In Memory of W. T. Stead
Boston, July 31—Wreaths fashioned
by members of the family of William
T. Stead, London editor and author,
who was lost in the Titanic wreck, were
cast into the sea from the deck of the
Cunard liner Franconia as that vessel
lay with engines stalled, over the grave
of the Titanic last Sunday afternoon.

Fifteen hundred men and women stood
with bowed heads during the ceremony,
while the ship's band played "Nearer
My God to Thee."

Wall Street Notes

New York, July 31—Americans in
London steady, mostly 8-10 to 8-11 higher.
Bent & Englehard unchanged, 100
cents 75, unchanged.

Washington does not think McAdoo
is any proof of his resignation against
the bank. President said to be displeased.
N. Y. C. expected to buy 100,000 tons
railroad iron.

Southern Pacific will ask for medi-
ation in their trainmen's strike.
Cons. Gas directors meet today.

Atchafalca sells N. D. 1 1/2 today.
The buying from abroad is still largely
speculative. Reports are coming to
the financial district that Canada will
need considerable money to move her
crops.

Trade balance is against the dominion
and this condition is likely to prevail
until shipments of grain are made in
volume.

In the Stock Market the trading ele-
ment on the floor has been working for
a reaction for some time and with the
sentiment that a reaction was overdue
gaining ground, a situation has been cre-
ated which gives more weight to unfa-
vorable news than to favorable news. To-
day's market likely to be irregular and
a trading market seems likely for a
while. Steel would sell higher, but for
the government suit.

BRITISH WOMEN GOLFERS TO PLAY IN CANADA

New York, July 31—It is reported
that definite assurance has been received
that Miss Gladys Ravenscroft, champion
among the women golfers of Great
Britain last year, and Miss Muriel Dodd
who recently won the title, will visit
America this year. They plan to go to
Canada first to compete in the cham-
pionships there and then to come on to
New York for some local tournaments
and then proceed to Wilmington, Del.,
for the world's championship of the
United States.

had disappeared for this season.

British Empire Parliamentary Party at Ottawa

In the back row to the left of the gentleman with the pointed beard is Captain D. V. Pirie; second to the right of him is Arthur Shirwell. In the row below him, on the left, is Major Chambers, usher of the Black Rod, and secretary of the Canadian branch of the association; next to him, to the right, is Sir Stephen Collins, Stuart Wortley, Lord Emmott, Hon. George Perley, Col. Sir Everett Carleton, Lord Sheffield, Miss Roche, daughter of the minister of the interior, and Howard d'Evilley, honorary secretary. Third from the left in the front row is Lady Emmott. Third from the right is Miss Pirie, and on the right, Hon. Dr. Roche, minister of the interior.

Port Arthur, Ont., July 31—The British parliamentarians who arrived here Wednesday, were guests of J. J. Carrick, M. P. After a yacht trip round the Twin City harbors, they expressed astonishment at the development of the port, and the facilities for handling the crops.

THIRD DIVORCE IN THIS MATRIMONIAL TANGLE

London, July 31—The third of a series
of divorces in the matrimonial tangle re-
sulting from the relations of Hugo Ames
and Mrs. Wilson, which have been the
subject of a long and bitter legal battle,
has been granted yesterday, when a decree
was granted to Charles R. Wilson.

According to the evidence in the suit,
which was undenied, the Wilsons
lived together for eleven years and had
one child. Mrs. Wilson left her husband
in 1908 and in 1910, she filed a petition
for divorce on the grounds of desertion
and misconduct, which was dismissed.

Ames had gone to America, obtained a
divorce from his wife in Idaho, and mar-
ried Mrs. Wilson and asked for his ar-
rest on a charge of bigamy on the ground
that the divorce obtained by him in the
United States was not valid in England.

Ames and Mrs. Wilson were tried in
the king's bench division of the high
court, and each sentenced to imprison-
ment for six months in April 1912 on the
bigamy charge. The decrees of divorce
obtained by them in America were not
worth the paper on which they were
written.

