

THE
Faculty of Medicine

OF THE

UNIVERSITY OF BISHOP'S COLLEGE.

The 20th session of this Faculty will commence on Wednesday, the first day of October, 1890, and will be continued regularly until the end of March, the usual Christmas vacation intervening.

The Faculty of Medicine of Bishop's College aims at imparting a thoroughly practical medical education, and its facilities for doing so are in many respects unequalled in Canada. In addition to the regular courses of didactic lectures, students have the advantage of extensive and varied hospital privileges.

The General Hospital, Hotel Dieu Hospital and Dispensaries afford every opportunity to students of this College to receive clinical instruction in medicine and surgery. At the Western Hospital and Women's Hospital special advantages are afforded for the practical study of Obstetrics and Gynecology.

The College building contains large lecture rooms, several smaller lecture rooms for Practical Chemistry, Histology, etc., and large, airy, well-lighted dissecting rooms at the top of the building, isolated from the rest of the class-rooms. Under the new Anatomy Act of the Province of Quebec, ample material for dissection is provided at a moderate rate.

The Histological Laboratory is supplied with a complete outfit of Microscopes, microtomes, and of Bacteriological and other modern apparatus.

This Faculty is recognized by the Royal College of Surgeons, England, and the Royal College of Physicians, London. Class tickets for the various courses are accepted by these Colleges as qualifying candidates for examination. The Royal College of Physicians of Edinburgh, the Royal College of Surgeons of Edinburgh, and the Faculty of Physicians and Surgeons of Glasgow also accept the class tickets of Bishop's College, and the Diploma of this University exempts its holder from being examined on the subjects of the Primary branches and Matriculation. Such candidates are therefore only required to
