

6, and with the coffee 61. Thus the addition of pure water affected the digestion little, but the tea and coffee lessened t materially. In this experiment the egg was chopped into millimeter cubes. a previous trial, in which the egg was not ropped so fine, the presence of tea and coffee was even more unfavorable. The plant drosera (the sundew), whose nsect-catching proclivities have been celebrated by Darwin and others, can cap-ture even small butteflies. Professor Trail, a Scotch naturalist, lately observed nearly a dozen butterflies within an area of a few square rods, all firmly held by the viscid secretion of the plant.

Photography has been applied to the study of the human skin by Dr. Schiff of ienna. A bright light is projected on the part of the skin to be examined, and by direct exposure, markings not usually liscernible, are photographed. The enlarged positives show these details with

great clearness. Dr. Thorne, of the local governm board of England, says that in the Welsh valleys (where the houses are a sort of half "dug-outs" in the hillside,) the people get ordinary sore throats during the cold weather and pass the infection to each other, growing worse and worse, until it culminates in an outbreak of diphtheria. This corresponds with the fact that croup so often runs into epidemic diph theira. Dr. Thorne infers a progressive increase by successive transmission in the virulence of the organism. It has been likewise found that the microbe that causes pneumonia is one that is generally found in the excretions of ordinary nasal catarrh and also in the mouth; that it lies there dormant for a long time some reason that we do not know, finally acquires virulent properties and becomes infections.

## THE VICTORIA WEEKLY TIMES, FRIDAY, MAY 20, 1804.

## TARIFF MANIPULATION. followed. The contract did not govern the settlement. Consequently the audi tor-general decided that, in his opinion "the government cannot modify the con-The Game Carried on by the Tory tract after the work has been completed. The government is a trustee for parlia-ment and the people, and it is not justi-fied in accepting less for its principals than it may legally obtain, or, which is Government and Favored Manufacturers. History of "Hard Pan" Cases, Out of the same thing, is not justified in paying Which Another Scandal Has Arisen. (From our Own Correspondent.) Ottawa, May 14.—So much attention has been given to the tariff this session has very little else has been done. It is eight weeks past on Thursday last since liament met, and the tariff is not yet at of the committee. There has been no big speeches or no obstruction on the part anybody but a new tariff has been by the judge." of any body but a and any body knows under preparation, that this cannot be given to the public in day. There has been considerable ana day. I delay on the part of the government. In the first place, a tariff with more or less beneficial reductions was announced by the minister of finance when the trial. The auditor-general continues in his letter: "If the result at which the delivered his budget speech. Due judge has arrived, under the instructions redit was give to the administration for of the order-in-council, had been looked the decreases in certain items which have been of benefit to the taxpayer upon as a preliminery to laying before parliament the fact that the government, just as far as they went. But what happened? Delegation after delegation not being authorized, without direction from parkiament, to pay the money, and thinking that the claim was an equitable visited the city and interviewed the government. Following this came the announcements of clerical errors. But before the arrival even of these delegates, before even the ink was dry on the pages if the Hansard containing the minister of finance's speech, the representatives of the privileged classes in the house had. compelled Mr. Foster to change sever.d items of his new tariff. Readers of the Times will remember that the very uext morning after the budget was delivered there came an announcement that "dem-ocrat" wagous, starch and other ardcles were changed back. The Conservative whip makes "democrats" and the mem-