Ames and the woman he regards as
his wife, are writers on sociological
questions. Flora Norbeck Wilson is the
author of "The Book of Divorces: Its
Use and Abuse," and this is dedicated to
Ames. Ames' works include "The Position
of Woman," and "The Problem of Sex."

A CANOE TRIP

John Smith, paying teller in the Bank
of Nova Scotia in Montreal, has been
visiting his parents, Mr. and Mrs. R. L.
Smith of English street, with his elder
brother Lester, and younger brother
Percy, he left last Friday for Grand
Port, where he took a canoe along with
them, and a card from Lester says that
they concluded on looking over the situ-
ation of the falls. It was their inten-
tion to come down to the mouth of
the Toulouine and do a little fishing in
the river, then to come down the main
river and spend Sunday at Fredericton.
John, however, was to leave the party
at Woodstock, returning to St. John and
going to Campbellton for a day before
returning to Montreal. His brothers
Lester and Percy will come leisurely
down the river, spending Sunday, the
10th at Public Landing and then pad-
ding down to St. John.

POOR RIVER SERVICE

Complaint is made by patrons of the
steamers on the river that the latter do
not always stop for passengers when
signalled. On Monday of this week more
than twenty persons were on the wharf
at Public Landing ready to take an af-
ternoon steamer for St. John. The Vic-
toria and the May Queen came along al-
together, and although they were sig-
nalled neither of them stopped. It was
important for some of those on the
wharf to reach St. John that day and no
other steamer came along; hence they
were put to great inconvenience. One
of the things that is greatly needed is a
satisfactory steamer service on the St.
John River.

Conference Here Re Refinery; Statement of Building Plans

An important conference regarding
the construction of the plant for the At-
lantic Sugar Refineries, Ltd. is being
held here today. F. H. Anson, president
of the refineries company, Howie Hol-
gate, consulting engineer; E. Remington,
president of the Foundation Com-
pany, which is building the foundations
for the buildings; E. G. M. Cape, who
has the contract for the superstructure;
J. A. Grant, the latter's superintendent;
F. Star, Ltd., the designing engineer,
will be present at the conference.

An inspection of the work which has
been completed, will be made and ar-
rangements for continuing the work will
be discussed. It is understood that there
are some changes to be made in the
original plans and these will be con-
sidered also.

The foundations for four of the build-
ings have been practically completed
and the work of erecting the structures
will be commenced immediately on the
arrival of the structural steel which has
been ordered and is now on the way.

The progress of the work will be
discussed by the three other build-
ings will be proceeded with and as
soon as they are complete the build-
ings will be erected on them also.

Mr. Cape, the contractor for the su-
perstructure, said this morning that it
will be their policy to employ local labor
and purchase their materials in the city
to as great an extent as possible. They
expect to have the steel work for the
first four buildings completed within a
month and the balance of the work on
these buildings completed within a
few months. The other buildings will
take a few more months but everything
should be ready in less than a year.

The progress of the work will depend
somewhat on the time in which they
can get the structural steel here and
this will also affect the number of men
employed, which will range from 100
to 400 men.

CITY AND THE COAL

The coal situation engaged the attention
of the city commissioners this
morning. They had expected to open
tenders for coal supplies for the various
city departments but no tenders were
received. An inquiry made by the com-
missioners at the offices of R. P. & W.
F. Star, Ltd., elicited the information
that this company could not supply coal
at the usual prices paid by the city ex-
tending to a total of 40 cents a ton.

Mr. Starr explained that there is a
very heavy demand for coal at present
owing to the report that there will be
an advance of fifty cents at the first of
next month for which, he said, there is
no doubt. He said that the city com-
missioners should be satisfied with the
coal they are now using, as it is the best
secured in New York in any quantity
for which the purchaser can furnish ves-
sels for transportation but no orders are
being taken for future shipments.
