BROOKLYN HAS ANOTHER STRANGE MURDER CASE

Wife of Victim, Herself Shot
Beside Him, Slept on

Says She Did Not Know
Anything About It Until
She Was Awakened by
Her Mother.

New York, April 1.—The Brooklyn police today had another mysterious murder to solve when Dennis Meehan, said by the police to be a notorious leader of gunmen, was shot dead while asleep in bed with his wife. The bullet

passed through Meehan's head and wounded his wife in the shoulder, but she told the police later she was sound asleep and did not know she had been shot or that her husband had been murdered until awakened by her mother. The police learned that an automobile containing five men stopped near the Meehan home during the afternoon and all entered the house. Soon afterward, according to witnesses, the men came out and drove away.

Mrs. Meehan's mother, who lives in the house, told the police that she, too, was asleep in another room and was awakened by a peculiar noise in time to see a man going down stairs. A few minutes afterward she entered her daughter's bedroom. Blood stained her clothing attracted her attention and the murder was revealed.

Meehan, the police say, has a long criminal record and specialized in providing strike breakers.

Arrest Made in Bridgetown Tragedy

Bridgetown, N. S., March 31.—John Everson was arrested this afternoon by Chief of Police Gillin in connection with the burning of the Everson house and the death of his brother, Fred. His preliminary examination will take place next Wednesday afternoon before Magistrate Fry, of Bridgetown.

In the meantime Coroner Armstrong has arranged with the attorney-general to have an expert sent from Halifax to examine the remains to ascertain if the limbs and other bones in the body had been broken before the fire took place and to make a thorough search for a bullet or shot. It is reported that same of the neighbors heard a gun fired in that vicinity previous to the fire. This, if true, will be brought out at the continuation of the coroner's inquest on Saturday afternoon. The excitement is intense around town tonight and everyone is anxious to obtain and help circulate the latest news in connection with this terrible tragedy.

A fire occurred about 5.40 last evening in the York Point fish shed. The gasoline from a gasoline engine caught on fire and for a few minutes there was quite a blaze. The fire alarm at

ECZEMA IN RASH CUTICURA HEALS

On Face and Head, Itched and Burned, Disfigured.

"Last year I became affected with eczema. It started on the cheeks in a rash, and the water spread and made my face sore all around the ear and partly on my head. The skin was very sore and red, and the breaking out itched and burned so that I could hardly help scratching. My face was very disfigured. Then I used a free sample of Cuticura. It helped so I bought three cakes of Soap and one box of Ointment, and my face was healed." (Signed) Miss Martha Berger, Spanaway, Wash., Feb. 11, 1919.

LOCAL NEWS

Two freight cars were derailed for a short time yesterday near the Ballast Wharf, but were replaced without difficulty.

The trout fishing season in New Brunswick opened this morning, but because of ice and high water it is safe to say that few fish will be taken out of the streams just now. The season was opened from a legislative hearing will last until October 1. The trout

regulations are as follows: No one shall at any time fish for, catch or kill trout by other means than angling with hook and line; the export of trout is prohibited, except not more than twenty-five pounds by any person catching the fish; no one shall by angling take in one day more than thirty speckled or brook trout, or more than will in the aggregate weigh more than ten pounds; the taking of trout through the ice is prohibited.

In 1803 a scientific man named Drummond discovered one solitary aronia plant in the woods of St. Tammany Parish, La., and it is cherished today at the Arnold Arboretum. Now Harvard has written to New Orleans asking to have Louisiana search again for the rare growth, and the New Orleans Garden society has offered a prize of \$5 for the discovery of another aronia plant. Harvard also wants Louisiana searched for a certain variety of ash, discovered near New Orleans about a century ago and never seen before or since.