one, sought the sanction of parliament by submitting an estimate for this class of payments, accompanied by a stats-ment conveying all the facts, parliament would have had an opportunity of giving or declining to give its assent." He could, however, "find nothing in the estimate to indicate that these claims are ber for Grenville is secretary-treasure; under the guise of a payment of claims which had been settled by the exchequer court under the law, but which really of the Edwardsburg Starch Pactory, From that day onward there has been change after change, so that very little of the new tariff, as proposed in the bud-get speech, remains. The old specific Ju-ties have in many instances been restored was for claims for which there was not a vestige of legal obligation. and the ad valorem duties have in other FREAKS OF A MANIAC. cases been increased. ases been increased. There is somthing in all this which A Sanctificationist Suddenly flies off the brings back to one's memory the con-dition of affairs in 1877. At that time E Se SHandle, .... Mr. Mackenzie and Sir Richard Cart-Tacoma, May 21.-D. S. Lambert, one wright were approached by the manufacof the leaders of the sactification moveturers and offered their support in return ment that has been eliciting a great deal for a certain amount of taxation which the government would take from the of interest at Old Tacoma the last three masses to go into the pockets of these weeks, became suddenly and violently inmanufacturers. It was on that occasion sahe last evening about 7:45. He was that Sir Richard Cartwright, after being overpowered, taken to the Old Tacoma offered the kingdom of power from these jail, where he will be held for examinamen if they got what they desired, told them to go to the evil one. For this he tion until Monday. The victim was supported by charity; is perpetually abused by the government as he had been an invalid several years, and their followers. Well, to-day we are seeing the very same thing repeated at and from November to the latter part of Ottawa. The people are loud in their demands for tariff reforw, and the government was willing to let in the thin on him since 1885. After lingering with nd of the wedge. The opposition conhis last sickness five months or so, ae surprised his physicians one day with the gratulated the government on its first steps which would make tariff reform announcement that he was totally cured possible. The alarm was at once soundthrough sanctification. He followed this up by attending the sanctification meetings. He testified that Chr.st had healed him, declared he had not a ed by the monopolists and an attack was made on the government. The threat to withdraw support from the administra-tion had its effect, and to-day we see the tion had its effect, and to day we see the good promises of the government result. in naught. Had Mr. Mackenzie yielded and his enthusiasm was continuously on he would have retained the support of the increase.

DEVILISH IN CONCEPTNON. Striking Huns Attempt to Commit an

Awful Outrage.

Wilkesbarre, May 21.-A plot which for fiendishness has rarely been equalled in the annals of crime in this section was nipped in the bud to-day through the confession of one of the Keystone more for work than it is called upon un-der its contract to pay." "This matter," he declares, "if it was to be brought becolliery rioters. He said the strikers had secured nine kegs of giant powder amost enough to destroy half the city and secreted them near the house of Foreman Heslops. This evening, had it not been for the arrest of the ringfore the judge of the exchanger court for the purpose of securing a legal finding, should have been brought before him under the contract, and not under an eaders of yesterday's riot, it was the order-in-council which requested him to intention of the strikers to put the powder under the houses of all the bosses find a certain obligation to exist, whether of the mines and set it off. The result there were obligations under the contract would have been terrible, taking into and that in conformity with directions or not. In my opinion, all the obligations consideration that the families of the bosses number nearly one hundred pershould have been found in the contract Despite this evidence against the Therein is the kernel of this subject. ringleaders of the riotous Huns, the six The opinion which the auditor-general men who were taken into custody this here states is in accord, as will subse morning were admitted to bail. The quently appear, with the decision which nine kegs of powder were secured by the Justice Burbidge gave at the outset of officers.

Spring Valley, Ill., May 21.-Numbers , 2 and 4, of the Spring Valley Coal Company's mines are on fire at the bottom, and the company this morning ask-ed the strikers to allow the men to go to work extinguishing the flames. A meeting was called, and by a close vote it was decided not to allow the men to go down. The meeting was about to adjourn when Vice-President Murray, of the states miners' organization, arrived. He strongly urged the reconsideration of the vote. He said such action as they had taken was putting a club in the operators' hands, by which their cause would be defeated. In spite of Murray's remonstratices the miners adjourned without reconsidering the vote, and the timate to indicate that these chains are not as legally binding as any other claim; and there is nothing in the debates to that effect." Here, then, is the case which Messs. Lister and Davies have begun to inquire into. The payment of \$271,000 upon an estimate smuggled through parliament hotheaded and are terribly agitated. The English speaking miners are all in favor of putting out the fire, but they are in the minority.

Washington, D. C., May 21.-A request for troops to eject the two hun-dred striking miners in the Choctaw Nation on the ground that they are rioters was sent to the war department this vening by Secretary Smith. The acthem was taken on the recommendation of Acting Commissioner of Indian Af-fairs Amustrong. General Schofield, U. S. army, to-night telegraphed to the department commander that he has juris-diction to assist in preserving the peace. Danville, IM., May 21.-One hundred and fifty striking miners started afoot today for Mission Fields to compel 125 miners working there to quit. They say they will use force if necessary. The sheriff refuses to interfere unless the superintendent makes affidavits.

