eyelids. If the eyelids cut off the eye at the outside corner, dropping over it, the person is a stranger to the truth, and has only heard of veracity as a word in the dictionary.

Sixth—The person who shows white all the way around the eyeball are persons who prevaricate.

Seventh—When a person's head is bigger at the back and sides than at the front and top, the animal predominates over the intellectual forces.

Eighth—In judging women, the essential things to be observed are the lips and eyes—pay no attention even to powder and rouge in your estimate of female character. The woman with a thin upper lip—like a streak of red—is not only cold-hearted, but clammy.

Ninth—If a woman's eyelid cuts off the eye at the corner she is a liar, like the man with the corresponding eyelid.

Tenth—If she has white all the way around her eye who does not tell the truth.

Eleventh—Beware of the person, man or woman, who does not look you straight in the eye. If he or she examines the wall or the sky or the dog, make up your mind that you are dealing with one who is insincere.

Twelfth—Courage and force of character are shown by the person who walks with his head held up in the air.

Berlin's Clean Streets.

There are in use within the municipal limits of Berlin, exclusive of suburbs, 7,425,384 square yards of paved streets, which have an approximate length of about 300 miles. The pavements are divided, according to material and method of construction, into three general categories, as follows: Asphalt, 2,696,448 square yards; wood, 106,312 square yards and stone, 4,644,524 square yards, in which latter group are included 1246 square yards of cement macadam and 178 square yards of small stone blocks on beton foundation, laid for experimental purposes. All these pavements are cleaned frequently, a large part of them daily, by a carefully organized corps of 1534 men and boys, which can be increased by taking on extra men in case of snow or other temporary stress of duty. During 1961 the wages of the regular street-cleaning force amounted to \$513,706, besides \$15,297 paid for extra help. During the year there were collected and hauled away 156,692 wagon loads of ordinary street dirt and 47,259 loads of snow, the latter being generally dumped into the river and canals within the city limits.

Are you open to conviction?

We know we can clothe you better than most custom tailors.

We know that there are only three or four tailors in Canada that can clothe you as well.

Then we save you money—the money you are paying your tailor for running over your figure with a tape-line.

Let us prove it to you.

We want you to try one of our Blunoz Serge suits this Spring. If you are not living near one of our wardrobes, we will send it direct to you by express. The price is \$18.00. You will find it the best clothing investment you ever made. Let us tell you why.

By our system of physique types we can guarantee you perfection of fit. The few measurements which we wish you to supply place you in a certain class of a certain Semi-ready type.

The suit that is made for that type will fit you perfectly. Each seam will fall in its proper place—the collar will fit snugly to the neck—the coat will have just the proper hang.

Semi-ready tailoring is the best in the world—specialization has made it so.

You see, where the best custom tailors give one man an

entire garment to make, we give it to 35 or 40 specialists. Each one of these men has been picked out because he is an expert in some particular point of construction of a suit. Thus we have experts working on collars, sleeves, stitch-moulding shoulders, interior construction, sleeve holes, etc., and these experts do nothing else but their particular speciality. No wonder Semi-Ready tailoring is so perfect.

Blunoz Canadian Serge—of which these suits are made—is manufactured exclusively for us by the only mill in Canada that can turn out such a high quality fabric.

We have control of the output, so you can't get this serge in any but Semi-ready tailoring.

Blunoz Serge has a cheviot finish, and comes in black and blue, absolutely fast color. We guarantee it.

First of all, if you haven't received one of our beautifully illustrated style books, send for it to-day. It contains illustrations, taken from life, of our spring styles of suits and overcoats—it shows them exactly as they are. This book also contains a self-measurement blank which gives all the particulars of measurements we require to give you perfection of fit.

The book is free, write for it to-day. A post card will do.

The Semi-Ready Clothing Co. Ltd.
508 Guy Street, - MONTREAL

ounted to \$9,000,000.

The fire losses of 1961 exceeded those of 1960 by \$55,000,000, the latter year was able to increase the companies' assets by the figure given and at the same time to make a dividend larger by \$450,000 and pay \$6,000,000 more for operating expenses, salaries and so on. Two or three big losses are made much of, but the steady and immense volume of receipts finds scant mention.

It is the enormous cost of doing business, owing mainly to the commissions and ponderous salaries paid, that keeps up the high rate of insurance. Nobody in the business seems to think of conducting it on any ordinary basis of economy. That it should require \$9 to handle every \$13 paid out for fire losses is a fact that makes its own comment. The practice will continue as long as business men are content to separate themselves from their money for policies on such terms.

MOTURING N

Whiskey Used to Run Detroit Tribune: For the history of the automobile, the use of a mixture of gasoline, kerosene, alcohol and whiskey. A single-cylinder engine was used in the Thru a funnel gasoline was sent to the engine, followed in a mixture of all four, an "oil" tail. With the gasoline obtained the usual speed, some added still greater speed, the engine continued to run on a mixture of alcohol and then on a mixture of whiskey. The surprise of the test, a car all four worked as well as other fuels and a speed of 100 miles per hour was obtained. The feature of the work was adjustment of the carburetor when the fuel was changed.

Motor Plows in Italy: Motor plows have been tried in Italy. The plow from side to side of the cables wound on drums. The current, it is from neighboring trolley.

Sweden Has a Mobile Manufacturer: Altho Sweden has a mobile manufacturer and he held next April. The being organized by the mobile Club, will comprise automobiles, delivery vehicles, automobiles and appliances and military.

The Original "You must never buy a new automobile. I don't," answered a new automobile. "I bought it."—Washington Star.

Profits of the Automobile: The profits of the Automobile Club of America held at Madison Square, York, last January, were \$59,933.93, as first reported the Madison Square Garden 40 per cent., or \$22,000,000. National Association Manufacturers each received, or \$16,780.18. The receipts of the Club.

We

For a

On every bottle of Liquezone for a disease germ-kill. We do this to Liquezone does kill germs. And it is the only way germs in the body with tissues, too. Any drug is a poison, and it can internally. Medicine is in any germ disease, which gives Liquezone humanity; a worth testing the product through physicians and paid \$100,000 for the And we have spent dollars, in one year, bottle and give it free who would try it.

Acts Like

Liquezone is not a powerful drug, nor is it in it. Its virtues are from gas—largely oxygen, requiring 100 and 14 days' time. For more than 20 years, stant subject of scientific research.

The result is a liquid oxygen does. It is a blood food—the most the world to you. Its exhilarating, vitalizing, is an absolutely certain reason is that germs and Liquezone—like a gen—is deadly to