Pueblo, Colo., May 21.- An army of coal miners who left Florence this morning on their way to Rouse and Walsenand from November to the latter part of April had been ill with kidney trouble, at these works to go out arrived here to which he claims had gradually grown up- day. The sheriff of the county has been applied to for protection for trains, and has placed alarge force of deputies on guard, extra guards having been secured for the mines, and a supply of Winches ters has been forwarded to protect the men who desire to remain at work.

Council Declines to Order Wire **Directly Despite Prospec**tive Advances.

More About the V. & S. Railway-A Point of Order-Those Damage Cases.

All the aldermen were present at the council meeting last night. Mayor Teague presided. City Engineer Wilmot wrote report

ing that he had notified Chief Engineer Gray, of the Victoria & Sidney railway, from the council he would refuse to certify any work performed by the company until provision was made for getting free access to the water main. The letter explained that in accordance with a resolution of the council passed August 13, 1893, an amount of 10 per cent, of the adopted.

amount on deposit at the bank had been retained for the completion of the road fully equipped. The following letter from Engineer

Gray was endorsed:

Ald, Haris said that he doubted the power of the city to hold back the 10 per cent, referred to to. He moved that the city engineer be instructed to go over the York and the Duke and Duchess of work and estimate the cost of completing it from the present condition, the cost to be deducted from the amount to the company's credit, and certificates to be issued for the balance, also that the engineer be directed to prepare a plan of what the city desired at the crossing in

section 33. Ald. Wilson moved in amendment that the part relative to the issuance of certificates be struck out. It was so voted. City Engineer Wilmot and City As-sessor Northcott reported that they had visited Elk lake to examine the damage saimed to have been done to the property of W. Steinberger. They reported that no damage had been done, but if Mr. Steinberger's house has to be removed

the manufacturers, but he did not and to-day the people of Canada somme the principles of the man who told the threateners to "fire away" rather than

gested that the mayor be authorized to order the wire. Ald. Wilson suggested that a meeting be held to consider the matter. Ald, Baker said that there was no hurry, and urged that the matter be laid over. He did not care in particular

who gave the order. The mayor or the whole council might act. Ald. Munn said they had selected an

expert upon whom a great responsibility rested. He would from time to time pick upon certain articles and machinery and they should not undertake to dictate to him. The wire was a staple. He moved that the report be adopted.

Ald. Harris and Ald. Humphrey favred a special meeting. They both expressed confidence in the committee and expert, and the latter believed the wire should be ordered. A motion to call for tenders was withdrawn and it was tinally laid over until the next meeting. The sewerage committee reported on me minor matters and the report was

The sewerage loan, exhibition loan and hospital loan by-laws were recommended adopted and finally passed. Ald. Styles wanted to have tenders called for-the purchase of the grass on Beacon hill but Ald, Munn objected to doing business of that kind without a regular motion. The mayor ruled with Socialists Must Quit Drinking Before a

Ald. Munn said he had seen it stated

in the papers that the council had named three sewerage commissioners. When had it done so? When had it signified its willingness to do so? Where was any record of it on the minutes? The men mentioned were good ones but he wanted to hear their views and policy before voting for them. Ald. Styles and Humphrey explained

that it was agreed to name the men at a meeting held in the committee room after the last meeting. Ald. Munn said that that was a wretched irregular way of doing business.

GENERAL DISPATCHES.

There Was Only a Modest Quarter Million Overcharged on Curran Bridge.

And Besides That the Contractors Came in for Great Big Fat Profits.

Ottawa, May 22 .- At the meeting of the public accounts committee to-day the Curran bridge investigation was opened by the examination of J. P. B. Casgrain, C.E., of Montreal, who along with Joseph Roym, C.E., had examined into and made a special report on the work for the Montreal Herald Co. He showed that their, estimate of the cost, including everything in the bridge and the full cost of all kinds of work was \$201,000. while the accounts submitted so far were \$490,000. Their conclusions were that giving big profits to the contractors, there was \$290,000 too much charged.

A DREADFUL ALTERNATIVE

Boycott Can Be Effective.

Berlin, May 19.—The king of Wurtem-burg, William II., has caused a sensation in many circles by coming out with an open declaration against the policy of readmitting the members of the society of Jesus into Germany. In receiving the deputations from verious synods, the king expressed the opinion that the bun-

desrath could not confine the repeal of the anti-Jesuit law. "This," he sail, "is not only my personal attitude, but it is that of my government toward the question.

An expert here professes to have discovered the secret of manufacture of Herr Dowe's bullet proof coat. He declares that it consists of a Krupp's steel plate, probably two centimetres in thick-Less, protected by an oakum stuffing to deaden the impact of the bulet. Such a

plate, it is said, would resist the most discovery of his secret, and in reply gave

The dismissal of 800 men who absented themselves from work on May day has eral large Berlin brewerles. The socialists held nine meetings to have sorupulously maintained the boycott and have insisted on the recognition of the existing brewery workmen's union, the payment of indemnity to the dismissed men and their reinstatement. They also ask the granting of May day as a day of rest. So far the boycott is practically ineffective, as the non-boycotted breweries have

combined with the boycotted and refused to supply any beer houses which have stopped taking beer from the boycotted

principles of the man who told the threateners to "fire away" rather than accept power at the expense of the masses Bad as was the condition of affairs in

1877, it is worse to-day. On that occasion the manufacturers were dealing with the opposition and they had to take chances of the success or defeat of the party which espoused their cause. Today the party they support are in power, and therefore when they come to Ottawa they do not leave until the goods are delivered-or in other words-until the tariff is just fixed to suit them. It the reduction in the first place was not made with a view of making better terms with the combinesters by restoring the duties to the old figures. But what I wish to point out is that

all this juggling and trading between the government and the manufacturers has greatly retarded the work of getting the tariff through committee. Last Friday night the house had to adjourn because the government was not ready to go on with the items of the tariff which are now standing over for the further consideration of the government and the manufacturers. On these items the terms were not struck. The public accounts committee has a case of some importance before it. It.

arose on the examination of Mr. D. O'Connor, of Ottawa, in respect to his account of \$19,000 for legal services last year. One of the cases which Mr. O'Connor had charge of was that of the "hard pan" claims. They arose out of the construction of the Cape Breton and New Glasgow railways. The contractors put in a claim to the government that there was "hard pan," being a stiff clay mixed with gravel in their contract, in places where they did not expect to meet if. This was back in 1885. The claims were finally referred to a sub-committee of the cabinet. The maritime province ministers were all along anxious that these claims should be settled. Just bcfore the elections of 1891 the contractors evidently got a guarantee that their claims were going to be recognized, for

all of them are said to have taken an active hand in the campaign. At any rate, in 1892 the claims were referred to the exchequer court. Justice Burbidge refused to hear the case, on the grounds that it did not come under the statute. It was referred to him by order-in-coununder the contract, as the statute difeted.

The auditor-general's letter clearly sets forh his view. It is dated 18th Septem-

ber, 1893, and is addressed to the deputy minister of railways, in reply to an apbication for his authority for the pay-ment of the contractors. He says he mother went to see the master, Dr. Jow-of Little St. Antoine. The suicide was certain rise in the market. ods of the Fishermen.

Along the coast of Maine, between Portland and Mount Desert, there are numerous islands, most of them sterile, owing to their rocky formation. Among the fish to be found in that part of the Atlantic, the strangest is the huge creature known as the sunfish. It is uncouth in shape, being usually about throne was moved in the lower house, five feet in length and fully four feet the principal feature of which was a re- from back to belly. There is scarcely any treaties against foreigners, which caused one on the belly, the other on the mid-the dissolution of the last house. The die of its back. This upper fin is always out of the water, and as the fish has a In an interview Sir George Grey, prime | rapid movement, it makes a curious appearance as it rushes along the surface. To hunt sunfish it is customary for the not tolerate the interference of Germany fishermen to stand with a spear on the in the tripartite government of Samoa. tip of the bowsprit of a fast catboat, and as the boat passes the monster the naval arsenal on the west coast, he says, they are absolutely secure, but would not unwieldy body. The line to the harpoon is about thirty feet long, and the loose end is fastened to an empty keg. If General Antonio Ezeta was killed is de- the cast is successful the harpooner yells 'out "fast!" when the helmsman throws

the keg overboard. The fish on feeling its wounds darts is used to give the coup de gace.
